**A Long Dark Night** J. Michael Martinez,2016-04-14 For a brief time following the end of the U S Civil War American political leaders had an opportunity slim to be sure but not beyond the

realm of possibility to remake society so that black Americans and other persons of color could enjoy equal opportunity in civil and political life. It was not to be. With each passing year after the war and especially after Reconstruction ended during the 1870s, American society witnessed the evolution of a new white republic as national leaders abandoned the promise of Reconstruction and justified their racial biases based on political, economic, social, and religious values that supplanted the old North-South slavery abolitionist schism of the antebellum era. *A Long Dark Night* provides a sweeping history of this too often overlooked period of African American history that followed the collapse of Reconstruction from the beginnings of legal segregation through the end of World War II. Michael J. Martinez argues that the 1880s ushered in the dark night of the American Negro, a night so dark and so long that the better part of a century would elapse before sunlight broke through. Combining both a top-down perspective on crucial political issues and public policy decisions as well as a bottom-up discussion of the lives of black and white Americans between the 1880s and the 1940s, *A Long Dark Night* will be of interest to all readers seeking to better understand this crucial era that continues to resonate throughout American life today.

*The Jazz Republic* Jonathan O. Wipplinger, 2017-05-16 *The Jazz Republic* examines jazz music and the jazz artists who shaped Germany's exposure to this African American art form from 1919 through 1933. Jonathan O. Wipplinger explores the history of jazz in Germany as well as the roles that music, race, especially Blackness, and America played in German culture and follows the debate over jazz through the fourteen years of Germany's first democracy. He explores visiting jazz musicians including the African American Sam Wooding and the white American Paul Whiteman and how their performances were received by German critics and artists. *The Jazz Republic* also engages with the meaning of jazz in debates over changing gender norms and jazz's status between paradigms of high and low culture. By looking at German translations of Langston Hughes's poetry as well as Theodor W. Adorno's controversial rejection of jazz in light of racial persecution, Wipplinger examines how jazz came to be part of German cultural production more broadly in both the US and Germany in the early 1930s. Using a wide array of sources from newspapers, modernist and popular journals, as well as items from the music press, this work intervenes in the debate over the German encounter with jazz by arguing that the music was no mere symbol of Weimar's modernism and modernity. Rather than reflecting intra-German and/or European debates, it suggests that jazz and its practitioners—African American, white American, Afro-European, German, and otherwise—shaped Weimar culture in a central way.

*The Challenge of American History* Louis P. Masur, 1999-05-20 In *The Challenge of American History*, Louis Masur brings together a sampling of recent scholarship to determine the key issues preoccupying historians of American history and to contemplate the discipline's direction for the future. The fifteen summary essays included in this volume allow professional historians, history teachers, and students to grasp in a convenient and accessible form what historians have been writing about.

*Artful History* Aaron Sachs, John Demos, 2020-02-18 A collection of memorable, stirring, and eloquent historical essays designed to help any historian write more artfully. Is there any reason that serious historical scholarship cannot receive

literary expression Isn't it possible that the most committed empiricists and postmodernists might both achieve better results by thinking of writing as a craft rather than just a means of packaging research This book compiles some of the most compelling efforts to make history writing eloquent stirring and memorable in the realms of both practice and theory The authors included here prove the great potential of approaching the writing of history as a literary art even as they retain a commitment to rigorous scholarship The collection shows how historians can aspire to find a form that matches and enhances their substance nudging readers toward what historian John Clive called the spell that lingers in the memory and is conducive not just to reading but to rereading With selections from Jonathan Spence Simon Schama Saidiya Hartman Wendy Warren Jill Lepore Louis Masur Jane Kamensky and John Demos among others *White Women, Rape, and the Power of Race in Virginia, 1900-1960* Lisa Lindquist Dorr, 2005-12-15 For decades historians have primarily analyzed charges of black on white rape in the South through accounts of lynching or manifestly unfair trial proceedings suggesting that white southerners invariably responded with extralegal violence and sham trials when white women accused black men of assault Lisa Lindquist Dorr challenges this view with a careful study of legal records newspapers and clemency files from early twentieth century Virginia White Virginians inflammatory rhetoric she argues did not necessarily predict black men's ultimate punishment While trials were often grand public spectacles at which white men acted to protect white women and to police interracial relationships Dorr points to cracks in white solidarity across class and gender lines At the same time trials and pardon proceedings presented African Americans with opportunities to challenge white racial power Taken together these cases uncover a world in which the mandates of segregation did not always hold sway in which whites and blacks interacted in the most intimate of ways and in which white women and white men saw their interests in conflict In Dorr's account cases of black on white rape illuminate the paradoxes at the heart of segregated southern society the tension between civilization and savagery the desire for orderly and predictable racial boundaries despite conflicts among whites and relationships across racial boundaries and the dignity of African Americans in a system dependent on their supposed inferiority The rhetoric of protecting white women spoke of white supremacy and patriarchy but its practice revealed the limits of both *The Cry Was Unity: Communists and African Americans, 1917-1936* , The Communist Party was the only political movement on the left in the late 1920s and 1930s to place racial justice and equality at the top of its agenda and to seek and ultimately win sympathy among African Americans This historic effort to fuse red and black offers a rich vein of experience and constitutes the theme of *The Cry Was Unity* Utilizing for the first time materials related to African Americans from the Moscow archives of the Communist International Comintern *The Cry Was Unity* traces the trajectory of the black red relationship from the end of World War I to the tumultuous 1930s From the just recovered transcript of the pivotal debate on African Americans at the 6th Comintern Congress in 1928 the book assesses the impact of the Congress's declaration that blacks in the rural South constituted a nation within a nation entitled to the right of self determination

Despite the theory's serious flaws it fused the black struggle for freedom and revolutionary content and demanded that white labor recognize blacks as indispensable allies As the Great Depression unfolded the Communists launched intensive campaigns against lynching evictions and discrimination in jobs and relief and opened within their own ranks a searing assault on racism While the Party was never able to win a majority of white workers to the struggle for Negro rights or to achieve the unqualified support of the black majority it helped to lay the foundations for the freedom struggle of the 1950s and 1960s *The Cry Was Unity* underscores the successes and failures of the Communist led left and the ways in which it fought against racism and inequality This struggle comprises an important missing page that needs to be returned to the nation's history Mark Solomon an emeritus professor at Simmons College is the author of *Red and Black Communism and Afro Americans 1929-1935 Death Waltz to Armageddon* E P Thompson and the Peace Movement and *Stopping World War II with Michael Myerson*

**The Oxford Handbook of Jewish Studies** Martin Goodman, Jeremy Cohen, David Sorkin, 2002 This volume on Jewish studies presents surveys of today's interests and directions in the humanities and social sciences It covers the main areas taught and researched as part of Jewish studies in universities throughout the world especially in Europe the US and Israel

**Nineteenth-Century American Fiction on Screen** R. Barton Palmer, 2007-03-08 The process of translating works of literature to the silver screen is a rich field of study for both students and scholars of literature and cinema The fourteen essays collected in this 2007 volume provide a survey of the important films based on or inspired by nineteenth century American fiction from James Fenimore Cooper's *The Last of the Mohicans* to Owen Wister's *The Virginian* Many of the major works of the American canon are included including *The Scarlet Letter* *Moby Dick* and *Sister Carrie* The starting point of each essay is the literary text itself moving on to describe specific aspects of the adaptation process including details of production and reception Written in a lively and accessible style the book includes production stills and full filmographies Together with its companion volume on twentieth century fiction the volume offers a comprehensive account of the rich tradition of American literature on screen

**A Question of Manhood, Volume 1** Darlene Clark Hine, Ernestine Jenkins, 1999-10-22 Each of these essays illuminates an important dimension of the complex array of Black male experiences as workers artists warriors and leaders The essays describe the expectations and demands to struggle to resist and facilitate the survival of African American culture and community Black manhood was shaped not only in relation to Black womanhood but was variously nurtured and challenged honed and transformed against a backdrop of white male power and domination and the relentless expectations and demands on them to struggle resist and to facilitate the survival of African American culture and community
