The Development Of The American Short Story:

The Development of the American Short Story Fred Lewis Pattee, 1923 *The Development of the American Short Story* Fred Lewis Pattee, 1966 **The Culture and Commerce of the American Short Story** Andrew Levy, 1993-09-24

The Culture and Commerce of the Short Story is a cultural and historical account of the birth and development of the American short story from the time of Poe. It describes how America through political movements changes in education, magazine editorial policy, and the work of certain individuals built the short story as an image of itself and continues to use the genre as a locale within the realm of art where American political ideals can be rehearsed, debated, and turned into literary forms. While the focus of this book is cultural, individual authors such as Edgar Allan Poe and Edith Wharton are examined as representative of the phenomenon. As part of its project, this book also contains a history of creative writing and the workshop dating back a century. Andrew Levy makes a strong case for the centrality of the short story as a form of art in American life and provides an explanation for the genre's resurgence and ongoing success. *The Development of the American Short Story* Fred Lewis Pattee, 1923 *The Development of the American Short Story* Fred Lewis Pattee, 1970

Includes a section focused on specific authors and texts from Edgar Allan Poe to John Updike.

Century Readings in the American Short Story Fred Lewis Pattee, 1927 *The American Short Story Handbook* James Nagel, 2015-02-23. This is a concise yet comprehensive treatment of the American short story that includes an historical overview of the topic as well as discussion of notable American authors and individual stories from Benjamin Franklin's The Speech of Miss Polly Baker in 1747 to The Joy Luck Club. Includes a selection of writers chosen not only for their contributions of individual stories but for bodies of work that advanced the boundaries of short fiction including Washington Irving, Sarah Orne Jewett, Stephen Crane, Jamaica Kincaid, and Tim O'Brien. Addresses the ways in which American oral storytelling and other narrative traditions were integral to the formation and flourishing of the short story genre. Written in accessible and engaging prose for students at all levels by a renowned literary scholar to illuminate an important genre that has received short shrift in scholarly literature of the last century. Includes a glossary defining the most common terms used in literary history and in critical discussions of fiction and a bibliography of works for further study. **The Columbia Companion to the Twentieth-Century American Short Story** Blanche H. Megashift from Plot to Character In American Short Fiction (1900-1941): A Critical Study, *Maupassant and the American Short Story* Richard Fusco, 2010-11-01 Maupassant and the American Short Story isolates and develops more fully than any previous study the impact of Maupassant's work on the writing of Ambrose Bierce O Henry Kate Chopin and Henry James It introduces a new perspective to assess their canons reviving the importance of many often ignored stories and in the cases of Maupassant and O Henry reasserting the necessity of studying such writers to understand the history of the genre An important moment in the history of the short story occurred with the American misreading of Maupassant's use of story structure At the turn of the century writers such as Bierce and O Henry seized upon the surprise inversion form because Maupassant's translators promoted him as championing

it Only a few writers such as James and Chopin both of whom read Maupassant in French appreciated his deft handling of form more fully Their vision and the impact of Maupassant upon their fiction was largely ignored by later generations of writers who preferred to associate Maupassant and O Henry with the trick ending story This book details the origins and consequences of this misperception The book further contributes to the study of the short story genre Through an adaptation of Aristotelian concepts Richard Fusco proposes an original approach to short story structure defining and developing seven categories of textual formulas linear ironic coda surprise inversion loop descending helical contrast and sinusoidal As a practitioner of all these forms Maupassant established his mastery of the genre By studying his use of form the book asserts a major reason for his pivotal importance in the historical development of the short story **Representative American**
