*Studies in French Literature Presented to H. W. Lawton by Colleagues, Pupils and Friends* Harold Walter Lawton, 1968

*The Poetics of Scale* Conrad Steel, 2024-02-19 Since the start of the twentieth century poets have been irresistibly drawn to the image of the poem as a kind of data handling a way of mediating between the divergent scales of aesthetics and infrastructure language and technology Conrad Steel shows how the history of poetry with its particular formal affordances and the particular hopes and fears we invest it with has always been bound up with our changing logistics of macroscale representation *The Poetics of Scale* takes us back to the years before the First World War in Paris where the poet Guillaume Apollinaire claimed to have invented a new mode of poetry large enough to take on the challenges of the coming twentieth century This history follows Apollinaire's ideas across the Atlantic and examines how and why his work became such a vital source of inspiration for American poets through the era of intensive American economic expansion and up to the present day Threading together Apollinaire's work in the 1910s with three of his American successors Louis Zukofsky in the 1930s Allen Ginsberg in the 1950s and Alice Notley from the 1970s onward it shows how poetry as a cultural technique became the crucial test case for the scale of our collective imagination

### **Prague, Capital of the Twentieth Century**

Derek Sayer, 2021-11-09 The story of modernity told through a cultural history of twentieth century Prague Setting out to recover the roots of modernity in the boulevards interiors and arcades of the city of light Walter Benjamin dubbed Paris the capital of the nineteenth century In this eagerly anticipated sequel to his acclaimed *Coasts of Bohemia* A Czech History Derek Sayer argues that Prague could well be seen as the capital of the much darker twentieth century Ranging across twentieth century Prague's astonishingly vibrant and always surprising human landscape this richly illustrated cultural history describes how the city has experienced and suffered more ways of being modern than perhaps any other metropolis Located at the crossroads of struggles between democratic communist and fascist visions of the modern world twentieth century Prague witnessed revolutions and invasions national liberation and ethnic cleansing the Holocaust show trials and snuffed out dreams of socialism with a human face Yet between the wars when Prague was the capital of Europe's most easterly parliamentary democracy it was also a hotbed of artistic and architectural modernism and a center of surrealism second only to Paris Focusing on these years Sayer explores Prague's spectacular modern buildings monuments paintings books films operas exhibitions and much more A place where the utopian fantasies of the century repeatedly unraveled Prague was tailor made for surrealist Andr Breton's black humor and Sayer discusses the way the city produced unrivaled connoisseurs of grim comedy from Franz Kafka and Jaroslav Hasek to Milan Kundera and Vclav Havel A masterful and unforgettable account of a city where an idling flaneur could just as easily be a secret policeman this book vividly shows why Prague can teach us so much about the twentieth century and what made us who we are
