Modernist Voyages Anna Snaith, 2014-02-24 London's literary and cultural scene fostered newly configured forms of feminist anticolonialism during the modernist period Through their writing in and about the imperial metropolis colonial women authors not only remapped the city they also renegotiated the position of women within the empire This book examines the significance of gender to the interwoven nature of empire and modernism As transgressive figures of modernity writers such as Jean Rhys Katherine Mansfield Una Marson and Sarojini Naidu brought their own versions of modernity to the capital revealing the complex ways in which colonial identities traveled to London at the turn of the twentieth century Anna Snaith's original study provides an alternative vantage point on the urban metropolis and its artistic communities for scholars and students of literary modernism gender and postcolonial studies and English literature more broadly

Practising Places Mercedes Maroto Camino, 2021-11-08 *Practising Places* offers an original insight into the culture of early modern Spain in so far as the various fields explored here are seldom juxtaposed Literary texts urban views and paintings are analysed side by side in a hybrid cultural interpretation that is as cartographic as it is architectural historical or literary This book presents a thick description which focuses on the first picaresque novel *Lazarillo de Tormes* the autobiographical writing of Teresa of Avila and the urban views of Spanish towns drafted or painted by Joris Hoefnagel Anton Van den Wyngaerde and El Greco These works embody and challenge the sense of grandeur and subsequent notion of crisis which inhere in the period In this way they simultaneously highlight and question the centralism and social control of the absolutist Habsburg rules illustrating the claim that space is as much a social product as a social producer

Civic Ritual and Drama, 2023-04-12 Late medieval and renaissance cities though powerful communities jealous of their own jurisdiction were constantly negotiating their relationships with other secular and religious authorities The seven essays in this collection treat

various aspects of civic display and pageantry during the fifteenth and sixteenth centuries The overwhelming sense one receives is that the solemn pomp was essentially about power how to get it display it share it and retain it Each paper demonstrates how through ceremony and symbol municipalities sought to fashion their own corporate self image in order to establish the limits of their authority in relationship to the countervailing powers surrounding them The essays are concerned with the period before the ever widening impact of the Reformation and the intellectual and political revolutions it spawned had reached the level of civic pageantry In the varied rituals considered here we can see reflected the highly sophisticated minds of their creators using the symbolic landscape of their religious and cultural past in important acts of corporate self fashioning
