French Short Stories : Magical Realism Nicky Huys,2024-02-18 French Short Stories Magical Realism invites readers into a captivating world where the enchanting allure of French literature meets the spellbinding magic of surreal storytelling This collection of short stories weaves a tapestry of fantastical tales set against the backdrop of France where ordinary lives intertwine with extraordinary occurrences From whimsical encounters in Parisian streets to mystical secrets hidden in the French countryside each story immerses the reader in a realm where the boundaries of reality and imagination blur Through evocative prose and vivid imagery these stories transport readers to a realm where the ordinary becomes extraordinary and the everyday is tinged with a touch of enchantment This anthology celebrates the rich tradition of French storytelling while embracing the enchanting allure of magical realism offering a literary journey that will captivate and inspire readers The Colonial Comedy: Imperialism in the French Realist Novel Jennifer Yee,2016-08-12 Nineteenth century French Realism

focuses on metropolitan France with Paris as its undisputed heart Through Jennifer Yee s close reading of the great novelists of the French realist and naturalist canon Balzac Flaubert Zola Maupassant The Colonial Comedy reveals that the colonies play a role at a distance even in the most apparently metropolitan texts In what Edward Said called geographical notations of race and imperialism the presence of the colonies off stage is apparent as imported objects colonial merchandise and individuals whose colonial experience is transformative Indeed the realist novel registers the presence of the emerging global world system through networks of importation financial speculation and immigration as well as direct colonial violence and power structures The literature of the century responds to the last decades of French slavery and direct colonialism notably in Algeria but also economic imperialism and the extension of French influence elsewhere Far from imperialist triumphalism in the realist novel exotic objects are portrayed as fake or mass produced for the growing bourgeois market while economic imperialism is associated with fraud and manipulation The deliberate contrast of colonialism and exoticism within the metropolitan novel and ironic distancing of colonial narratives reveal the realist mode to be capable of questioning its own epistemological basis The Colonial Comedy argues for the existence in the nineteenth century of a Critical Orientalism characterized by critique of its own discursive foundations Using the tools of literary analysis within a materialist approach The Colonial Comedy opens up the domestic Paris Provinces axis to signifying chains pointing towards the colonial space

Schehr,1997-07-01 Realist novels are usually seen as verisimilar representations of the world and even when that verisimilitude is critically examined as it has been by Marxist and feminist critics the criticism has referred to extra literary matters such as bourgeois ideology or defects in the portrayal of women This book takes as its thesis that the point defining realism is the point at which the processes of representation break down a sort of black hole of textuality a rent in the tissue The author argues that our notions of continuity of readability of representability or our ideas about unity and ideological shift or even our notions of what is hidden occulted or absent all come from the nineteenth century realist model itself Instead of assuming representability the author argues that we should look at places where the texts do not continue the representationalist model where there is a sudden falling off an abyss Instead of seeing that point as a shortcoming the author argues that it is equal to the mimetic successes of representation After an initial chapter dealing with the limits and ruptures of textuality the book considers the work of Stendhal from its early state as a precursor to the later realism to La Chartreuse de Parme which shows how the act of communication for Stendhal is always made of silences gaps and interruptions The author then reads several works of Balzac showing how he while setting up the praxes of continuity on

which his oeuvre depends ruptures the works at various strategic points In a chapter entitled Romantic Interruptions works of Nerval and the younger Dumas seemingly unrelated to the realist project are shown to be marked by the ideological representational and semiotic assumptions that produced Balzac The book concludes with Flaubert looking both at how Flaubert incessantly makes things unfit and how critics even the most perspicacious postmodern ones often try to smooth over the permanent crisis of rupture that is the sign of Flaubert's writing *Journal of Education*, 1907 **Quarterly Bulletin** Nebraska. State Teachers College, Kearney, 1928 D H Lawrence: Selected Short Stories Andrew Harrison, 2011-11-05 This study guide provides a stimulating and carefully structured introduction to Lawrence's short stories It guides the listener to a deeper critical understanding of individual stories but it also provides model commentaries on several of their most prominent narrative techniques The Problem of American Realism Michael Davitt Bell, 1993 Ever since William Dean Howells declared his realism war in the 1880s literary historians have regarded the rise of realism and naturalism as the great development in American post Civil War fiction Yet there are many problems with this generalization It is virtually impossible for example to extract from the novels and manifestoes of American writers of this period any consistent definitions of realism or naturalism as modes of literary representation Rather than seek common traits in widely divergent realist and naturalist literary works Michael Davitt Bell focuses here on the role that these terms played in the social and literary discourse of the 1880s and 1890s Bell argues that in America realism and naturalism never achieved the sort of theoretical rigor that they did in European literary debate Instead the function of these ideas in America was less aesthetic than ideological promoting as reality a version of social normalcy based on radically anti literary and heavily gendered assumptions What effects Bell asks did ideas about realism and naturalism have on writers who embraced and resisted them To answer this question he devotes separate chapters to the work of Howells and Frank Norris the principal American advocates of realism and naturalism in the 1880s and 1890s Mark Twain Henry James Stephen Crane Theodore Dreiser and Sarah Orne Jewett Bell reveals that a chief function of claiming to be a realist or a naturalist was to provide assurance that one was a real man rather than an effeminate artist Since the 1880s Bell asserts all serious American fiction writers have had to contend with this problematic conception of literary realism The true story of the transformation of American fiction after the Civil War is the history of this contention a history of individual accommodations evasions holding actions and occasional triumphs **The American Catalogue**, 1908 American national trade bibliography The American Catalogue ...
