Temples Churches And Mosques:

Temples, Churches, and Mosques John Gordon Davies, 1982 *Checkpoint, Temple, Church and Mosque* Jonathan Spencer, Jonathan Goodhand, Shahul Hasbullah, Bart Klem, Benedikt Korf, Kalinga Tudor Silva, 2014-12-20 Is religion best seen as only a cause of war or is it a source of comfort for those caught up in conflict In *Checkpoint Temple Church and Mosque* six senior figures in Anthropology Sociology Geography and Development Studies set out to answer this question Based on fieldwork conducted in Sri Lanka s most religiously diverse and politically troubled region during the country s civil war 1983-2009 it provides a series of new and provocative arguments about the promise of a religiously based civil society and the strengths and weaknesses of religious organisations and religious leaders in conflict mediation The authors argue that for people trapped in long and violent conflicts religion ultimately plays a contradictory role and that its institutions are themselves profoundly affected by war producing a complex picture in which Catholic priests engage with Buddhist monks and new Muslim leaders and where Hindu temples and Pentecostal churches offer the promise of healing *Temples, Churches and Mosques of Turkey* James Steele, 1991-01-01 *European Churches and Chinese Temples as Neuro-Theatrical Sites* Mark Pizzato, 2024-04-04 Compares monumental designs and performance spaces of Christian Buddhist and related sanctuaries exploring how brain networks animal human emotions and cultural ideals are reflected historically and affected today as inner theatre elements Integrating research across the humanities and sciences this book explores how traditional designs of outer theatrical spaces left cultural imprints for the inner staging of Self and Other consciousness which each of us performs daily based on how we think others view us But believers also perform in a cosmic theatre Ancestral spirits and gods or God watch and interact with them in awe inspiring spaces grooming affects toward in group identification and sacrifice or out group rivalry and scapegoating In a study of over 80 buildings shown by 40 images in the book plus thousands of photos and videos online Pizzato demonstrates how they reflect meta theatrical projections from prior generations They also affect the embodied embedded enacted and extended 4E cognition of current visitors who bring performance frameworks of belief hope and doubt to the sacred site This involves neuro social inner outer theatre networks with patriarchal maternal and trickster paradigms *European Churches and Chinese Temples as Neuro Theatrical Sites* investigates performative material cultures creating dialogs between theatre philosophy history and various cognitive affective social biological sciences It applies them to the architecture of religious buildings from Catholic Orthodox and Protestant in Europe plus key sites in Jerusalem and prior pagan temples to Buddhist Daoist Confucian and imperial in China It thus reveals individualist collectivist focal holistic analytical dialectical and melodramatic tragicomic trajectories with cathartic poetics for the future *The Architecture of Roman Temples* John W. Stamper, 2005-02-16 This book examines the development of Roman temple architecture from its earliest history in the sixth century BC to the reigns of Hadrian and the Antonines in the second century AD John Stamper analyzes the temples formal qualities the public spaces in which they were

located and most importantly the authority of precedent in their designs He also traces Rome's temple architecture as it evolved over time and how it accommodated changing political and religious contexts as well as the affects of new stylistic influences *In the Shadow of the Church* Mattia Guidetti, 2016-11-07 In his book *In the Shadow of the Church The Building of Mosques in Early Medieval Syria* Mattia Guidetti examines the establishment of Muslim religious architecture within the Christian context in which it first appeared in the Syrian region contributing to the debate on the transformation of late antique society to a Muslim one He scrutinizes the slow process of conversion to Islam of the most important town centers by looking at religious places of both communities between the seventh and the eleventh century The author assesses the relevancy of churches by analyzing the location of mosques and by researching phenomena of transfer of marble material from churches to mosques Temples, Churches and Mosques Yakub Hasan, 1926 *Temple Architecture* Benjamin Ramirez, AI, 2025-03-06 *Temple Architecture* explores the profound connection between religious buildings and the spiritual experiences they foster Delving into diverse architectural styles across faiths the book uncovers how specific designs communicate religious beliefs and values Temples beyond being mere structures serve as communal spaces fostering spiritual connections and collective identity Did you know that architectural choices like layout and ornamentation contribute to the overall sacred atmosphere Or that understanding the historical context of religious architecture is vital for appreciating its nuances This book takes a systematic approach to understanding temple architecture blending architecture religious studies and cultural history It moves beyond aesthetics to reveal deeper meanings within sacred spaces The analysis incorporates historical records architectural plans and on site observations enhanced by visual aids The book progresses through three parts introducing core concepts and styles analyzing designs from different periods and religions and examining the practical implications for architects This exploration demonstrates how temple design is not just functional but actively shapes religious experiences reinforcing the bond between worshippers and the divine

Bustamam-Ahmad,2015-04-01 This book presents an ethnographic study of the Jam ah Tabl gh in Kuala Lumpur Malaysia and Banda Aceh Indonesia It explores the nature of organised religious practice within this Islamic missionary group and illustrates the situation of faith amongst the members which is coloured by Sufist elements A central focus of the study is an exploration of the situation of faith or religious awareness of members of Jam ah Tabl gh by undertaking a detailed examination of the aims and distinctive practices of the organisation in individual chapters The book develops a pyramid of religious awareness which enables an understanding of the religious experiences of Muslims in terms of three aspects shar ah haq qah reality and ma rifah gnosis The pyramid offers a conceptual model of an internal problematic common to Muslims in relation to their beliefs and the organisation and conduct of their daily lives The book is particularly significant for the insights it provides into how a desire to reinstate an Islamic caliphate as part of a return to al Qur an and al Sunnah may be realised in the contemporary period through radical yet non violent means drawing heavily on the mosque based form of government implemented by the Prophet Muhammad in Medina This study will also prove to be useful for studies of other non Islamic religious groups where the religious person is one who submits him or herself to God A further argument of the book is the proposal that the highest level of human being is ins n k mil the perfect man that is one who has utilised his active intelligence
