Venter, 1904-07-20 Mercenaries have been with us since the dawn of civilization yet in the modern world they are little understood While many of today's freelance fighters provide support for larger military establishments others wage war where the great powers refuse to tread In War Dog Al Venter examines the latter world of mercenary fighters effecting decisions by themselves In the process he unveils a remarkable array of close quarters combat action Having personally visited every locale he describes throughout Africa and the Middle East Venter is the rare correspondent who had to carry an AK 47 in his research along with his notebook and camera To him covering mercenary actions meant accompanying the men into the thick of combat During Sierra Leone's civil war he flew in the front bubble of the government's lone Hind gunship piloted by the heroic chopper ace Nellis as it flew daily missions to blast apart rebel positions In this book the author not only describes the battles of the legendary South African mercenary company Executive Outcomes he knew the founders personally and joined them on a number of actions After stemming the tide of Jonas Savimbi's UNITA army in Angola an outfit many of the SA operators had previously trained Executive Outcomes headed north to hold back vicious rebels in West

Africa This book is not only about triumph against adversity but also losses as Venter relates the death and subsequent cannibalistic fate of his American friend Bob MacKenzie in Sierra Leone Here we see the plight of thousands of civilians fleeing from homicidal jungle warriors as well as the professionalism of the mercenaries who fought back with one hand and attempted to train government troops with the other in hopes that they would someday be able to stand on their own The American public as well as its military largely sidestepped the horrific conflicts that embroiled Africa during the past two decades But as Venter informs us there were indeed small numbers of professional fighters on the ground defending civilians and attempting to conjure order from chaos In the process their heroism went unrecorded and their combat skill became known only to each other In this book we gain an intimate glimpse of this modern breed of warrior in combat Not laden with medals ribbons civic parades or even guaranteed income they have nevertheless fought some of the toughest battles in the post Cold War era They simply are and perhaps always will be War Dogs AL J VENTER has been an international war correspondent for nearly thirty years primarily for the Jane s Information Group He has also produced documentary television films on subjects from the wars in Africa and Afghanistan to sharkhunting off the Cape of Good Hope Among his previous works are The Iraqi War Debrief Why Saddam Hussein Was Toppled and Iran s Nuclear Option Tehran s Quest for the Atomic Bomb A native of South Africa he is currently resident in the United Kingdom

**The War and the Death of News** Martin Bell,2017-06-01 Martin Bell has stood in war zones as both a soldier and a journalist From Vietnam to Bosnia to Iraq he has witnessed first hand the dramatic changes in how conflicts are fought and how they are reported He has seen the truth degraded in the name of balance and good taste grief and pain censored so the viewers are not disturbed In an age of international terror where journalists themselves have become targets more and more reports are issued from the sidelines The dominance of social media has ushered in a post truth world Twitter rumours and unverifiable videos abound and TV news seeks to entertain rather than inform In this compelling account one of the outstanding journalists of our time provides a moving personal account of war and issues an impassioned call to put the substance back in our news

organisational structure and by drawing on examples of coups from all over the world both failed and successful the authors reveal exactly what it takes to carry out a successful government take over This latest updated edition includes a new foreword by David Hebditch      **Contemporary Masculinities in the UK and the US** Stefan Horlacher, Kevin Floyd, 2017-07-26 This book is about ways to understand masculinity as systemic and corporeal structural and performative all at once It argues that the tension between an understanding of masculinity in the singular and masculinities in the plural poses a problem that can better be understood in relation to a concomitant tension between systems on the one hand and bodies on the other between abstract structures such as patriarchy kinship or even language and the various concrete forms taken by gendered individuated corporeality The contributions collected here investigate how masculinities become apparent how they take shape and what systemic functions they have What they ask are the relations between the abstract and corporeal metaphorical and metonymic manifestations of masculinity How are we to understand masculinity as a simultaneously systemic and corporeal performative concept      **Servants of War** Rolf Uessler, 2008-12-16 Private military firms are making a killing They operate on all continents throughout the world commissioned by governments intelligence agencies private industries warlords drug cartels and rebel groups to support their military and safety interests Here in the U S as the massively expensive war in Iraq shows no signs of ending our forces grow more and more dependent on the assistance of military contractors Beyond Iraq engagements of mercenary firms in foreign countries are multiplying whether to protect oil investments in the Nigerian delta or for humanitarian reasons in Darfur In this far reaching expos Rolf Uessler reveals how these mercenary firms profit from conflict As they operate in a legal twilight zone the private nature of their work frequently makes them legally impermeable and financially profitable Uessler details the many ways in which employment of for profit fighters compromises justice jeopardizes international peace and stability and manages to escape public scrutiny explaining exactly what happens when military operations are shielded from democratic processes and when the concern for justice and security is overshadowed by the desire for financial gain      *Cinema and Unconventional Warfare in the Twentieth Century* Paul B. Rich, 2018-08-23 Cinematic representations of unconventional warfare have received sporadic attention to date However this pattern has now begun to change with the rise of insurgency and counter insurgency in Iraq and Afghanistan and the growing importance of jihadist terrorism in the wake of 9 11 This ground breaking study provides a much needed examination of global unconventional warfare in 20th century filmmaking with case studies from the United States Britain Ireland France Italy and Israel Paul B Rich examines Hollywood s treatment of counter terrorism and counter insurgency in the United States British post colonial insurgencies in Malaya and Kenya and British special operations in the Second World War the Irish conflict before and during the Troubles French filmmaking and the reluctance to deal with the bitter war in Algeria in the 1950s Italian neorealism and its impact on films dealing with urban insurgency by Roberto Rossellini Nanni Loy and Gillo Pontecorvo and Israel and the upsurge of Palestinian terrorism Whilst only a small number of

films on these conflicts have been able to rise above stereotyping insurgents and terrorists in some cases due to a pattern of screen orientalism Cinema and Unconventional Warfare in the Twentieth Century stresses the positive political gains to be derived from humanizing terrorists and terrorists movements especially in the context of modern jihadist terrorism This is essential reading for academics postgraduates and advanced undergraduates interested in 20th century military history politics and international relations and film studies     *The Wonga Coup* Adam Roberts,2007-08-28 Equatorial Guinea is a tiny country roughly the size of the state of Maryland Humid jungle covered and rife with unpleasant diseases natives call it Devil Island Its president in 2004 Obiang Nguema had been accused of cannibalism belief in witchcraft mass murder billion dollar corruption and general rule by terror With so little to recommend it why in March 2004 was Equatorial Guinea the target of a group of salty British South African and Zimbabwean mercenaries travelling on an American registered ex National Guard plane specially adapted for military purposes that was originally flown to Africa by American pilots The real motive lay deep below the ocean floor oil In *The Dogs of War* Frederick Forsyth effectively described an attempt by mercenaries to overthrow the government of Equatorial Guinea in 1972 And the chain of events surrounding the night of March 7 2004 is a rare case of life imitating art or at least life imitating a 1970s thriller in almost uncanny detail With a cast of characters worthy of a remake of *Wild Geese* and a plot as mazy as it was unlikely *The Wonga Coup* is a tale of venality overarching vanity and greed whose example speaks to the problems of the entire African continent     **Encyclopedia of American Popular Fiction** Geoff Hamilton,Brian Jones,2010-05-12 Covers contemporary authors and works that have enjoyed commercial success in the United States but are typically neglected by more literary guides Provides high school and college students with everything they need to know to understand the authors and works of American popular fiction     **Bestsellers** C.
