owners evacuated during the war return to their houses empty since 1939 Other essays in this volume especially those on James Joyce Jane Austen and the technique of writing offer indispensable mid century evaluations of the state of literature The essays assembled in this volume were published in British Irish and American periodicals during Bowen s lifetime She herself did not gather them into any collection Some of these essays exist only as typescript drafts and are published here for the first time Bowen s observations on age toys disappointment charm and manners place her among the very best literary essayists of the modernist period *Athenaeum and Literary Chronicle* ,1843 *The Idea of Nature in Disney Animation* David Whitley,2016-03-03 In the second edition of *The Idea of Nature in Disney Animation* David Whitley updates his 2008 book to reflect recent developments in Disney and Disney Pixar animation such as the apocalyptic tale of earth s failed ecosystem WALL E As Whitley has shown and Disney s newest films continue to demonstrate the messages animated films convey about the natural world are of crucial importance to their child viewers Beginning with Snow White Whitley examines a wide range of Disney s feature animations in which images of wild nature are central to the narrative He challenges the notion that the sentimentality of the Disney aesthetic an oft criticized aspect of such films as Bambi The Jungle Book Pocahontas Beauty and the Beast and Finding Nemo necessarily prevents audiences from developing a critical awareness of contested environmental issues On the contrary even as the films communicate the central ideologies of the times in which they were produced they also express the ambiguities and tensions that underlie these dominant values In distinguishing among the effects produced by each film and revealing the diverse ways in which images of nature are mediated Whitley urges us towards a more complex interpretation of the classic Disney canon and makes an important contribution to our understanding of the role popular art plays in shaping the emotions and ideas that are central to contemporary experience
