At any given moment, a player's mind state is at a given level. The higher the level, the better they will perform. Most of us mentally operate at level 1 or 2, whether on the tennis court or in daily life. Few operate at level 3, and even fewer at level 4. We've all heard of players who have experienced the zone, a state where one is playing flawlessly, almost effortlessly. It has been described by those who have experienced it as a meditative state of clarity. That is the level 5 state of mind, the highest level. *Tennis Beyond Mechanics* is about understanding those mental levels. It is about being aware of the level we find ourselves in and learning to elevate to higher levels for better performance. Thought-provoking, captivating, and inspiring, this book also follows the fascinating journey of a tennis prodigy who happens to be one of those rare individuals who intuitively functions at level 4. *The Inner Game of Tennis (50th Anniversary Edition)* W.
