Bessler, 2017 The Death Penalty as Torture From the Dark Ages to Abolition was named a Bronze Medalist in the World History category of the Independent Publisher Book Awards and a finalist in the Eric Hoffer Book Awards 2018 During the Dark Ages and the Renaissance Europe's monarchs often resorted to torture and executions The pain inflicted by instruments of torture from the thumbscrew and the rack to the Inquisition's tools of torment was eclipsed only by horrific methods of execution from breaking on the wheel and crucifixion to drawing and quartering and burning at the stake The English Bloody Code made more than 200 crimes punishable by death and judicial torture expressly authorized by law and used to extract confessions permeated continental European legal systems Judges regularly imposed death sentences and other harsh corporal punishments from the stocks and the pillory to branding and ear cropping to lashes at public whipping posts In the Enlightenment jurists and writers questioned the efficacy of torture and capital punishment In 1764 the Italian philosopher Cesare Beccaria the father of the world's anti death penalty movement condemned both practices And Montesquieu like Beccaria and others concluded that any punishment that goes beyond absolute necessity is tyrannical Traditionally torture

and executions have been viewed in separate legal silos with countries renouncing acts of torture while simultaneously using capital punishment The UN Convention Against Torture strictly prohibits physical or psychological torture not even war or threat of war can be invoked to justify it But under the guise of lawful sanctions some countries continue to carry out executions even though they bear the indicia of torture In *The Death Penalty as Torture* Prof John Bessler argues that death sentences and executions are medieval relics In a world in which mock or simulated executions as well as a host of other non lethal acts are already considered to be torturous he contends that death sentences and executions should be classified under the rubric of torture Unlike in the Middle Ages penitentiaries one of the products of the Enlightenment now exist throughout the globe to house violent offenders With the rise of life without parole sentences and with more than four of five nations no longer using executions *The Death Penalty as Torture* calls for the recognition of a peremptory international law norm against the death penalty's use *The Death Penalty's Denial of Fundamental Human Rights* John Bessler, 2022-12-15 This book details how capital punishment violates universal human rights and traces the evolution of the world's understanding of torture *The Abolition of the Death Penalty in International Law* William Schabas, 2002-09-05 This is the 2002 third edition of William A Schabas's highly praised study of the abolition of the death penalty in international law Extensively revised to take account of developments in the field since publication of the second edition in 1997 the book details the progress of the international community away from the use of capital punishment discussing in detail the abolition of the death penalty within the United Nations human rights system international humanitarian law European human rights law and Inter American human rights law New chapters in the third edition address capital punishment in African human rights law and in international criminal law An extensive list of appendices contains many of the essential documents for the study of capital punishment in international law *The Abolition of the Death Penalty in International Law* is introduced with a Foreword by Judge Gilbert Guillaume President of the International Court of Justice ***The Slow Death of the Death Penalty*** Todd C. Peppers, Jamie Almallen, Mary Welek Atwell, 2025-07-01 Why the death penalty is in decline across the United States Across the country the death penalty is dying Twenty two states have abandoned state sanctioned executions including nine in the last fifteen years Of the twenty eight states that still have the death penalty eight have not had an execution in over a decade And public support for the death penalty has declined from 80% of the surveyed population in the early 1990s to approximately 50% today As the death penalty slowly withers away Todd C Peppers Jamie Almallen and Mary Welek Atwell bring together a number of distinguished death penalty scholars activists and attorneys to take an accounting of the damage inflicted by the machinery of death Contributors to the book point to a range of different pathologies which have caused politicians and voters to turn against capital punishment from unacceptable rates of false convictions and racially motivated prosecutions to a clemency process poisoned by political factors Essay topics include various dimensions of the death penalty including racial and gender bias economic costs the conviction of juveniles the mentally ill and the factually innocent

Supreme Court decisions and the failure of the death penalty to serve as a deterrent against crime This important volume is an up to date accounting of the current state and as the contributors argue the future demise of the death penalty

The Death Penalty as State Crime Laura L. Finley, 2024-03-27 This book offers a new perspective on the death penalty in the US examining capital punishment as state crime or state produced harm It addresses the death penalty showing how the state not only authorizes a system and a practice that tortures human beings but is also aware of its deep flaws and chooses not to address them Building on the vast literature on state crime together with case examples and interviews with activists seeking to abolish the death penalty this book offers a new and innovative critique of state punishment in the US It draws on a range of issues and topics such as arbitrariness inadequate counsel racial bias mental illness innocence conditions on death row the protocols and the equipment used for executions It emphasizes the need for abolition of the death penalty and highlights efforts being made to do so with a focus on successful elements of abolition campaigns The Death Penalty as State Crime is essential reading for all those engaged with capital punishment human rights and state crime and will be of interest to criminologists sociologists legal scholars and political scientists alike

The Death Penalty's Denial of Fundamental Human Rights John D. Bessler, 2023 The Death Penalty's Denial of Fundamental Human Rights details how capital punishment violates universal human rights to life to be free from torture and other forms of cruelty to be treated in a non arbitrary non discriminatory manner and to dignity In tracing the evolution of the world's understanding of torture which now absolutely prohibits physical and psychological torture the book argues that an immutable characteristic of capital punishment already outlawed in many countries and American states is that it makes use of death threats Mock executions and other credible death threats in fact have long been treated as torturous acts When crime victims are threatened with death and are helpless to prevent their deaths for example courts routinely find such threats inflict psychological torture With simulated executions and non lethal corporal punishments already prohibited as torturous acts death sentences and real executions the book contends must be classified as torturous acts too

The Death Penalty Roger Hood, Carolyn Hoyle, 2015-01-08 The fifth edition of this highly praised study charts and explains the progress that continues to be made towards the goal of worldwide abolition of the death penalty The majority of nations have now abolished the death penalty and the number of executions has dropped in almost all countries where abolition has not yet taken place Emphasising the impact of international human rights principles and evidence of abuse the authors examine how this has fuelled challenges to the death penalty and they analyse and appraise the likely obstacles political and cultural to further abolition They discuss the cruel realities of the death penalty and the failure of international standards always to ensure fair trials and to avoid arbitrariness discrimination and conviction of the innocent all violations of the right to life They provide further evidence of the lack of a general deterrent effect shed new light on the influence and limits of public opinion and argue that substituting for the death penalty life imprisonment without parole raises many similar human rights concerns This edition provides a

strong intellectual and evidential basis for regarding capital punishment as undeniably cruel inhuman and degrading. Widely relied upon and fully updated to reflect the current state of affairs worldwide, this is an invaluable resource for all those who study the death penalty and work towards its removal as an international goal.

The Death Penalty Roger Hood CBE QC (Hon) DCL FBA, Carolyn Hoyle, 2008-03-27. The 4th edition of this authoritative study of the death penalty, now written jointly with Carolyn Hoyle, brings up to date developments in the movement to abolish the death penalty worldwide. It draws on Roger Hood's experience as consultant to the United Nations for the UN Secretary General's five yearly surveys of capital punishment and on the latest information from non-governmental organizations and the academic literature. Not only have many more countries abolished capital punishment but even amongst those that retain it, the majority have been carrying out fewer executions. Legal challenges to the mandatory capital punishment have been successful, as has the pressure to abolish the death penalty for those who commit a capital crime when under the age of 18. This edition has more to say about the prospects that China will restrict and control the number of executions on the road to abolition. Yet despite such advances, this book reveals many human rights abuses where the death penalty still exists. In some countries, a wide range of crimes are still subject to capital punishment, and the authorities too often fail to meet the safeguards embodied in international human rights treaties to safeguard those facing the death penalty. There is evidence of police abuse, unfair trials, lack of access to competent defence counsel, excessive periods of time spent on in horrible conditions on death row, and public, painful forms of execution. The authors engage with the latest debates on the realities of capital punishment, especially its justification as a uniquely effective deterrent, whether it can ever be administered equitably without discrimination or error, and what influence relatives of victims should have in sentencing and on the public debate. For the first time, it also discusses the problem of devising an alternative to capital punishment, especially life imprisonment without the possibility of parole.

Death Penalty in Decline? Austin Sarat, 2024-05-31. This volume presents essays evaluating the similarities and differences between the legal, political, ethical, and practical landscapes confronted by the death penalty abolition movement at the time of the *Furman v Georgia* decision and subsequent reversal, and those confronted by the same movement today.

The European Witch-Hunt Julian Goodare, 2016-05-12. The European Witch Hunt seeks to explain why thousands of people, mostly lower class women, were deliberately tortured and killed in the name of religion and morality during three centuries of intermittent witch hunting throughout Europe and North America. Combining perspectives from history, sociology, psychology, and other disciplines, this book provides a comprehensive account of witch hunting in early modern Europe. Julian Goodare sets out an original interpretation of witch hunting as an episode of ideologically driven persecution by the godly state in the era of the Reformation and Counter Reformation. Full weight is also given to the context of village social relationships, and there is a detailed analysis of gender issues. Witch hunting was a legal operation, and the courts' rationale for interrogation under torture is explained. Panicking local elites rather than central governments were at the forefront of

witch hunting Further chapters explore folk beliefs about legendary witches and intellectuals beliefs about a secret conspiracy of witches in league with the Devil Witch hunting eventually declined when the ideological pressure to combat the Devil s allies slackened A final chapter sets witch hunting in the context of other episodes of modern persecution This book is the ideal resource for students exploring the history of witch hunting Its level of detail and use of social theory also make it important for scholars and researchers *Vengeful Citizens, Violent States* Rachel M. Stein, 2019-03-21 Develops a novel theory of war and revenge with far reaching implications for the role of individuals in international relations *The EU Charter of Fundamental Rights* Steve Peers, Tamara Hervey, Jeff Kenner, Angela Ward, 2014-12-01 The Charter of Fundamental Rights of the European Union enshrines the key political social and economic rights of EU citizens and residents in EU law In its present form it was approved in 2000 by the European Parliament the Council of Ministers and the European Commission However its legal status remained uncertain until the entry into force of the Treaty of Lisbon in December 2009 The Charter obliges the EU to act and legislate consistently with the Charter and enables the EU s courts to strike down EU legislation which contravenes it The Charter applies to EU Member States when they are implementing EU law but does not extend the competences of the EU beyond the competences given to it in the treaties This Commentary on the Charter the first in English written by experts from several EU Member States provides an authoritative but succinct statement of how the Charter impacts upon EU domestic and international law Following the conventional article by article approach each commentator offers an expert view of how each article is either already being interpreted in the courts or is likely to be interpreted Each commentary is referenced to the case law and is augmented with extensive references to further reading Six cross cutting introductory chapters explain the Charter s institutional anchorage its relationship to the Fundamental Rights Agency its interaction with other parts of international human rights law the enforcement mechanisms extraterritorial scope and the all important Explanations Moral Imagination Edward Tivnan, 1996-07-12 When it comes to the most controversial moral questions of our lives abortion euthanasia suicide capital punishment racial justice and affirmative action there is a right and wrong but no one owns the truth This book guides us through the opposing arguments on these profound issues opening up ways for our pluralistic society to think about them How does one make up one s mind about the difficult yet everyday inescapable social and moral problems we all face The public debate often degenerates into name calling and even violence Conservatives and liberals alike act as if there is only one way to think In a format that is accessible anecdotal and concrete Edward Tivnan lays out the best arguments on all sides of these visceral topics He explores the most sophisticated thinking from philosophy theology medicine and the law as well as examples from the emotional complexities of everyday life and carefully mediates between opposing ideals not to lead us to a position of convenience but to help us toward independent decisions of conviction Tivnan s analysis therefore does not dictate answers but calls for an effort to understand and respect why people believe so strongly in their own values Only by facing up to our

differences of opinion can we make progress expand our moral imagination and achieve a decent and respectful society In concluding chapters Tivnan describes the peculiar nature of American democracy invented by men who knew that freedom would breed conflicting values and expected that such differences would secure the nation s future as a republican democracy The first premise of a decent free society Tivnan writes is tolerance the first sparks of tolerance and decency reside in the imagination what I want to call the moral imagination He concludes that expanding our moral imagination will cleanse debate of hatred and moral arrogance Portugal Export-Import, Trade and Business Directory Volume 1 Strategic Information and Contacts IBP, Inc.,2013-08 2011 Updated Reprint Updated Annually Portugal Export Import Trade and Business Directory Portugal Mineral, Mining Sector Investment and Business Guide Volume 1 Strategic Information and Regulations IBP, Inc.,2018-03-20 Portugal Mineral Mining Sector Investment and Business Guide Volume 1 Strategic Information and Regulations Dead Wrong Richard A.
