The Terfinnas and Beormas of Ohthere Alan Strode Campbell Ross,1950      *The Terfinnas and Beormas of Ohthere* Alan S. C. Ross,Michael Chesnutt,1981      **The " Terfinnas" and "Beormas" of Ohthere** Alan Strode Campbell Ross (philologue).),1940      **The Terfinnas and Beormas of Ohthere, By Alan S.C. Ross** Alan Strode Campbell Ross,1940      **"The" Terfinnas and Beormas of Ohthere** Alan Strode Campbell Ross (philologue),1940      *Old English Prose and Verse* Roger Fowler,2022-02-23 Originally published in 1966 this book provides students of the earliest stage of our literature with a selection of texts for a complete introductory course All the principal poems and prose works in this literature are represented including more generous extracts from Beowulf than are common in anthologies of this type By omitting texts of primarily philological and historical interest it has been possible to include enough literary texts to satisfy all but the advanced student who will follow this volume with the specialised editions available A departure from the traditional design of Old English anthologies is the provision of full critical and annotative apparatus In the past it has been necessary for students to go beyond their Readers to specialised editions or to learned articles in order to discover even the most basic information about the extracts or their content Here each text is accompanied by an introduction which gives brief details of where known date authorship manuscript situation character and critical interest Line by line explanatory notes are also provided and a bibliography of books and articles for further study The glossary aims to be more explicit about form and meaning and easier to use than those of earlier selections      *Decolonising Medieval Fennoscandia* Solveig Marie Wang,2023-03-20 The interdisciplinary study investigates the relationship between Norse and Saami peoples in the medieval period and focuses on the multifaceted portrayal of Saami peoples in medieval texts The investigative analysis is anchored in postcolonial methodologies and argues for the inherent need to decolonise the medieval source material as well as recent historiography This is achieved by presenting the historiographic and political background of research into Norse Saami relations before introducing an overview of textual sources discussing Saami peoples from the classical period to the late 1400s an analysis of the textual motifs associated with the Saami in medieval literature their relevance and prevalence geo political affairs trading relations personal relations and Saami presence in the south By using decolonising tools to read Norse Saami relations in medieval texts influenced by archaeological material and postcolonial frameworks the study challenges lingering colonial assumptions about the role of the Saami in Norse society The current research episteme is re adjusted to offer alternative readings of Saami characters and emphasis is put on agency fluidity and the dynamic realities of the Saami medieval pasts      **Old English Prose** Paul E. Szarmach,2021-12-12 First published in 2001 With the decline of formalism and its predilection for Old English poetry Old English prose is leaving the periphery and moving into the center of literary and cultural discussion The extensive corpus of Old English prose lends many texts of various kinds to the current debates over literary theory and its multiple manifestations The purpose of this collection is to assist the growing interest in

Old English prose by providing essays that help establish the foundations for considered study and offer models and examples of special studies Both retrospective and current in its examples this collection can serve as a first book for an introduction to study particularly suitable for courses that seek to entertain such issues as authorship texts and textuality source criticism genre and forms of historical criticism as a significant part of a broad cultural teaching and research plan

Szarmach,1986-01-01 Old English prose before the late tenth century is examined in this collection of

Ellis Davidson,2023-08-10 The Viking Road to Byzantium 1976 is a major study of the Vikings who travelled east based on the evidence of written sources and archaeology Clues to the movements of the eastern Vikings may be found not only in Icelandic skaldic verse and runic inscriptions on memorial stones but in such unexpected places as a Romanian chalk quarry near the Black Sea among the carved stones of ancient Thrace and in Constantinople itself the Miklagard of northern literature
