

ADAM SMITH

La Teoría de los sentimientos morales

Teoria De Los Sentimientos

M Mosston

Teoría De Los Sentimientos:

Teoría de los sentimientos morales Adam Smith, 2004-08-31 Aparecida en 1759 y publicada por el FCE en 1979 esta es la primera obra publicada por el filósofo y economista escocés Adam Smith y la que le dio fama entre los círculos ilustrados europeos. Es una brillante aportación a la política acerca del origen de los juicios morales y es sin duda la obra más trabajada y reelaborada de su autor. Parte de la afirmación de que los juicios morales no son producto de la razón lo que no impide que su funcionamiento pueda ser comprendido por ella. La obra pretende explicar la moral no como algo eterno o natural que preceda a la sociedad sino como algo construido en la interacción humana y dependiente de las circunstancias sociales.

Teoría de los sentimientos morales Adam Smith, 1941 **Fisiología de las pasiones o Teoría de los sentimientos morales** Jean-Louis Alibert, 1826 **La teoría de los sentimientos morales** Adam Smith, 2022 **Teoría de los sentimientos** Carlos Gurméndez, 1981 **Teoría de los sentimientos morales** Adam Smith, 2012 **Teoría de la Planificación** , *Teorías de las relaciones sindicato-gerenciales* José Ignacio Urquijo, 1995 Teoría de los sentimientos Ágnes Heller, 1987 **Conceptos y teorías literarias españolas del siglo XIX** María del Carmen García Tejera, 1989

Ensayos críticos sobre la teoría del equilibrio general Frank Ackerman, Alejandro Nadal, 2014-05-15 Los trabajos reunidos en este libro presentan una reflexión crítica sobre la teoría de equilibrio general el máximo exponente de la teoría neoclásica. Esta teoría ha desempeñado el papel de fundamento racional del neoliberalismo justificando la apertura comercial, la desregulación financiera y el repliegue del Estado en el diseño y aplicación de una estrategia de desarrollo. La crítica plasmada en estos ensayos está cimentada en un análisis riguroso sobre las limitaciones de la teoría económica dominante tanto en el terreno de la teoría pura y de sus modelos abstractos como en el plano de sus planteamientos relacionados con recomendaciones de política económica. Ackerman y Nadal demuestran que la teoría de equilibrio general es lógicamente inconsistente y que no es un referente adecuado para el diseño de políticas económicas. Por este motivo el libro es una referencia obligada para toda persona que quiera realizar un análisis serio e independiente sobre los esquemas de política económica del neoliberalismo. *TEORÍA SOCIAL Y POLÍTICA DE LA ILUSTRACIÓN ESCOCESA* María Isabel Wences Simon, 2008-01-02 La Escocia del siglo XVIII fue una fértil tierra para el pensamiento y dio lugar a uno de los más significativos movimientos intelectuales de la moderna cultura europea la Ilustración escocesa. Esta antología sobre la teoría social y política de la Ilustración escocesa supone una novedad editorial que atiende la carencia de una obra de conjunto sobre este movimiento intelectual. Recupera trabajos de Francis Hutcheson, Henry Home, Lord Kames, Thomas Reid, David Hume, William Robertson, Adam Smith, Adam Ferguson, John Millar, James Dunbar y Dugald Stewart muchos de los cuales son inditos para el lector hispanohablante. Esta selección de nombres no encierra una serie de pensadores dispersos sino que comprende a una articulada elite intelectual cuya presencia en la vida social escocesa perduró durante tres generaciones. Con los textos elegidos para esta antología se pretende centrar la atención en tres aspectos. En primer lugar en la profunda

preocupación de los ilustrados escoceses por fundamentar su defensa de la natural sociabilidad humana. En segundo lugar, mostrar su especial contribución a la historiografía y a la teoría social. En este punto se distinguen a su vez tres aportaciones: el tipo de historia que ellos elaboraron y que consideraban científica; el acento en la teoría de los estadios como herramienta heurística para explicar el desarrollo de la sociedad; y finalmente la configuración de las bases de la ley de las consecuencias no intencionadas de la acción. En tercer y último lugar, dar a conocer aquellos escritos que contienen algunas de las reflexiones mencionadas en el ámbito de la teoría política entre las que destacan sus disertaciones sobre la formación de la sociedad civil y sus lecciones sobre el gobierno, la libertad, el lujo, la patria, la división del trabajo y el imperio de la ley.

La génesis de la teoría económica contemporánea Alexander Tobón Arias, 2023-03-09. La génesis de la teoría económica contemporánea estudia los muchos debates y principales resultados de las teorías económicas generales en torno a los problemas de la coordinación de las decisiones económicas por medio de los precios y de la determinación del nivel del empleo. El libro utiliza un método expositivo singular: primero establece los interrogantes que están en la base de la construcción de las diversas teorías; para luego construir un fuerte hilo conductor entre ellas, haciendo especial énfasis en la identificación de las hipótesis y en sus principales resultados. Igualmente, el texto es un desafío a la forma tradicional de presentar las teorías económicas, pues cuestiona el carácter decisivo de muchos de sus resultados. Esta es una obra de utilidad para estudiantes de economía de todos los niveles de formación y para economistas académicos tanto los interesados por la epistemología económica como quienes estudian las teorías económicas desde una perspectiva más formalizada.

Para comprender la teoría sociológica Josetxo Beriain, José Luis Iturrate Vea, 2010-05-14. Este libro presenta las aportaciones sociológicas de 78 autores protagonistas. Nos adentra en sus preguntas investigativas y respuestas sobre el carácter natural e histórico y la función de las relaciones e instituciones sociales sobre las estructuras sociales y sus desigualdades y sobre los cambios que se generan y que afectan a las formas de vida de las colectividades. Para ayudar a la comprensión y lectura, se hace una presentación de cada bloque u orientación teórica y unos apuntes biográficos y reseña de escritos de cada autor. Veinticinco sociólogos de España y Latinoamérica, profesores de Universidades e Institutos Superiores, colaboran en la segunda edición de este libro editado por Josetxo Beriain y José Luis Iturrate.

Ética del profesional contable. Una reflexión desde la teoría tridimensional de la contabilidad T3C - 2da edición Omar De Jesús Motilla Galvis, 2017-01-01. Los conocimientos científicos y técnicos no son garantes suficientes de la profesionalidad del contador en su desempeño laboral. El contador profesional además de sus labores cotidianas tiene el compromiso con la comunidad de ser guardián de la riqueza pública y garantizar que las acciones u omisiones de las organizaciones no perjudiquen la riqueza ambiental, social y económica que controlan; por ello debe tener una sólida formación técnica que evidencie que sus acciones están determinadas por principios morales insoslayables e incorruptibles. Existen diversas visiones técnicas y la que se está manejando en este texto es una técnica biocéntrica del contador público cuyas raíces se hallan en consideraciones no utilitaristas sino iusnaturalistas o sociológicas como la defensa de la diversidad biológica y

cultural con el fin de lograr una sociedad que reconozca sus impactos en el corto y largo plazo

La Teoría De Los Sentimientos Morales Adam Smith, 2017-07-17 La Teoría de los sentimientos morales 1759 es un libro sobre ética del economista y filósofo moral Adam Smith. Empieza por la exploración de todas las conductas humanas en las cuales el egoísmo no parece jugar un papel determinante como aseguraba Thomas Hobbes. Lo que se expone entonces es el proceso de simpatía o empatía a través del cual un sujeto es capaz de ponerse en el lugar de otro aun cuando no obtenga beneficio de ello. Con esto se busca criticar la concepción del utilitarismo tal y como aparece en Hume. El desarrollo de la obra lleva al descubrimiento del espectador imparcial, la voz interior que dicta la propiedad o impropiedad de las acciones. Este espectador imparcial puede asociarse al concepto de superego de Sigmund Freud. A lo largo de la obra el autor explica el origen y funcionamiento de los sentimientos morales, el resentimiento, la venganza, la virtud, la admiración, la corrupción y la justicia. El resultado es una concepción dinámica e histórica de los sistemas morales en oposición a visiones más estáticas como las determinadas por las religiones. En términos filosóficos, la naturaleza humana está diseñada para avanzar fines o causas finales que no necesariamente son conocidos por los sujetos que se guían por las causas eficientes.

Teoría de las emociones Lev Semenovich Vigotsky, 2004-01-16 Teoría de las emociones constituye una de las obras clásicas del psicólogo ruso Lev Vigotsky (1869-1934) que desarrolló sus principales investigaciones en el Instituto de Psicología de Moscú desde 1924 hasta el final de sus días. En sus distintos capítulos el autor analiza de forma crítica y pormenorizada los vínculos que unen el conocimiento y la razón con las emociones que manifiestan los seres vivos en general y el hombre en particular. Para ello toma como referencia los planteamientos de dos grandes filósofos: Spinoza y, sobre todo, Descartes a quien rebate su definición de las pasiones. El resultado es un interesante y completo estudio acerca de la naturaleza de las emociones humanas desde los presupuestos de la psicología explicativa y descriptiva.

Teoría de los sentimientos Carlos Castilla del Pino, 2010

Psychology Robert A. Baron, 1995 A standard introductory textbook focusing on the scientific roots of the field while emphasizing its practical value and relevance to society. The first edition was published in 1989. Annotation copyrighted by Book News Inc. Portland, OR.
