## **The Desire Body:**

**Body Utopianism** Franziska Bork Petersen,2022-07-04 This book investigates how desires to transform our bodies can bring utopia to the present and how utopian practices often lead to distinctly dystopian or anti utopian outcomes It is the first comprehensive study to address the paradoxical relationship between bodies and utopianism Franziska Bork Petersen discusses doping bodybuilding and cosmetic surgery alongside practices such as retouching the body as image on social media and looks at how fashion modelling and performance estrange the body Techniques and technologies to transform our bodies are increasingly accessible and suggest an excessive identification of the body as lacking To be a body in a culturally meaningful way we incessantly improve our bodily appearance and capacity The book therefore addresses the utopianism inherent in a cultural understanding of bodies as increasingly controllable *The Mystery of Spirit* George

Robbins,2021-02-25 Focusing on techniques of spiritual development and awareness of the presence of spirit in ordinary life Robbins challenges the reader to move beyond spiritual blockages and obstacles and raise the vibrational frequencies that bring us to greater enlightenment This reduces negative emotions such as despair meaninglessness and unhappiness Robbins wants to help us increase our pro social activity thereby contributing to a more open minded service towards others In this book he shows how to use effective techniques for practical and spiritual change while following a path of heart

**Bedroom Life** Nitin Darda,2015-04-22 Problems have become a part of everybody s day to day life Everyone goes through different types of problems in their lives and ultimately suffers from stress anxiety fear Physical intimacy and sex has therefore become one of the best ways to relax and to seek release from one s own problems But when sex itself becomes a problem then everyone from the individual to the family society our nation and even the world becomes disturbed This book will explain the different types of problems in sexual relationships and natural techniques of sex This book also helps people find solutions for these problems Bedroom Life will not only help you find happiness relaxation and joy in life but also help you on the path towards self realisation and transformation *Thought Forms* Annie Besant,C. W. Leadbeater,2015-05-20

What do ideas look like This clairvoyant view of the shape color and atmospheric effect of mental energy includes black and white drawings and color plates to convey a graphic representation of the power of thought Prominent Theosophists Annie Besant and C W Leadbeater were pioneers in asserting that thoughts are indeed things Originally released in 1901 Thought Forms is a seminal work on what thoughts look like It had an impact far beyond the circle of its primary readers and greatly influenced leading artists such as Piet Mondrian and Wassily Kandinsky Simple in style and clearly written Thought Forms is a classic of the Theosophical tradition that has as much to say in our own day as it did a century ago It lucidly sets forth a way to conceive of the invisible realms within and around us with implications both for how we view the world and how we act in it Discussion includes the meaning of color thought forms built by music and the nature of helpful thoughts Based on the authors clairvoyant vision its illustrations suggest the form thoughts take in relation for instance to anger fear intellect

sympathy devotion and a meditative state Annie Besant herself describes the book's purpose as being to serve as a striking moral lesson to every reader making him realize the nature and power of his thoughts acting as a stimulus to the noble and a curb to the base With this belief and hope we send it on its way

**Poetics of Love in the Arabic Novel** Wen-chin Ouyang, 2012-06-20 Considers the Arabic novel within the triangle of the nation state modernity and tradition Wen Chin Ouyang explores the development of the Arabic novel especially the ways in it engages with aesthetics ethics and politics in a cross cultural context and from a transnational perspective Taking love and desire as the central tropes the story of the Arabic novel is presented as a series of failed illegitimate love affairs all tainted by its suspicion of the legitimacy of the nation modernity and tradition and above all by its misgiving about its own propriety

**Oxford Studies in Ancient Philosophy, Volume 46** Brad Inwood, 2014-06-12 Oxford Studies in Ancient Philosophy is a volume of original articles on all aspects of ancient philosophy The articles may be of substantial length and include critical notices of major books OSAP is now published twice yearly in both hardback and paperback

**Religion and Media** Hent de Vries, Samuel Weber, 2001 Counter The twenty five contributors to this volume who include such influential thinkers as Jacques Derrida Jean Luc Nancy Talal Asad and James Siegel confront the conceptual analytical and empirical difficulties involved in addressing the complex relationship between religion and media The book's introductory section offers a prolegomenon to the multiple problems raised by an interdisciplinary approach to these multifaceted phenomena The essays in the following part provide exemplary approaches to the historical and systematic background to the study of religion and media The third part presents case studies by anthropologists and scholars of comparative religion The book concludes with two remarkable documents a chapter from Theodor W Adorno's study of the relationship between religion and media in the context of political agitation The Psychological Technique of Martin Luther Thomas's Radio Addresses and a section from Niklas Luhmann's monumental Die Gesellschaft der Gesellschaft Society as a Social System

**Somatic Desire** Christine Rojcewicz, Richard Kearney, Sarah Horton, Stephen Mendelsohn, 2019-01-17 The essays in this volume all ask what it means for human beings to be embodied as desiring creatures and perhaps still more piercingly what it means for a philosopher to be embodied In taking up this challenge via phenomenology psychoanalysis hermeneutics and the philosophy of literature the volume questions the orthodoxies not only of Western metaphysics but even of the phenomenological tradition itself We miss much that has philosophical import when we exclude the somatic aspects of human life and it is therefore the philosopher's duty now to rediscover the meaning inherent in desire emotion and passion without letting the biases of any tradition determine in advance the meaning that reveals itself in embodied desire Continental philosophers have already done much to challenge binary oppositions and this volume sets out a new challenge we must now also question the dichotomy between being at home and being alienated Alterity is not simply something out there separate from myself rather it penetrates me through and through even in my corporeal experience My body is both my own and other I am other than myself and therefore other

than my body Additionally this book is a conversation not a presentation of a new orthodoxy Thus the hope is that these essays will open the way for further dialogue that will continue to radically rethink our understanding of embodied desire Gathered together here are twelve essays that address these issues from deeply interrelated albeit unique perspectives from within the field

**Ovid's Revisions** Francesca K. A. Martelli, 2013-12-05 A striking feature of Ovid's literary career derives from the processes of revision to which he subjects the works and collections that make up his oeuvre From the epigram prefacing the *Amores* to the editorial notices built into the book frames of the *Epistulae Ex Ponto* Ovid repeatedly invites us to consider the transformative horizons that these editorial interventions open up for his individual works and which also affect the shape of his career and authorial identity Francesca K A Martelli plots the vicissitudes of Ovid's distinctive career long habit considering how it transforms the relationship between text oeuvre and authorial voice and how it relates to the revisory practices at work in the wider cultural and political matrix of Ovid's day This fascinating study will be of great interest to students and scholars of classical literature and to any literary critic interested in revision as a mode of authorial self fashioning
