Hegner,Paul Mc Kevitt,Peter Norvig,Robert L. Wilensky,2012-12-06 In this international collection of papers there is a wealth of knowledge on artificial intelligence AI and cognitive science CS techniques applied to the problem of providing help systems mainly for the UNIX operating system The research described here involves the representation of technical computer concepts but also the representation of how users conceptualise such concepts The collection looks at computational models and systems such as UC Yucca and OSCON programmed in languages such as Lisp Prolog OPS 5 and C which have been developed to provide UNIX help These systems range from being menu based to ones with natural language interfaces some providing active help intervening when they believe the user to have misconceptions and some based on empirical studies of what users actually do while using UNIX Further papers investigate planning and knowledge representation where the focus is on discovering what the user wants to do and figuring out a way to do it as well as representing the knowledge needed to do so There is a significant focus on natural language dialogue where consultation systems can become active incorporating user modfelling natural language generation and plan recognition modelling metaphors and users mistaken beliefs Much can be learned from seeing how AI and CS techniques can be investigated in depth while being applied to a real test bed domain such as help on UNIX *Resurrection in Paul* Frederick S. Tappenden,2016-07-29 Explore the embodied foundations of Paul s resurrection ideals It is commonly recognized that Paul s resurrection ideals are bodily ideals though this dictum is usually configured along literal and metaphorical lines The realism of future resurrected bodies is disconnected from the metaphoricity of bodily transformation in the present Drawing on cognitive linguistics this fresh and innovative study addresses this problem By eschewing the opposition of metaphor and realism Tappenden explores the concepts and metaphors Paul uses to fashion notions of resurrection and the uses to which those notions are put Rather than asserting resurrection as a disembodied cognicentric proposition this book illuminates the body s central role in shaping and grounding the apostle s thought and writings Features Close examination of Paul s letters within multiple interlocking cultural contexts Provides a novel and fresh approach to assessing in coherence across the undisputed letters Addresses the materialist nature of early Christian and Judean resurrection ideals without compromising the metaphoricity of those ideals **Filmspeak** Edward Tomarken,2012-09-20 A highly original book that demonstrates how ideas stemming from complex literary theory can be found in even the most mainstream movies *Metaphors in the Discussion on Suffering in Job 3–31* Hanneke van Loon,2018-09-11 In Metaphors in the Discussion on Suffering in Job 3 31 Hanneke van Loon offers a new approach to the theme of suffering in the book of Job Her analysis of metaphors demonstrates that Job goes through different stages of

existential suffering in chapters 3 14 and that he addresses the social dimension of his suffering in chapters 17 and 19 Van Loon claims that Job s existential suffering ends in 19 25 and that chapters 23 31 reflect a process in which Job translates his own experience into a call upon the audience to adopt a new attitude toward the unfortunate ones in society The theoretical approach to metaphors is based on insights from cognitive linguistics **A New Identity of Obligation: Metaphors and Paul's Ethical Argument in Romans 6:1–14** Andrés D. Vera,2025-06-19 In Romans 6 1 14 Paul corrects an erroneous ethical conclusion drawn from the narrative of God s grace in Romans 3 5 This innovative study employs tools from cognitive linguistics to unveil Paul s sophisticated rhetorical strategy for resolving the indicative imperative tension By moving beyond traditional theological frameworks the book shows how Paul presents believers new identity as defined by a new obligation illuminating the metaphorical narrative that undergirds Paul s logic Readers will better understand the importance of conceptual spaces like in sin and in Christ and how Paul conceptualizes the relationship between believers and their old selves who have been crucified *GTropología: a key to open Scripture metaphors [by B. Keach and T. Delaune. 3 vols. Vol.1, 2 want the title-leaves and are otherwise imperf. Vol.3 is entitled GTroposhymalogía [sic] by B.K.]. revised. By B. Keach* Benjamin Keach,1858
