Bryan Norcross's Hurricane Almanac 2006 reviews the catastrophic season of 2005, including Hurricanes Katrina, Rita, and Wilma; looks forward to hurricane seasons to come; highlights the fascinating history of hurricanes interacting with civilization; and details our rapidly increasing ability, but still with limitations, to predict the severity and paths of storms. Key sections offer checklists of items needed to make homes, businesses, and people safe during storms; and where to find the best information before and during a storm, and how to best interpret it. Bryan will also include a provocative chapter entitled "What I'd do better" for a better hurricane system.
