Owens,2021-03-02 Since the 1960s the occult in film and television has responded to and reflected society s crises surrounding gender and sexuality In *Desire After Dark* Andrew J Owens explores media where figures such as vampires and witches make use of their supernatural knowledge in order to queer what otherwise appears to be a normative world Beginning with the global sexual revolutions of the 60s and moving decade by decade through Euro sleaze cinema and theatrical hardcore pornography the HIV AIDS crisis the popularity of New Age religions and witchcraft and finally the increasingly explicit sexualization of American cable television Owens contends that occult media has risen to prominence during the past 60 years as a way of exposing and working through cultural crises about queerness Through the use of historiography and textual analyses of media from *Bewitched* to *The Hunger* Owens reveals that the various players in occult media have always been well aware that non normative sexuality constitutes the heart of horror s enduring appeal By investigating vampirism witchcraft and other manifestations of the supernatural in media *Desire After Dark* confirms how the queer has been integral to the evolution of the horror genre and its persistent popularity as both a subcultural and mainstream media form *Gothic television* Helen Wheatley,2017-06-01 *Gothic television* is the first full length study of the Gothic released on British and US television An historical account the book combines detailed archival research with analyses of key programmes from *Mystery and Imagination* and *Dark Shadows* to *The Woman in White* and *Twin Peaks* and uncovers an aspect of television drama history which has until now remained critically unexplored While some have seen television as too literal or homely a medium to successfully present Gothic fictions *Gothic television* argues that the genre in its many guises is and has always been well suited to television as a domestic medium given the genre s obsessions with haunted houses and troubled families This book will be of interest to lecturers and students across a number of disciplines including television studies Gothic studies and adaptation studies as well as to the general reader with an interest in the Gothic and in the history of television drama *A Revolutionary Romance* Melody Clark,2011-09-30 **Grayson Hall** R. studies and hermeneutics 412 Craig Bohlin,2022-05-04 When my experiences began I started writing when I first learned how and when my experiences began where I am from and where I am presently I am excited about an obscurity of suggestion and willing to venture into the unknown to obtain a classification of words and advice for metaphorical composition and creation Resisting spoiled misused commercialized deformed mispronounced and in general degraded words Sensitivity to colloquial speech intrigue with definition and synonyms When there seems like there is no such thing as free verse but only different kinds of rhythm Choice and will are always involved for the use of words can be argued in an illuminating way or a misleading way Direct elegant and vivid sudden transitions connections in logical order conception concise word choice the unrewarding exercise of discovering observation and justification The poetic idiom given to generalization Where discouragement and difficulties follow When words fall densely onto the page imposing upon comprehension of sensibility I have written or have started writing many topical stories including some with difficult vocabulary I have studied poets authors and novelists and have researched their reputable writing concepts I have currently completed working on condensing through editing a book that I have written which is a series of short topical stories if that This is that book When I write I have little problem with punctuation and spelling although I will find some errors in editing My grammar skills are good but I could always use more vocabulary skills Subjective spontaneous words that fall onto the paper and using as few words as possible to express an idea I often find myself reading the dictionary to abstract new words ideas and topics Writing I believe has at least one distinction which entitles me to something A communicational tool used as an explanation for what is to be held true and valued Inventing accomplished expression sets me to musing thinking and searching Amusing melancholy expression that seem to fit justly and harmoniously That which seems to fortify an idea prompt and unfailing Accuracy makes it deliver an explosion Well used words converge to form an especially planned distinction in part losing a special distinction This is what is difficult Arranging words justly and harmoniously which seem to fit into a theme justly and harmoniously Honest criticism and sensitive appreciation are directed not upon the poet but upon the poetry Starvation for words is always regrettable because I believe writing is the most sophisticated form of communication A writer may have the prolific arrangements of being confined to the surface but by a form and method in which the past and present are constantly faced with each other and resulting in a contrast which fires new interest which is wise and interesting Perfecting truth and sincerity with an endless imagination A strange combination of words to represent the brighter side of things Having judgement with precision and accuracy and written by the testimony of instinct The problem is that so much has been written with strong and persistent vacancies It leaves little room for decision

Christopher Partridge,2005-01-04 As a book about emergent spirituality in the contemporary West this books focuses on the nature evolution and significance of new forms of religion and alternative spiritualities Part One of the book provides the theoretical background and guides the reader through some of the principal debates After an overview of the secularization thesis which argues that the West is becoming increasingly disenchanted the second chapter turns to the sociological analysis of new religions and alternative spiritualities Particular attention is given to the ideas of the sociologist of religion Ernst Troeltsch especially his enigmatic analysis of the emergence mystical religion which presciently provides helpful insights into understanding the contemporary alternative religious milieu Against sociologists such as Bryan Wilson and Steve Bruce this and the subsequent chapter argues that rather than being insignificant new forms of spirituality are actually proving to be a significant part of Western re enchantment Chapter 3 constructs a general theory of the re enchantment of the West

**The Re-Enchantment of the West, Vol 2** Christopher Partridge,2006-04-20 The Re Enchantment of the West challenges those theories that predict widespread secularization beyond traditional institutional religiosity Spiritualities are emerging that are not only quite different from the those forms of religion that are in decline but are often defined over against them and articulated and passed on in ways quite different from those of traditional religion In particular it is argued that such contemporary Western spirituality is fed by a constantly replenished reservoir of ideas practices and methodologies which is here termed occulture Moreover such occultural ideas both feed into and are resourced by popular culture Indeed popular occulture is a key feature of the re enchantment of the West Demonstrating the significance and ubiquity of these ideas this book examines for example healthcare and nursing contemporary environmentalism psychedelia and drug use the Internet and cyberspirituality belief in UFOs and extraterrestrial life demonology and the contemporary fascination with the figure of Satan the heavy metal subculture popular apocalypticism and millennial violence
