## **Terapia Mortal:**

*Terapia génica* Blanca Laffon Lage, Vanessa Valdiglesias García, Eduardo Pásaro Méndez, 2016-01-21 La terapia genética ha supuesto una revolución en la manera de abordar el tratamiento de las enfermedades humanas puesto que ha abierto un nuevo horizonte que permite la curación de aquellas para las que hasta el momento solo existían tratamientos orientados a paliar sus síntomas. Los importantes descubrimientos acerca de cómo manipular el material genético en el laboratorio y cómo introducir este material directamente en las células suscitaron la idea de que fuera posible aplicar estas metodologías al tratamiento de las enfermedades con componente genético. Así nace la terapia genética que consiste en introducir un gen en las células de un paciente para corregir un defecto genético o dotarlas de una nueva función. Este libro explica esta nueva rama de la medicina para que el lector conozca en qué consiste sus aplicaciones más frecuentes y sus posibles ventajas e inconvenientes.

**Terapia mortal** Michael Palmer, 1996     [Terapias de oxígeno](#) Nathaniel Altman, 1996-06 Describes biooxidative therapies which improve health and offers diet and exercise advice     [Terapias de cine](#) Tabernero Holgado, Carlos, 2016-11-28 La medicina y el cine son parte de nuestro día a día. Acudimos a la consulta o a la sala en busca de algún tipo de alivio y de puertas a otros mundos. Y la consulta y la sala la medicina y el cine se miran de reojo. La medicina quiere al cine para mirar explorar y estudiar diagnosticar y operar también como herramienta publicitaria y de propaganda para construir su autoridad. Y el cine cuenta muy a menudo con la medicina porque trabaja con experiencias rutinarias de salud y enfermedad, sus miedos y sus osadías, sus servidumbres y sus rebeldes. La medicina y el cine caminan de la mano con la experiencia cotidiana de la muerte y de la vida. Y la medicina es cine porque es soñar, cuestionar y luchar como lo es sufrir, morir y amar. Y es por esto mismo que también en nuestro día a día el cine es medicina.
