Secrets of the Terracotta Army Michael Capek, 2014-07-01 Describes the archeological wonders of the Terracotta Army including discovery artifacts ancient peoples and preservation **The Terracotta Army** Charles River Editors, 2017-01-11 Includes pictures Includes ancient accounts of the emperor's reign and description of his tomb Describes how the Terracotta Army was designed and created Includes a bibliography for further reading The terracotta army was a one off creation original in both concept and execution unmentioned in any source no sooner buried than destroyed and forgotten Why so realistic Why this many Why full size Why clay The initial inspiration was the need to duplicate a new force of which the main element was infantry conscripted from the emperor's newly acquired masses of peasants and protected not with custom made armor but with scales of leather and simple standardized weapons It was the combination of archers infantry and charioteers this particular balance between officers and men that had enabled the First Emperor to unify the nation John Man *The Terracotta Army* China's First Emperor and the Birth of a Nation China has always fascinated outsiders much in the same way that distant light fascinates someone looking down a dark road It is both familiar and mysterious ancient and new and fully understanding it seems to always remain just out of reach From the Great Wall to the ancient teachings of Confucius China's natural and man made wonders have been topics of interest among Westerners since the Middle Ages and the pursuit of trade routes both by land and sea amazing Marco Polo and 19th century British expeditions in similar ways despite the passage of several centuries between them For these reasons it comes as little surprise that people across the world were excited when it was revealed in 1974 that archaeologists had uncovered a new and amazing find an underground army consisting of thousands of clay soldiers still standing at their posts despite being over 2 000 years old In addition to the remarkable feats of craftsmanship and the almost unimaginable size and scale of the Terracotta Army the sculpted statues

seemed to bear testimony of something that modern people could not quite wrap their minds around representing a time when China was born almost 200 years before Christ The hope for many was that this remarkable army could reveal the secrets of China's first emperor Qin Shi Huang a man who united seven warring tribes into one of the most powerful nations on earth Even as research continues 40 years after the initial find some of the facts about the Terracotta Army are staggering It's estimated that the army consists of 8 000 soldiers 130 chariots and hundreds of horses and cavalry all of which were sculpted on a mass scale by various factories but were subsequently molded to feature their own unique appearances separate of one another As if that wasn't enough there are also terracotta sculptures of acrobats servants and musicians and the sculptures were painted though most of the paint has faded away over time This impressive horde of funerary art was buried with Qin Shi Huang to serve him in the afterlife much the same way Egyptian pyramids were constructed for pharaohs While the sculptures comprising the Terracotta Army are impressive as a work of art they have indeed proven to be an invaluable historical source as well Thanks to collections of weapons buried with the sculptures as well as the shapes and sizes of the various military equipment historians can get a sense of what Qin Shi Huang had at his disposal when he fought battles and the Terracotta Army itself is even organized based on military rank allowing historians a chance to understand ancient Chinese military formations The Terracotta Army The History of Ancient China's Famous Terracotta Warriors and Horses chronicles the history of the Chinese emperor who commissioned them and a description of the famous funerary art Along with pictures of important people places and events you will learn about the Terracotta Army like never before

Three farmers are digging a well when suddenly their shovels hit something hard It is a clay head of a man who stares back at them open eyed and amazingly real looking The farmers have never seen anything like it neither have the archeologists who arrive and being to uncover more and more pottery men first dozens then hundreds and eventually thousands Buried for more than 2 200 years they are soldiers life size as well as life like and they stand at attention as if waiting for the command to charge into battle The only thing missing is their weapons and soon those are found too thousands of real bronze swords daggers and arrowheads still so sharp they can split a hair Now after almost thirty years of ongoing excavation a buried army of 7 500 terracotta soldiers and horses has emerged And this site that three farmers accidentally stumbled upon ranks along with the Great Pyramids in Egypt as one of the true wonders of the ancient world **The Emperor's Silent Army** features more than forty full color photos that showcase the terracotta troops A vivid and engaging text tells all about the army as well as the extraordinary story of the men who commanded its creation the ruthless and tyrannical first emperor of China **The Terracotta Warriors** Edward Burman, 2018-08-07 A history of the famous Terracotta Army in Xi'an China exploring what we now know about it what remains hidden and the fascinating theories that surround its creation Exciting investigations in northwest China are about to reveal more of the mysteries of the huge mausoleum of the Qin Emperor a portion of which was accidentally discovered in 1974 by farmers who were digging a well The second phase of an international research project began in 2011 and is ongoing More recently still promising new excavations began in Pit 2 with exciting fresh discoveries already announced **The Terracotta Warriors** seeks to examine one of China's most famous archaeological discoveries in light of these new findings The book begins with the discovery of the terracotta warriors and then tells the history of the Qin Dynasty and as much as is known about the construction of the 3rd century BCE mausoleum based on the work of the historian Sima Qian 145-90 BCE He wrote that the First Emperor was buried with palaces towers officials valuable artifacts and wondrous objects According to this account one hundred flowing rivers were simulated using mercury the ceiling was decorated with heavenly bodies high above the features of the land The new findings and the description of the mausoleum based on the quoted historical accounts suggest that the next discoveries may surpass the size and conception of the original discovery of the terracotta warriors In the second part Edward Burman asks Who built it and how He also questions the role of the terracotta warriors who may be servants and not warriors and what their function may have been in the afterlife
