Organizations Michal Izak,Linda Hitchin,David Anderson,2014-11-13 The field of organizational storytelling research is
 productive vibrant and diverse Over three decades we have come to understand how organizations are not only full of stories
 but also how stories are actively making sustaining and changing organizations This edited collection contributes to this body
 of work by paying specific attention to stories that are neglected edited out unintentionally omitted or deliberately left silent
 Despite the fact that such stories are not voiced they have a role to play in organizational analysis The chapters in this
 volume variously explore how certain realities become excluded or silenced The stories that remain below the audible range
 in organizations offer researchers an access to study political practices which marginalise certain organisational realities
 whilst promoting others This volume offers a further contribution by paying heed to silence and the processes of silencing
 These silences influence the choice of issues on organisational agendas the choice of audience s to which these discourses
 are addressed and the ways of addressing them In exploring these relatively understudied terrains Untold Stories in
 Organizations comprises an important contribution to the organizational storytelling space opening paths for new trajectories
