it needs and remake it as it sees fit It is at its lively best quite indifferent to the claims of style fashion theory and respectability provoking and inspiring through the pleasure of surprise In 2016 Philip Lopate who has been writing essays and thinking about the essay for decades now turned his attention to one of the essay s offshoots the blog a form by that time already thick as he knew with virtual dust Lopate committed to writing a weekly blog about really whatever over the course of a year a quicker pace of delivery than he d ever undertaken and one that carried the risk of all too regularly falling short What emerged was A Year and a Day a collection of forty seven essays best characterized as a single essay a year in the making a virtuosic if never showy demonstration of the essay s range and reach meandering looping back pressing reset forging on Lopate s topics along the way include family James Baldwin a trip to China Agnes Martin Abbas Kiarostami the resistible rise of Donald Trump death desire and the tribulations small and large of daily life What results is at once a self portrait a picture of the times and a splendid new elaboration of what the essay can be

Moments in Time Claudia Rhodes,2012-08 Right now I m feeling much pain so much so that if I don t write this story I promised my kids would soon be done and always and never materialized which has to be done if only for my own sanity and to ultimately free us all up I will feel lost Now What I didn t expect to write is this other story But that must be told to give a better understanding of why this whole mess happened anyway My dupey heads might come up with better reasons and then maybe someday they ll write their books with fond memories and less pain A bestseller will be yours I m sure If not in the bookstores it will be in your hearts I started writing my book over thirty years ago and some Smile

Seduced By Mathematics: The Enduring Fascination Of Mathematics James D Stein,2022-07-20 Seduction is not just an end result but a process and in mathematics both the end results and the process by which those end results are achieved are often charming and elegant This helps to explain why so many people not just those for whom math plays a key role in their day to day lives have found mathematics so seductive Math is unique among all subjects in that it contains end results of amazing insight and power and lines of reasoning that are clever charming and elegant This book is a collection of those results and lines of reasoning that make us say OMG that s just amazing because that s what mathematics is to those who love it In addition some of the stories about mathematical discoveries and the people who discovered them are every bit as fascinating as the discoveries themselves This book contains material capable of being appreciated by students in elementary school as well as some material that will probably be new to even the more mathematically sophisticated Most of the book can be easily understood by those whose only math courses are algebra and geometry and who may have missed the magic enchantment and wonder that is the special province of mathematics

Different Strokes Cecil Harris,2020-02 The days of tennis as a country club sport for the aristocracy have long passed as have the pre Open era days when Black players faced long odds just to be invited to the four Grand Slam events An entire generation of sports fans has grown up seeing Venus and Serena Williams as the gold standard in American professional tennis Although the Williams sisters have done more than any other players to

make tennis accessible to a diverse population it's not as if the tennis revolution is over When you watch tennis next take a close look at the umpire the person sitting in the high chair of authority at courtside Look at the tournament referee and the tournament director the officials who run the tournament In those seats of power and influence Blacks are still woefully underrepresented *Different Strokes* chronicles the rise of the Williams sisters as well as other champions of color closely examining how Black Americans are collectively faring in tennis on the court and off Despite the success of the Williams sisters and the election of former pro player Katrina Adams as the U S Tennis Association's first Black president top Black players still receive racist messages via social media and sometimes in public The reality is that while significant progress has been made in the sport much work remains before anything resembling equality is achieved Watch a book trailer
