Tending The Earth A Gardening Manifesto:

Tending the Earth Lorraine Johnson, 1968 When the Spanish ambassador moves in next door Madeline and the rest of the twelve little girls discover that his son is not the best neighbor

A Northern Gardener's Guide to Native Plants and Pollinators Lorraine Johnson, Sheila Colla, 2023-04-11 Few sights are as charming as a hummingbird hovering over cardinal flowers in your backyard or a butterfly lighting on the black eyed Susans potted on your balcony Yet pollinators do more than beguile us they are key to a healthy environment With many pollinators threatened and their habitats disappearing gardeners can make a real difference by planting native species that support these amazing creatures The trick is knowing what species to plant and how to help them thrive If you re a gardener or aspiring gardener in the Northeast Upper Midwest or Great Lakes region this beautiful 4 color guide will become your go to reference to the most beneficial plants in your area It includes profiles of more than 300 native plants featuring lovely illustrations and photos information on blooming periods exposure soil moisture and good plant companions as well as how each species supports specific pollinators You ll learn more about common plants you thought you knew and be introduced to species you may have never encountered before Blooming flowers native grasses trees shrubs vines and plants for rain and pond gardens are all included White Baneberry Woodland Strawberry Boneset Virginia Mountain Mint Smooth Aster and many others may find their way from these pages to your soil While understanding specific plants is key so too are growing strategies Here you ll learn how to prepare your site and find sample garden designs whether your growing space is an apartment balcony a residential yard or a community garden Throughout you ll discover the power of plants to not only enrich your personal environment but to support the pollinators necessary for a thriving planet

A Garden for the Rusty-Patched Bumblebee Lorraine Johnson, Sheila Colla, 2022-05-21 Support biodiversity with this practical guide to creating habitat gardens for native pollinators in Southern Ontario Saving the bees is an environmental cause that resonates deeply with Canadians While much of the popular focus is on honeybees an introduced species many people are largely unaware of the importance of native bees These pollinators are of crucial importance and are threatened by climate change habitat loss and fragmentation and disease and competition from non native species and modern intensive agriculture A Garden for the Rusty Patched Bumblebee provides all the information needed for gardeners to take action to support and protect pollinators by creating habitat in yards and communal spaces and on balconies and rooftops There are approximately 400 species of native bees in Ontario including bumblebees sweat bees mining bees cuckoo bees leafcutter bees and cellophane bees This book introduces and deepens the concept of pollinator gardening creating gardens that help bees thrive by exploring specialist relationships For example the native to Ontario sweat bee *Lasioglossum oenotherae* specializes in pollen from the native evening primrose plant With plant recommendations specific to Southern Ontario as well as useful garden designs and numerous tips for success this compact full colour guide will enable gardeners to discover the crucial connections between native plants and native pollinators and learn how to

cultivate their own patch of pollinator paradise Eco-yards Laureen Rama,2011-02-08 A gentle practical and inspiring guide to help you transform your yard into a diverse healthy and sustainable landscape Myrna Pearman coauthor of NatureScape Alberta Many urban yards are essentially unproductive patches of grass requiring constant attention for no return Through sustainable organic landscaping these small or large plots of land can become part of the solution to today's environmental challenges Eco yards supports the vision of a healthy abundant planet in which beautiful richly varied urban yards contribute to restoring the natural ecosystem This inspiring and practical well illustrated manual includes clear easy to follow instructions for Designing and maintaining an eco yard Making your yard water wise Understanding basic soil science Replacing your lawn with tree shrub and flower beds or hardy low maintenance grass Growing vegetables in the eco yard Visionary hopeful and encouraging Eco yards is a must read for anyone who wants to use environmentally sound practices when they garden whether in a residential yard or on the balcony of a condo or high rise apartment If you're sick of the backyard battle this book will show you how to work with nature instead of fighting it using simple steps that apply practically anywhere to turn your yard into an eco friendly sanctuary A rich compost of the practical and scientific this is a book for every gardener concerned for the health of the environment Roberta Rees author of Long After Fathers Rama is a hands on gardener who explains in great detail everything from building soil to creating sustainable landscapes Read about it here and then get out and practice what Rama preaches Donna Balzer BScA horticulturist and co host of the internationally broadcast television show Bugs Blooms *Saving Farmland* Nathalie Chambers,2015 Saving Farmland shows how sustainability ecosystems and biodiversity transcend the paradox of man made losses Chambers details how to overcome obstacles choose models identify vital farmland build community and raise funds Stories of commonly shared land international trusts regained farmland and several real heroes provide inspiration that a future is possible where local farming and sustainable development will deliver good eating forever COVER *Human Dimensions of Ecological Restoration* Dave Egan,Evan E. Hjerpe,Jesse Abrams,2012-09-26 When it comes to implementing successful ecological restoration projects the social political economic and cultural dimensions are often as important as and sometimes more important than technical or biophysical knowledge Human Dimensions of Ecological Restoration takes an interdisciplinary look at the myriad human aspects of ecological restoration In twenty six chapters written by experts from around the world it provides practical and theoretical information analysis models and guidelines for optimizing human involvement in restoration projects Six categories of social activities are examined collaboration between land manager and stakeholders ecological economics volunteerism and community based restoration environmental education ecocultural and artistic practices policy and politics For each category the book offers an introductory theoretical chapter followed by multiple case studies each of which focuses on a particular aspect of the category and provides a perspective from within a unique social political cultural setting Human Dimensions of Ecological Restoration delves into the often neglected aspects of ecological

restoration that ultimately make the difference between projects that are successfully executed and maintained with the support of informed engaged citizens and those that are unable to advance past the conceptual stage due to misunderstandings or apathy The lessons contained will be valuable to restoration veterans and greenhorns alike scholars and students in a range of fields and individuals who care about restoring their local lands and waters **The Earth**

Manifesto David Tracey, 2013 We live in critical times Choices we make daily will affect the future of life itself Years from now children will study our era on the brink and ask their elders When the planet was burning what did you do Problems as big as the world are daunting but solutions are at hand within each of us The Earth Manifesto Saving Nature with Engaged Ecology offers an approach to regain control of our environmental destiny by rediscovering our affinity for nature and then acting to preserve it David Tracey's first RMB Manifesto is rooted in common sense and revolves around the author's Six Laws of Engaged Ecology which moves us from theory in concepts such as interdependence and the wilderness found in our minds to practice with explanations of ground truthing and the ways in which we can all work toward creating sustainable communities through shared environmental principles **The Northwest Garden Manifesto** John J. Albers, 2017-12-18

Gardens are extensions of our homes places in which we get outside to relax entertain and get some physical exercise But our gardens are also extensions of the natural world Through our gardens as well as other neighborhood greenspaces we can help counter some of the woes faced by larger environments rampant development loss of plant and animal habitat spread of invasive species exploitation of natural resources air and water pollution and the impacts of global warming Yes even small urban backyard landscapes can combat such man made strains on our local environment and it's easy to do In his new book The Northwest Garden Manifesto scientist and gardener John J Albers provides a comprehensive guide to encourage and enable homeowners to consider the local ecosystem in their own gardens and in their larger communities The ideas and concepts in this book reflect the most up to date thinking on urban ecology and how to best make our yards reflect the natural world around us The key to Albers's approach is for gardeners to first assess the current state of their property and then focus on the following key principles 1 Protect conserve and create healthy soil 2 Maintain healthy plants and create a sustainable landscape 3 Conserve water and other natural resources 4 Protect water and air quality 5 Protect and enhance wildlife habitat 6 Conserve energy 7 Use sustainable methods and materials Through clear explanation practical examples and full color photos Albers shows how to evaluate any yard in terms of these principles and then challenges the reader to improve each element one step at a time From creating better soil to starting a compost pile attracting pollinators to adding more native plants or creating a simple circulating water feature to building a fence from recycled wood gardeners will ultimately turn their backyards into beautiful healthy and happy habitat for all **Seasons**, 2002 **Canadian**

Geographic, 2002 *Canadian Books in Print*, 2003 Canadian Books in Print. Author and Title Index, 1975 **Oikos: God's Big Word for a Small Planet** Andrew Francis, 2017-04-25 How you spend your time and money controls what

happens on this planet Planet Earth and its people are in danger We face ongoing economic and ecological crises These will deepen unless all of God s people begin to act as one global community Natural resources are diminishing and the economic world order is changing We cannot go on living as though we can call up another planet Change is needed now and this book addresses that The biblical vision of the world as oikos meaning household is God s challenge to all people about the way we live now and in the future Oikos affirms the need for reconciliation and peace between faiths and nations and should determine our economic practices and how we care for the planet In this timely and challenging book is a renewed call to follow the Maker s instructions Whether it is 9 11 Chernobyl or the 2008 financial crash that call for change is repeating itself This book not only explains why we need to change but also provides practical advocacy of how you can help to achieve it
