The Dance With Community The Contemporary Debate In American Political Thought:

The Dance with Community Robert Booth Fowler,1991 **The Dance with Community** Robert Booth

Fowler,1991-07-25 Contemporary intellectuals have rushed to embrace the concept of community What does this tell us about American political thought Why are intellectuals uneasy with modern liberal individualism and its institutional policy results Why is political intellectual discourse dominated today by complaint In *The Dance with Community* Robert Booth Fowler reflects upon these and related questions My goal he writes is to present contemporary political thought about community for what it is a conversation interactive spirited and sometimes tough There have been many interpretations of the much discussed decline in community spirit Rather than offer another Fowler steps back to look at the debate itself He examines from the perspective of an intellectual historian the attention to community in current American political thought and explores the setting of that attention He also identifies five alternative models of community integral to the current debates and sketches a clear image of each its relationship to others the logic of its appeal and its emphases and problems In each instance he places the model into the larger conversation over alternative communities and the value of community itself

Habits of the Heartland Lyn C. Macgregor,2013-09-15 Although most Americans no longer live in small towns images of small town life and particularly of the mutual support and neighborliness to be found in such places remain powerful in our culture In *Habits of the Heartland* Lyn C Macgregor investigates how the residents of Viroqua Wisconsin population 4 355 create a small town community together Macgregor lived in Viroqua for nearly two years During that time she gathered data in public places attended meetings volunteered for civic organizations talked to residents in their workplaces and homes and worked as a bartender at the local American Legion post Viroqua has all the outward hallmarks of the idealized American town the kind of place where local merchants still occupy the shops on Main Street and everyone knows everyone else On closer examination one finds that the town contains three largely separate social groups Alternatives Main Streeters and Regulars These categories are not based on race or ethnic origins Rather social distinctions in Viroqua are based ultimately on residents ideas about what a community is and why it matters These ideas both reflect and shape their choices as consumers whether at the grocery store as parents of school age children or in the voting booth Living with and listening to the town s residents taught Macgregor that while traditional ideas about community especially as it was connected with living in a small town still provided an important organizing logic for peoples lives there were a variety of ways to understand and create community

The Intellectual Origins of Mass Parties and Mass Schools in the Jacksonian Period Julie M. Walsh,1998 Argues that in the 1830s and 1840s all three main US political parties despite their rhetorical differences maintained consensus about citizenship training through educating children which produced the first generation of politically passive Americans content to vote loyally for their party and demand little or no input into the formation of its platform This in turn is seen as essential for building the type of political party that has endured since Annotation

copyrighted by Book News Inc Portland OR **Ambition in America** Jeffrey A. Becker, 2014-05-22 Most Americans admire the determination and drive of artists athletes and CEOs but they seem to despise similar ambition in their elected officials The structure of political representation and the separation of powers detailed in the United States Constitution *Bringing the Market Back in* J. Kelley, 1997-05-19 This timely volume tells the fascinating story of how an almost forgotten classical liberalism resuscitated itself in America Using educational institutions think tanks foundations and the Libertarian Party market liberals capitalized on the post 1969 crisis of Great Society liberalism to promote an alternate vision Despite Ronald Reagan's anti government rhetoric the activist state survived because market liberals remained a minority albeit a vocal one Kelley argues that the recent Gingrich Revolution will fail for the same reason Although remaining profoundly skeptical about the modern state Americans have yet to be persuaded by F A Hayek's vision of a classical liberal utopia **Neighbors and Neighborhoods** Sidney Brower, 2020-03-04 How does the design of a neighborhood affect the people who live there In this thoughtful engaging book the author explains how a neighborhood's design lays the groundwork for the social relationships that make it a community Blending social science with personal interviews the author shares the lessons of planned communities from historic Riverside Illinois to archetypal Levittown New York and Disney's Celebration Florida Through these inspirational stories readers will discover the characteristics of neighborhoods that promote the attitudes and behaviors of a healthy community This volume is an eye opener for everyone who's wondered what makes their local neighborhoods tick It demystifies the way planners architects developers organizers and citizens come together in crafting a community's physical elements policies programs and processes Readers will come away with a new understanding of their roles in creating the communities they want *Moral Voices, Moral Selves* Susan J. Hekman, 2013-07-03 This book is an original discussion of key problems in moral theory The author argues that the work of recent feminist theorists in this area particularly that of Carol Gilligan marks a radically new departure in moral thinking Gilligan claims that there is not only one true moral voice but two one masculine one feminine Moral values and concerns associated with a feminine outlook are relational rather than autonomous they depend upon interaction with others In a far reaching examination and critique of Gilligan's theory Hekman seeks to deconstruct the major traditions of moral theory which have been dominant since the Enlightenment She challenges the centrepiece of that tradition the disembodied autonomous subject of modernist philosophy Gilligan's approach transforms moral theory from the study of abstract universal principles to the analysis of moral claims situated in the interactions of people in definite social contexts Hekman argues that Gilligan's approach entails a multiplicity of moral voices not just one or even two This book addresses moral problems in a challenging way and will find a wide readership among philosopher's feminist thinkers and psychologists **Doing Internet Research** Steve Jones, 1998-11-03 Whether or not one believes the hyperbolic claims about the Internet being the biggest thing since the invention of the wheel the Internet is a medium with great consequences for social and economic life Doing Internet Research is written to help

people discern in what ways it has commanded the public imagination and the methodological issues that arise when one tries to study and understand the social processes occurring within the Internet Each contributor to the volume offers original responses in the search for and critique of methods with which to study the Internet and the social political economic artistic communicative phenomena occurring within and around it This book provides encouragement for readers getting started with Internet research and also provides perspective on this new and ubiquitous communication medium

Community Justice David R. Karp,1998-06-25 Community justice is a phenomenon of growing interest among academics policy makers and criminal justice practitioners The term reflects the increasing collaboration between criminal justice agencies and communities in the joint pursuit of public safety and a less tangible but no less significant pursuit of justice for victims offenders and all community members affected by crime In this book several leading scholars examine the central concerns of this emerging field Subjects discussed include the role of community organizations in crime prevention the structural and cultural issues underlying the concentration of race poverty and crime community policing and community prosecution and sanctioning

Civic Hope Roderick P. Hart,2018-03-22 Civic Hope is a history of what everyday Americans say in their own words about the government overseeing their lives Based on a highly original analysis of 10 000 letters to the editor from 1948 to the present published in twelve US cities the book overcomes the limitations of survey data by revealing the reasons for people s attitudes While Hart identifies worrisome trends including a decline in writers abilities to explain what their opponents believe and their attachment to national touchstones he also shows why the nation still thrives Civic Hope makes a powerful case that the vitality of a democracy lies not in its strengths but in its weaknesses and in the willingness of its people to address those weaknesses without surcease The key Hart argues is to sustain a culture of argument at the grassroots level

Wendell Berry Jason Peters,2010-06-11 A portrait of one of America s most profound and honest thinkers this book combines biographical sketches personal accounts literary criticism and social commentary to illuminate Berry as he is a complex man of place and community with a depth of domestic intellectual filial and fraternal attributes

The Age of Direct Citizen Participation Nancy C. Roberts,2015-01-28 Citizen involvement is considered the cornerstone of democratic theory and practice Citizens today have the knowledge and ability to participate more fully in the political technical and administrative decisions that affect them On the other hand direct citizen participation is often viewed with skepticism even wariness Many argue that citizens do not have the time preparation or interest to be directly involved in public affairs and suggest instead that representative democracy or indirect citizen participation is the most effective form of government Some of the very best writings on this key topic which is at the root of the entire reinventing government movement can be found in the journals that ASPA publishes or sponsors In this collection Nancy Roberts has brought together the emerging classics on the ongoing debate over citizen involvement Her detailed introductory essay and section openers frame the key issues provide historical context and fill in any gaps not directly covered by the articles More than just

an anthology *The Age of Direct Citizen Participation* provides a unique and useful framework for understanding this important subject It is an ideal resource for any Public Administration course involving citizen engagement and performance management

Cultural Studies Lawrence Grossberg, Janice Radway, 2005-08-08 *Cultural Studies* is an international journal committed to exploring the relationships between cultural practices and everyday life economic relations the material world the State and historical forces and contexts

Tradition and Modernity Kwame Gyekye, 1997-08-28 In this important and pioneering book Kwame Gyekye examines postcolonial African experience from a viewpoint receptive to aspects of both traditional African cultures and Western political and moral theory African people in their attempt to evolve ways of life compatible with an increasingly globalized world cultural intellectual and political scene face a number of unique societal challenges some stemming Gyekye argues from traditional African values and practices others representing the legacy of European colonialism Enlisting Western political and philosophic concepts to clear comparative advantage Gyekye addresses a wide range of concrete problems afflicting postcolonial African states such as ethnicity and nation building the relationship of tradition to modernity the relationship of the nation state to community the nature of political authority and political legitimation political corruption and the threat to traditional moral and social values practices and institutions in the wake of rapid social change With striking flexibility and rare insight Gyekye assesses the value of both traditional and non African cultural components for the future of African societies and proposes alternative social and political models capable of forging a modernity appropriate for Africa The resulting book *Tradition and Modernity Philosophical Reflections on the African Experience* is a brilliant new contribution to postcolonial theory and will be of deep interest to scholars of political and moral philosophy cultural studies and African philosophy and politics and to anyone else concerned with the efforts of non Western societies to properly modernize

Singlewide Sonya Salamon, Katherine MacTavish, 2017-10-15 In *Singlewide* Sonya Salamon and Katherine MacTavish explore the role of the trailer park as a source of affordable housing America's trailer parks most in rural places shelter an estimated 12 million people and the authors show how these parks serve as a private solution to a pressing public need *Singlewide* considers the circumstances of families with school age children in trailer parks serving whites in Illinois Hispanics in New Mexico and African Americans in

North Carolina By looking carefully at the daily lives of families who live side by side in rows of manufactured homes Salamon and MacTavish draw conclusions about the importance of housing community and location in the families dreams of opportunities and success as signified by eventually owning land and a conventional home Working poor rural families who engage with what Salamon and MacTavish call the mobile home industrial complex may become caught in an expensive trap starting with their purchase of a mobile home A family that must site its trailer in a land lease trailer park struggles to realize any of the anticipated benefits of homeownership Seeking to break down stereotypes Salamon and MacTavish reveal the important place that trailer parks hold within the United States national experience In so doing they attempt to integrate and normalize a way of life that many see as outside the mainstream suggesting that families who live in trailer parks rather than being trailer trash culturally resemble the parks neighbors who live in conventional homes

Communitarianism and Citizenship Emiliós A. Christodoulidis, 2016-12-05 This book is volume three in the series and is the edited proceedings of the 1997 ALSP conference The conference covered issues relating to Communitarianism and citizenship from socio legal philosophical and political perspectives The papers are a collection drawn from international authors covering a wide variety of subjects such as tolerance social citizenship and social rights in a global context

Divorcing Responsibly Helen Reece, 2003-08-15 This book provides an analysis of the increasing impact on the law in general and divorce law in particular of post liberalism which replaces choice with self discovery The author shows that post liberal premises formed the foundation for every aspect of the recent divorce reform proposals Accordingly she attributes their failure to the contradictions inherent within post liberalism Nevertheless she concludes that post liberalism maintains a subtle yet pervasive influence on the law Specifically this means that we are held accountable not for what we do but for how we approach our decisions Thus for the first time ever it has become possible to divorce responsibly
