Legislative Foundations of American Consumer Society Bob Sullivan, 2021-09-27 The current literature on consumerism is diverse scattered and unsystematic This book remedies this by identifying the beginning of mass consumer society in the United States starting with the New Deal The New Deal framework of guaranteeing new home purchases by means of low down payment fixed rate home mortgages lasted until the 1970s at which time the legal framework unraveled due to a sustained attack on New Deal racism Despite this American consumerism continued and even flourished without a regulatory structure This book analyzes seven key pieces of federal legislation which undergird American consumer society to this day

Deregulation in the European Union Ute Collier, 1998 This volume has its roots in a workshop on Deregulation and the Environment organised by the Working Group on Environmental Studies WGES of the European University Institute in Florence in May 1996 P x

Gambling with the Myth of the American Dream Aaron M. Duncan, 2015-03-02 This book explores the rise and increased acceptance of gambling in America particularly the growth of the game of poker as a means for examining changes to the American Dream and the risk society Poker both critiques and reinterprets the myth of the American Dream putting greater emphasis on the importance of luck and risk management while deemphasizing the importance of honesty and hard work Duncan discusses the history of gambling in America changes to the rhetoric surrounding gambling the depiction of poker in the Wild West as portrayed in film its recent rise in popularity on television its current place in post modern America on the internet and future implications

Neoliberal Spatial Governance Phil Allmendinger, 2016-04-14 *Neoliberal Spatial Governance* explores the changing nature of English town and city planning as it has slowly but clearly transformed Once a system for regulating and balancing change in the built and natural environments in the public interest planning now finds itself facilitating development and economic growth for narrow sectional interests Whilst there is a lip service towards traditional values the progressive aims and inclusivity that provided planning s legitimacy and broad support have now largely disappeared The result is a growing backlash of distrust and discontent as planning has evolved into neoliberal spatial governance The tragedy of this change is that at a time when planning has a critical role in tackling major issues such as housing affordability and climate change it finds itself poorly resourced with low professional morale lacking legitimacy and support from local communities accused of bureaucracy and red tape from businesses and ministers and subject to regular disruptive reforms Yet all is not lost There is still demand and support for more comprehensive and progressive planning one that is not purely driven by the needs of developers and investors Resistance against the idea that planning exists to help roll out development is growing *Neoliberal Spatial Governance* explores the background and implications of the changes in planning under the governments of the past four

decades and the ways we might think about halting and reversing this shift Contesting Deregulation Knud Andresen, Stefan Müller, 2017-09-01 Few would dispute that many Western industrial democracies undertook extensive deregulation in the 1970s and 1980s Yet this narrative in its most familiar form depends upon several historiographical assumptions that bely the complexities and pitfalls of studying the recent past Across thirteen case studies the contributors to this volume investigate this deregulatory moment from a variety of historical perspectives including transnational comparative pan European and national approaches Collectively they challenge an interpretive framework that treats individual decades in isolation and ignores broader trends that extend to the end of the Second World War **Sorting Out**

Deregulation Jae Young Kim, Chae-yŏng Kim, 2002 Kim examines how the United States Germany and Japan encourage universal service and free speech on the Internet in deregulated marketplaces All three nations seek universal service through competitive marketplaces but they guarantee free expression differently hands off policies in the US top down approaches in Germany and bottom up approaches in Japan The local political social and legal atmosphere determines each nation s policies However all approaches betray unanticipated consequences that weaken their policies Public interest in the two areas cannot be realized without sacrificing the viability of telecommunications deregulation and universal service and the maintenance of free speech require government action Motor Gasoline Deregulation and the Gasoline Tilt United States. Department of Energy, 1979 *National Security, Democracy, and Good Governance in Postmilitary-Rule Nigeria, Volume Two* Dr. Dan Mou, 2017-01-12 This book shows that the security economic political and social problems challenging national security democracy and good governance currently in Nigeria would get better or worse depending on what happens to the 71 percent of Nigerias population still living below the poverty line This is in spite of the billions of petrodollars that Nigeria garnered as revenue over the past few decades It reveals that one does not need to be a political prophet to predict that if these challenges are not successfully addressed through good governance and inclusive growth this country will witness worse civil disobedience violence revolts militancy breakdown of law and order more kidnappings and more of the citizens trying to check out of the country to other parts of the world in the future It concludes however that under such intense pressures the Government of Nigeria even if it is simply for its self preservation will be forced by the objective conditions to move against the interests of the dominant groups and classes in Nigeria These are the ones who have for long captured and hijacked state power and the resources of the country for their exclusive use There is this perception that Nigerians dont write and read This perception is deep seated even among intellectuals who see our authors as shallow researchers But Dr Dan Mou has debunked that myth and shown that Nigerians can write well researched and detailed books It is quite prophetic in its assessment of the Nigerian State Agbo Agbo deputy editor The Nation Dr Dan Mou has proven himself a world class scholar and an intellectual colossus His reputation as an internationally renowned public policy expert has continued to soar I congratulate him for these remarkable achievements Professor Justice Abdul Fatai Kuti first justice of

Abuja High Court and former dean faculty of law University of Ado Ekiti Ekiti State of Nigeria Dr Mou is certainly one of the best scholars we have on the African continent As an educationist myself before I became a traditional ruler I agree totally with his analysis and conclusions I share the optimism Dr Mou has expressed that once the recommendations therein are adopted and meticulously implemented with proper monitoring and evaluation of such resultant policies and programmes Nigeria and indeed Africa would be able to solve most of these challenges HRH Alh Dr Sheban Audu Nizazo III Etsu Kwali Etsu Kwalis Palace Abuja Nigeria International Deregulation and Privatization Christian Campbell,2021-10-01 Issues vital to private investors from competition law to tax aspects are surveyed here by accountants and lawyers from throughout the EU The text shows the extent to which deregulation or liberalization of industrial sectors in the member states of the European Union EU has impacted beyond the economies and financial markets of Europe As more sectors of the European economy open to private participants the effect on the aviation rail insurance telecommunications and utilities sectors as this insightful text shows will continue to intensify dramatically Published under the Transnational Publishers imprint **Air Cargo and Passenger Deregulation** United States. government driven deregulation on local communities The policy decision was primarily about boosting the supply of housing but reflects a broader neoliberal ideology which seeks to reform public planning in many countries to reduce perceived interference in free markets Drawing on original research in the English local authorities of Camden Croydon Leeds Leicester and Reading the book provides a case study of the implementation of planning deregulation which demonstrates the lowering of standards in housing quality the reduced ability of the local state to proactively steer development and plan for their places and the transfer of wealth from the public to private spheres that has resulted Comparative case studies from Glasgow and Rotterdam call into question the very need for the deregulation in the first place

The Deregulation Experience

Kenneth W. Costello, Robert J. Graniere, 1997

Making of an

African Giant Dan Mou, 2015-10-16 The performance of Nigeria has recently been vehemently criticized as not commensurate with her human and material potentialities The hope that Nigeria is by destiny the African Giant appears to be fading Some analysts seeing this have blamed it on the character defects of the leadership in Nigeria They argue that because the leaders are predatory and corrupt they have preoccupied themselves with their interests which are primitive accumulation and luxurious lifestyles Meanwhile the rest of the citizens are suffering This book argues that such character defects may indeed exist in some of Nigerian leaders However these are not the main reasons for their dismal performance regarding the welfare of the citizens The main problem is that Nigerian leaders seem to have largely lost control over the state and its policies which appear to have been captured by the dominant classes and groups local and international Nigerias main problem is therefore a structural one Nonetheless the book concludes as the security economic political and social crises intensify Nigerian leaders even if it is simply for self preservation will be forced by the objective conditions to move against the interests of these dominant classes and groups It is only then that Nigeria can realistically be restored to the possibility of becoming an African Giant

The Effects of Deregulation on U.S. Air Networks

Aisling J. Reynolds-Feighan, 2012-12-06 1 1 A Brief History of U S Commercial Aviation Regulation and Deregulation The U S commercial aviation industry was regulated by the government for a period of 40 years beginning in 1938 with the passing of the Federal Aviation Act and ending in October 1978 when President Carter signed into law the Airline Deregulation Act ADA There were 16 airlines in existence when the Federal Aviation Act was passed in 1938 the so called trunk lines The Act established the Civil Aeronautics Authority CAA as the industry s regulatory body The Act was passed principally because it was felt that the free market if allowed to continue unregulated for much longer would put many of these firms into bankruptcy It is possible therefore to view the CAA of 1938 re organized into the Civil Aeronautics Board CAB in 1940 as a response to a potential market failure at the time In the 1930s few air traffic markets could have efficiently supported more

than one airline operating in the market Panzar 1980 Competition among the carriers was cut throat and it was felt that the near bankruptcy of the airlines in the period was caused principally by the competitive bidding system used by the Post Office in allotting airmail subsidies Keeler 1972 Caves 1962
