**Frenzy!** Neil Root, 2012-08-31 Murder has transfixed the popular press for centuries But it was only in the second half of the twentieth century that murder began saturating front pages and making these monsters what we today recognise as modern celebrities It was three serial killers caught and executed in the few years after the end of the Second World War who precipitated a level of public furore never seen before Neville Heath a charming sadist who killed two women John George Haigh the Acid Bath Killer who killed between six and nine men and women and John Christie the ineffectual necrophile who killed between six and eight women The modern news coverage finds its roots with these three men whom the crime historian Donald Thomas called the Postwar Psychopaths Their crimes were the first to generate a tabloid frenzy the like of which we see all around us today It was not only the murderers who captured the public s imagination It was the detectives who hunted them down the judiciary who tried them and the man who executed them the legendary hangman Albert Pierrepoint This book tells the stories of these three infamous serial killers against the backdrop of the tabloid frenzy that surrounded them

**Politics of The Rope** Neville Twitchell, 2012-10-15 This illuminating broad based political and cultural study presents the definitive account of the campaign to abolish capital punishment in the period 1955-69 It comprises a work of contemporary history exploring the theme from a number of angles both pro and contra which have not been covered so extensively before From the sphere of governmental and parliamentary politics to the relevant pressure groups to the role of the mass media to the significance of the different churches and the influence of professional bodies such as those representing the police and prison officers the book skilfully identifies their interaction with one another It examines the effect on the campaign of fluctuations in public opinion and of controversial murder cases such as those of Timothy Evans Derek Bentley Ruth Ellis and James Hanratty which in turn often informed the state of public opinion The work sets the campaign in the context of the social and cultural ferment of the era the advent of the permissive society and contrasts the fortunes of the movement with those of other conscience issues such as the legalisation of abortion homosexual law reform divorce liberalisation and the abolition of theatre censorship It seeks to account for the success of the campaign within a relatively short time span in the face of intense public antipathy and a concerted effort by various elements of the establishment to thwart its fulfilment It asks why the campaign succeeded when so many others facing lesser institutional obstacles failed and it asks why it succeeded when it did and in the way it did and considers whether the success of the campaign can be accounted for by the Zeitgeist On one level it is a study of the politics of social

reform but at a deeper level it is a study of the way in which social trends feed through into political action at the parliamentary level and illustrates the process of policy formation in the area of private members legislation and free votes where the party has voluntarily taken a back seat      *A Comprehensive Encyclopedia of Film Noir* John Grant, 2023-09-21

Featuring rumpled PIs shyster lawyers corrupt politicians double crossers femmes fatales and of course losers who find themselves down on their luck yet again film noir is a perennially popular cinematic genre This extensive encyclopedia describes movies from noir's earliest days and even before looking at some of noir's ancestors in US and European cinema as well as noir's more recent offshoots from neonoirs to erotic thrillers Entries are arranged alphabetically covering movies from all over the world from every continent save Antarctica with briefer details provided for several hundred additional movies within those entries A copious appendix contains filmographies of prominent directors actors and writers With coverage of blockbusters and program fillers from *Going Straight* US 1916 to *Broken City* US 2013 via *Nora Inu* Japan 1949 *O Anthropos tou Trainou* Greece 1958 *El Less Wal Kilab* Egypt 1962 *Reportaje a la Muerte* Peru 1993 *Zift* Bulgaria 2008 and thousands more *A Comprehensive Encyclopedia of Film Noir* is an engrossing and essential reference work that should be on the shelves of every cinephile      *Ghost Criminology* Michael Fiddler, Theo Kindynis, Travis Linnemann, 2022-01-18

Bringing together prominent early contributions from this emergent perspective the volume traces the origins theory and methodology of a nascent ghost criminology From the powers of exorcism and erasure marshaled by state agents street level struggles over memorialization and memory to the lingering violence of crime scenes and the ghostly traces of outlaw artists *Ghost Criminology* is a book attuned to that which is well theorized in other disciplines the spectral hauntological apparitional Each of the writers assembled here shares as Mark Fisher 2017 put it a fascination for the outside that which lies beyond standard perception cognition and experience As such this collection uses cutting edge social and cultural theory to tangle with some of criminology's most stubborn revenants the politics of criminalization the commodification of crime and violence the haunting power of the image as well as the unheard and disregarded cries of the dead      *London Murders* David Long, 2020-08-05

People love hearing about a grisly murder gasping at the gory details wondering about the motives deducing who did it This macabre fascination is nothing new In the past racehorses greyhounds and even a ship have been named after some of the most notorious murderers and it doesn't look like our interest is waning any time soon *London Murders* is a unique guidebook that explores the darker side of London's history pinpointing the exact locations of the bloodiest most intriguing and sinister murders It describes in detail the events the characters involved and the eventual fates of the perpetrators which include playwrights and politicians celebrities and spies royalty aristocrats and of course countless ordinary Joes Featuring infamous names such as Crippen Kray Haigh Christie and Ellis whose terrible crimes shocked the world *London Murders* matches crimes to locations as David Long walks the reader through the city's streets whilst revealing their tragic and awful histories      *Shocking and Sensational* Julian Upton, 2018-06-05

Already part of a genre known for

generating controversy some true crime and scandal books have wielded a particular power to unsettle readers provoke authorities and renew interest in a case The reactions to such literature have been as contentious as the books themselves clouding the truth with myths and inaccuracies From high profile publishing sensations such as Ten Rillington Place Fatal Vision and Mommie Dearest to the wealth of writing on the JFK assassination the death of Marilyn Monroe and the Black Dahlia murder this book delves into that hard copy era when crime and scandal books had a cultural impact beyond the genre s film and TV documentaries fueling outcries that sometimes matched the notoriety of the cases they discussed and leaving legacies that still resonate today
