Fennell, Michael Bourgeois, 2019-02-14. The United Church of Canada has a rich and complex history of theological development. This volume written for the general reader as well as students and scholars provides a comprehensive overview of that development together with an analysis of this unique denomination's core statements of faith and its contemporary theological landscape. When the Methodist Congregational and Local Union Churches in Canada as well as most of the Presbyterians came together as The United Church of Canada the theological commonalities between them were significant. Over the succeeding decades this made in Canada denomination has continued to define its convictions through consensus building and large scale studies. This volume written by leading scholars outlines key faith perspectives in areas such as creation the Trinity Jesus Christ the Holy Spirit the Bible sin mission and sacraments. No book like this has appeared in over seventy years and readers will find insight here that is unparalleled in its scope. In creative tension with each individual member's freedom of conscience the United Church as a whole has continued to express its commonly held faith in dialogue continuity and critical interaction with the faith of the worldwide historic Christian community. Wielding Words like Weapons Ward Churchill, 2017-04-15. Wielding Words like Weapons is a collection of acclaimed American Indian Movement activist intellectual Ward Churchill's essays in indigenism selected from material written during the decade 1995-2005. It includes a range of formats from sharply framed book reviews and equally pointed polemics and op eds to more formal essays designed to reach both scholarly and popular audiences. The selection also represents the broad range of topics addressed in Churchill's scholarship including the fallacies of archeological and anthropological orthodoxy such as the insistence of cannibalologists that American Indians were traditionally man-eaters. Hollywood's cinematic degradations of native people questions of American Indian identity the historical and ongoing genocide of North America's native peoples and the systematic distortion of the political and legal history of U.S. Indian relations. Less typical of Churchill's oeuvre are the essays commemorating Cherokee anthropologist Robert K. Thomas and Yankton Sioux legal scholar and theologian Vine Deloria Jr. More unusual still is his profoundly personal effort to come to grips with the life and death of his late wife Leah Renae Kelly thereby illuminating in very human terms the grim and lasting effects of Canada's residential schools upon the country's indigenous peoples. A foreword by Seneca historian Barbara Alice Mann describes the sustained efforts by police and intelligence agencies as well as university administrators and other academic adversaries to discredit or otherwise neutralize both the man and his work. Also included are both the initial stream of consciousness version of Churchill's famous or notorious little Eichmann's opinion piece analyzing the causes of the attacks on 9/11 as well as the counterpart essay in which his argument was fully developed.
