### **The Deeds Of Pope Innocent Iii:**

**The Deeds of Pope Innocent III** James M. Powell, 2004-03 The Deeds of Pope Innocent III composed before 1210 by an anonymous member of the papal curia provides a unique window into the activities policies and strategies of the papacy and the curia during one of the most important periods in the history of the medieval church [The deeds of Pope Innocent III.](#) William Henry Crain, 1943 **The Deeds of Pope Innocent III by an Anonymous Author**, 2004 **The Deeds of Pope Innocent III** James M. Powell, 2004-03 The translator provides an engaging introduction and adds numerous explanatory notes throughout the book Those who seek a fuller understanding of the development of the papacy during a period of great change in medieval religious history will find this work essential BOOK JACKET [Papal Overlordship and European Princes, 1000-1270](#) Benedict Wiedemann, 2022 Papal Overlordship and European Princes 1000 1270 offers a new perspective on the political history of the central Middle Ages by focusing on the alliances between popes and rulers who claimed a special relationship with the successor of St Peter Rather than seeing these relationships as attempts by the popes to assert their lordship and monarchy over the entire world as many past narratives have this study asks what rulers got out of these relationships what they meant and how they were constructed Papal government in fact much pre modern government in general was based around replying to petitions Thus rulers and subjects by entering into a relationship with the pope were able to petition Rome and have their requests approved and given the sanction of papal authority Papal power was enlisted in the causes of petitioners All of these relationships between the popes and the kings of England Aragon Sicily Hungary Portugal and a myriad of further polities have at one time or another been called feudal a word that explains little or nothing about the nature and expectations of the alliance The second strand of this study examines how these relationships were constructed and how words and concepts circulated Eventually terms like fief and vassal and ideas about deposition of vassal kings were introduced into the political discourse around papal authority over their kings It always remained the case however that rulers sought out papal overlordship because of the opportunity it gave them to adopt and adapt papal power for their own purposes *The Papacy, Frederick II and Communal Devotion in Medieval Italy* James M. Powell, edited by Edward Peters, 2024-10-28 Of the twenty five essays in this volume most were published between 1961 and 2013 but four are printed here for the first time They represent the work of a great and original scholar in Mediterranean history whose unflagging interest in Frederick II and his world consistently led him out into broader fields which he always viewed in original ways In an age often called that of papal monarchy and secular minded rulers Powell found popes with complex agendas and extensive pastoral concerns a rather more Christian Frederick II the human personnel and mechanics of the Fifth Crusade the sermons of the devout urban layman Albertanus of Brescia and Muslims under Christian rule His studies here assert a continuity between the pontificates of Innocent III and Honorius III as well as the pragmatic necessity that only secular rulers could launch and direct crusading expeditions His interest in the northern Italian communes relates their

devotional culture to the ideals of virtuous government and communal identity The devotional culture of the communes was to be the subject of his next book now unfinished several parts of it could be rescued and are now included here The Cult of St Thomas Becket in the Plantagenet World, C.1170-c.1220 Paul Webster (Medievalist), Marie-Pierre Gelin, 2016 The extraordinary growth and development of the cult of St Thomas Becket is investigated here with a particular focus on its material culture Thomas Becket the archbishop of Canterbury cut down in his own cathedral just after Christmas 1170 stands amongst the most renowned royal ministers churchmen and saints of the Middle Ages He inspired the work of medieval writers and artists and remains a compelling subject for historians today Yet many of the political religious and cultural repercussions of his murder and subsequent canonisation remain to be explored in detail This book examines the development of the cult and the impact of the legacy of Saint Thomas within the Plantagenet orbit of the late twelfth and early thirteenth centuries the Empire assembled by King Henry II defended by his son King Richard the Lionheart and lost by King John Traditional textual and archival sources such as miracle collections charters and royal and papal letters are used in conjunction with the material culture inspired by the cult to emphasise the wide ranging impact of the murder and of the cult's emergence in the century following the martyrdom From the archiepiscopal church at Canterbury to writers and religious houses across the Plantagenet lands to the courts of Henry II his children and the bishops of the Angevin world individuals and communities adapted and responded to one of the most extraordinary religious phenomena of the age Dr Paul Webster is currently Lecturer in Medieval History and Project Manager of the Exploring the Past adult learners progression pathway at Cardiff University Dr Marie Pierre Gelin is a Teaching Fellow in the History Department at University College London Contributors Colette Bowie Elma Brenner Jos Manuel Cerda Anne J Duggan Marie Pierre Gelin Alyce A Jordan Michael Staunton Paul Webster **The Reception of Papal Legates in England, 1170-1250** Emil Lauge Christensen, 2025-04 Considers the reception of legatine missions to England during a significant period in the development of Anglo Papal relations Papal legates as the most powerful representatives of the pope wielded significant influence in establishing and upholding papal authority throughout Christendom The adventus the elaborate ceremony of lordship on their arrival provided a reception to mark their status While the ceremony was ostensibly a straightforward display of power communicating the lordship and authority of the papal legate and a tool for establishing negotiating and gauging the relationship between the pope and other European powers it was also susceptible to manipulation and distortion This book investigates how four chroniclers Roger of Howden Gervase of Canterbury Roger of Wendover and Matthew Paris observed and interpreted such legatine adventus ceremonies in England in the twelfth and thirteenth centuries These writers aware of the curia's view that the reception of a papal legate signified acquiescence to papal authority and hegemony offer a range of responses from ridicule to praise Drawing on chronicles customaries decretals and other sources it sheds new light on the intricate interplay between the expectations of both the papacy and the legates and the diverse viewpoints found in the response of English

writers     The Papacy and Crusading in Europe, 1198-1245 Rebecca Rist, 2011-11-03 An internal crusade is defined as a holy war authorized by the pope and fought within Christian Europe against those perceived to be foes of Christendom either to recover property or in defense of the Church or Christians This study is therefore not concerned with those crusades authorized against Muslim enemies in the East and Spain nor with crusades authorized against pagans on the borders of Europe Up to now these crusades have attracted relatively little attention in modern British scholarship This in spite of their undoubted European wide significance and an increasing recognition that the period 1198 1245 marks the beginning of a crucial change in papal policy underpinned by canon law This book discusses the developments through analysis of the extensive source material drawn from unregistered papal letters placing them firmly in the context of ecclesiastical legislation canon law chronicles and other supplementary evidence It thereby seeks to contribute to our understanding of the complex politics theology and rhetoric that underlay the papacy's call for crusades within Europe in the first half of the thirteenth century     *Law as Profession and Practice in Medieval Europe* Kenneth Pennington, Melodie Harris Eichbauer, 2016-04-15 This volume brings together papers by a group of scholars distinguished in their own right in honour of James Brundage The essays are organised into four sections each corresponding to an important focus of Brundage's scholarly work The first section explores the connection between the development of medieval legal and constitutional thought Thomas Izbicki Kenneth Pennington and Charles Reid Jr explore various aspects of the jurisprudence of the *Ius commune* while James Powell Michael Gervers and Nicole Hamonic Olivia Robinson and Elizabeth Makowski examine how that jurisprudence was applied to various medieval institutions Brian Tierney and James Muldoon conclude this section by demonstrating two important points modern ideas of consent in the political sphere and fundamental principles of international law attributed to sixteenth century jurists like Hugo Grotius have deep roots in medieval jurisprudential thought Patrick Zutshi R H Helmholz Peter Landau Marjorie Chibnall and Edward Peters have written essays that augment Brundage's work on the growth of the legal profession and how traces of a legal education began to emerge in many diverse arenas The influence of legal thinking on marriage and sexuality was another aspect of Brundage's broad interests In the third section Richard Kay Charles Donahue Jr and Glenn Olsen explore the intersection of law and marriage and the interplay of legal thought on a central institution of Christian society The contributions of Jonathan Riley Smith and Robert Somerville in the fourth section round out the volume and are devoted to Brundage's path breaking work on medieval law and the crusading movement The volume also includes a comprehensive bibliography of Brundage's work     **The Briennes** Guy Perry, 2018-08-16 The Briennes were a highly important aristocratic family who hailed from the Champagne region of north eastern France but whose reach and impact extended across Europe and into the Crusader States in the Middle East It is a highly dramatic and wide ranging story of medieval mobility not only up and down the social ladder but in geographical terms as well Although the Briennes were one of the great dynasties of the central Middle Ages this book represents the first

**Moneylender** Julie L. cultural capital     The Saint and the Sultan Paul Moses, 2009-09-29 An intriguing examination of the extraordinary and little known meeting between St Francis of Assisi and Islamic leader Sultan Malik Al Kamil that has strong resonance in today's divided world For many of us St Francis of Assisi is known as a poor monk and a lover of animals However these images are sadly incomplete because they ignore an equally important and more challenging aspect of his life his unwavering commitment to seeking peace In *The Saint and the Sultan* Paul Moses recovers Francis's message of peace through the largely forgotten story of his daring mission to end the crusades In 1219 as the Fifth Crusade was being fought Francis crossed enemy lines to gain an audience with Malik al Kamil the Sultan of Egypt The two talked of war and peace and faith and when Francis returned home he proposed that his Order of the Friars Minor live peaceably among the followers of Islam a revolutionary call at a moment when Christendom pinned its hopes for converting Muslims on the battlefield *The Saint and the Sultan* captures the lives of St Francis and Sultan al Kamil and illuminates the political intrigue and religious fervor of their time In the process it reveals a startlingly timely story of interfaith conflict war and the search for peace More than simply a dramatic adventure though it does not lack for colorful saints and sinners loyalty and betrayal and thrilling Crusade narrative *The Saint and the Sultan* brings to life an episode of deep relevance for all who seek to find peace between the West and the Islamic world Winner of the 2010 Catholic Press Association Book Award for History     **Crusaders and Crusading in the Twelfth Century** Giles Constable, 2008 This volume brings together revised and updated versions of Giles Constable's classic essays on crusading in the 12th century along with two major new studies on the cross of the crusaders and the Fourth Crusade and two excursions on the terminology of crusading and the numbering of the crusades Together they show the range and depth of the crusading movement at that time and its influence on the broader history of the period     *The Medieval Origins of the Legal Profession* James A. Brundage, 2024-05-31 In the aftermath of sixth century barbarian invasions the legal profession that had grown and flourished during the Roman Empire vanished Nonetheless professional lawyers suddenly reappeared in Western Europe seven hundred years later during the 1230s when church councils and public authorities began to impose a body of ethical obligations on those who practiced law James Brundage's *The Medieval Origins of the Legal Profession* traces the history of legal practice from its genesis in ancient Rome to its rebirth in the early Middle Ages and eventual resurgence in the courts of the medieval church By the end of the eleventh century Brundage argues renewed interest in Roman law combined with the rise of canon law of the Western church to trigger a series of consolidations in the profession New legal procedures emerged and formal training for proctors and advocates became necessary in order to practice law in the reorganized church courts Brundage demonstrates that many features that characterize legal advocacy today were already in place by 1250 as lawyers trained in Roman and canon law became professionals in every sense of the term A sweeping examination of the centuries long power struggle between local courts and the Christian church secular rule and religious edict *The Medieval Origins of the Legal Profession* will be a

resource for the professional and the student alike      Documenting the Past in Medieval Puglia (1130-1266) Paul Oldfield, 2023 A study exploring the production of historical memory in the region of Puglia after it was subsumed by the new Kingdom of Sicily in 1130 assessing the significance of the apparent disappearance of traditional forms of Pugliese historical writing and analyzing the existence of other historical discourses embedded in surviving local documentation
