A story reconstructed from the diaries notes and memories of the six hundred Jews who revolted three hundred of whom escaped the death camp Sobibor Dreamland Phil Patton,2012-10-31 There is a place in the Nevada desert the size of Belgium that doesn't officially exist It is the airbase where test flights of our top secret experimental military aircraft are conducted and not coincidentally where the conspiracy theorists insist the Pentagon is hiding UFOs and aliens This is Dreamland or Area 51 For Phil Patton the idea of writing a travel account of a place he couldn't actually visit was irresistible What he found was a world where Chick Yeager and the secret planes of the Cold War converged with the Nevada Test Site and alien landings at Roswell A think tank for aviation engineering Dreamland can be seen from a summit outside the base's perimeter a hundred miles north of Las Vegas On Freedom Ridge groups of airplane buffs gather with their camouflage outfits and binoculars These are the Stealth chasers the Skunkers guys with code names like Agent X and Zero hoping for a glimpse of the rumored raylike shapes of planes like Black Manta and the mother ship The most mysterious craft is Aurora the successor to the legendary U 2 said to run on methane and fly as fast as Mach 6 Scanning the same horizon the UFO buffs are looking for the hovering lights and doughnut shaped contrails of alien aircraft Are they looking at something sinister and mysterious Imagined Or more terrestrial than they think Dreamland shows how much we need mystery in the information age and how the cultures of nuclear power and airpower merge with the folklores of extraterrestrials and earthly conspiracies Patton found people who found themselves in the mysteries of the place John Lear the son of aviation pioneer Bill Lear who gave his name to the jet served as a pilot for the CIA's Air America but back home he became fascinated by UFOs and eventually believed in it all the underground bases the alien human hybrids the secret treaties But was he a true believer or part of a disinformation campaign Bob Lazar seems to know when the saucers will come and has made three clear sightings at night along Dreamland's perimeter but is his story real or a vision of what's possible Dreamland is an exploration of America's most secret place the base for our experimental airplanes the fount of UFO rumors an offshoot of the Nevada Test Site How this blackspot came to exist its history its creators its spies and counterspies is Phil Patton's tale He tunnels into the subcultures of the conspiracy buffs the true believers and the aeronautic geniuses creating a novelistic tour de force destined to make us all rethink our convictions about American know how and alien inventiveness *(No More) Mediocre Me* John E. Michel,2020-12-31 If you were to account for your life at this moment are you living up to your own potential Does your present state of affairs give you reason to be disappointed or discouraged Is your job unsatisfying your relationships far from what they could be your spiritual life a mere shadow of what it once was If you answered yes to one or more of these questions then there is a very good chance you like scores of other Americans have been lulled into accepting a life that is simply good enough This is what I term a Mediocre Me Mindset a confining way of thinking about your role in the world that convinces you to settle for the perceived safety of the status quo rather than push outside your comfort zone to try and make tomorrow a little better than you found it today In Mediocre Me you will find a simple yet profoundly powerful

approach to rethinking the way you view your role in the world It s a proven means of breaking free from the grasp of mediocrity so you can lead a life of true purpose meaning and significance And perhaps the best part of all it s not a new idea The concepts in Mediocre Me are actually anchored in an over two thousand year old legend One that reminds us we are at our individual and collective best not when we are standing still unwitting prisoners of the status quo but rather when we are unafraid to reject apathy and embrace action by leading the positive change we want to see occur in our surroundings Ralph Waldo Emerson once wrote America is another name for opportunity At a time in our nation s history when we seem more divided than united more fearful than hopeful there can be no more fence sitting It s time to begin writing a different more empowering personal leadership story of your own One that will energize you to do what you can when you can where you can to be a force for good in your part of the world when doing so is needed now more than ever

cultural revolution that Edison's invention made possible Recorded sound has pervaded nearly every facet of modern life not just popular music but also mundane office dictation machines radio and television programs and even telephone answering machines Just as styles of music have evolved so too have the formats through which sound has been captured from 78s to LPs LPs to cassette tapes tapes to CDs and on to electronic formats The quest for better sound has certainly driven technological change but according to David L Morton so have business strategies patent battles and a host of other factors
