The Diary Of A Private Doctor:

The Diary of a Private Doctor Robert Lefever,1988 *The Doctor in the Victorian Novel* Tabitha Sparks,2016-03-23
With the character of the doctor as her subject Tabitha Sparks follows the decline of the marriage plot in the Victorian novel As Victorians came to terms with the scientific revolution in medicine of the mid to late nineteenth century the novel's progressive distance from the conventions of the marriage plot can be indexed through a rising identification of the doctor with scientific empiricism A narrative's stance towards scientific reason Sparks argues is revealed by the fictional doctor's relationship to the marriage plot Thus novels that feature romantic doctors almost invariably deny the authority of empiricism as is the case in George MacDonald's *Adela Cathcart* In contrast works such as Wilkie Collins's *Heart and Science* which highlight clinically minded or even sinister doctors uphold the determining logic of science and in turn threaten the novel's romantic plot By focusing on the figure of the doctor rather than on a scientific theme or medical field Sparks emulates the Victorian novel's personalization of tropes and belief systems using the realism associated with the doctor to chart the sustainability of the Victorian novel's central imaginative structure the marriage plot As the doctors Sparks examines increasingly stand in for the encroachment of empirical knowledge on a morally formulated artistic genre their alienation from the marriage plot and its interrelated decline succinctly herald the end of the Victorian era and the beginning of Modernism **National Library of Medicine Current Catalog** National Library of Medicine (U.S.),1988 **The Doctor's World** Paul Hyland,2022-11-25 This is the story of the extraordinary life of Claver Morris and the society in which he lived After his marriage at Chelsea in 1685 Claver Morris moved to Somerset where he established an outstanding reputation for his work as a physician His diaries show us how he worked with apothecaries and surgeons and travelled widely to treat all kind of patients from the children of the poor to those of the landed gentry The diaries also tell us about the joys and pains of Claver's personal and family life and of his various intrigues Claver Morris was a man of many talents immensely enterprising knowledgeable sociable and loving His house was always filled with music guests and entertainments Yet he was often faced with disputes and troubles partly of his own making as when he courted a bishop's daughter or stole some land to build his Queen Anne house *The Doctor's World* provides a unique portrait of a physician living and working through the political and religious turmoils that beset the nation at the turn of the eighteenth century Tales of medical treatments clandestine marriages and self serving priests are entwined with famous acts of treason and rebellion and the pleasures and tragedies of daily life This meticulously researched book will appeal to all readers of social political medical and family history *The Clarendon Historical Society's Reprints. Series I. 1882-1884* Anonymous,2024-04-08 Reprint of the original first published in 1882 *A History of the English-Speaking Peoples since 1900* Andrew Roberts,2010-12-16 Prize winning British historian tells the story of the English speaking peoples in the 20th century Winston Churchill's *History of the English Speaking Peoples* ended in 1900 Andrew Roberts Wolfson History prizewinner has been inspired by Churchill's

example to write the story of the 20th century Churchill wrote Every nation or group of nations has its own tale to tell Knowledge of the trials and struggles is necessary to all who would comprehend the problems perils challenges and opportunities which confront us today It is in the hope that contemplation of the trials and tribulations of our forefathers may not only fortify the English speaking peoples of today but also play some small part in uniting the whole world that I present this account As the greatest of all the trials and tribulations of the English speaking peoples took place in the twentieth century Roberts book covers the four world historical struggles in which the English speaking peoples have been engaged the wars against German Nationalism Axis Fascism Soviet Communism and now the War against Terror But just as Churchill did in his four volumes Roberts also deals with the cultural social and political history of the English global diaspora **The Clarendon Historical Society's Reprints** Clarendon Historical Society, Edinburgh, 1882 *Clarendon Historical Society, Edinburgh*, 1882 *Madame Blavatsky on the Theosophy of Dr. N.I. Pirogov* Helena Petrovna Blavatsky, 2019-05-30

Metaphysical mystical and philosophical excerpts from Dr N I Pirogov Problems of Life The Diary of an Old Physician Selected and translated from the Russian by H P Blavatsky with extensive annotations and commentary The thoughts of the false I or personality are mere shadows of the true Individuality and Higher Ego The records of past events and passing thoughts even the most trifling ones are impressed on the imperishable waves of Astral Light not in the brain alone Intuition is divine but faith is human and the misapplication of inner intuition Personality being the illusion of separateness is the root cause of all selfishness and evil It has to be conquered and crushed before the lower is united with its higher counterpart Loss of mind is due to the paralysis of the higher functions in Kama Manas the physical mind and in cases of incurable insanity to the severance of the lower self from the Higher Self during a person's lifetime thus preventing the reunion of the two When one falls into a love of self and love of the world with its pleasures losing the divine love of God and of the neighbour he falls from the illusionary life and fear of death to real death The higher principles which constitute the essential elements of his humanity perish and he lives only on the natural plane of his faculties The atoms of Science are not of this earth but belong to quite a different plane And the atomic theory is on a par only with the undulatory theory of light The Ether of Space is considerably different from the medium of Science The chasm between mind and matter is impassable No theory of evolution or heredity will ever cover or explain the mystery The incessantly rolling and waving Ocean of Life of Dr Pirogov is the triply manifested Deity of the Occultists two opposing forces of spirituality and animalism eternally reacting upon each other Universal Mind and Eternal Atom The immortal Higher Ego Nous is man's true Individuality that keeps reincarnating in a new personality at every birth Dr Pirogov's purely natural idealism is a spiritual perception of eternal truths that no scientific sophistry could destroy or even blunt He esteems Truth higher than Science Physical Science calls atoms that which the Occultists regard as particles or molecules The real Atoms are the inner principles and the intelligent spiritual guides of the cells and particles they inform Man is produced in the image of God or Divine Nature Every cell in the

human organism corresponds with a like cell in the divine organism or the manifested universe The I of man or Microcosm and the Universe or Macrocosm are illusions inseparable and interdependent but illusion nevertheless The human mind or lower manas is a direct ray or reflection of a Higher Principle the Noetic Mind The latter is the reincarnating Ego which old Aryan philosophers call Manasaputras the Sons of Mind or Mahat the Universal Cosmic Mind Dr Pirogov can hardly be taken to task and declared unscientific in accepting the existence of a seven dimensional space in co ordination with the seven states of consciousness In the course of natural evolution our brain mind will be replaced by a finer and more spiritually receptive organism helped by the sixth and the seventh senses A Higher Principle may be independent of the matter it rules but only when outside of space and time God is the centre the Intellectual Principle an unmoving circle Soul a circle in motion As our mind is but the product of Universal Mind so is the latter but a differentiated ray of the Absolute Mind or No Mind a state of Perfect Unconsciousness Atom is not the smallest constituent unit of matter not even a mathematical point it is an immutable Entity a reality within an appearance the molecule being in Occult Philosophy but a figment of maya illusion It may be described as a compact or crystallized point of divine Energy and Ideation Occultism affirms that there is no such thing as inert dead or even inorganic matter Time is abstract motion in space i e force acting in space and transforming itself by this very action into substance In philosophy the term empirical is the product of experience and observation plus Science The sensing principle in us is an entity capable of acting outside as inside its material body and it is certainly independent of any organ in particular in its actions although during its incarnation it manifests itself through its physical organs Our Higher Ego is a ray of the Universal Mind individualized for the span of a cosmic life cycle during which time it gets experience through almost numberless reincarnations or rebirths before returning to its Parent Source There are two minds in man two aspects of the same divine principle the higher or true Individuality and the lower or Personality It is these two that during our lifetime are in incessant struggle the one trying to gravitate heavenward the other dragged down by its animal nature to the earth earthy Nothing that takes place no manifestation however rapid or weak can ever be lost from the skandhic records of a man s life The Universal Memory preserves every motion the slightest wave and feeling that ripples the waves of differentiated nature whether of man or of Universe The metaphysician and the theosophist will applaud almost every word Dr Pirogov says regretting only that men of such profoundly intuitional nature should be so rare among the men of science

Sometimes it's best to leave the past alone For when biographer Martin Nanther looks into the life of his famous great grandfather Henry Queen Victoria's favorite physician he discovers some rather unsettling coincidences like the fact that the doctor married the sister of his recently murdered fiancé The more Martin researches his distant relative the more fascinated and horrified he becomes Why did people have a habit of dying around his great grandfather And what did his late daughter mean when she wrote that he's done monstrous quite appalling things Barbara Vine aka Ruth Rendell deftly weaves this story of an eminent Victorian with a modern yarn about the embattled biographer who is watching the House of Lords prepare to annul membership for hereditary peers and thus strip him of his position Themes of fate and family snake throughout this teasing psychological suspense a typically chilling tale from a master of the genre *J.M. Coetzee and the Ethics of Power* Emanuela Tegli, 2016-01-12 For I was not as I liked to believe the indulgent pleasure loving opposite of the cold rigid Colonel I was the lie that Empire tells itself when times are easy he the truth that Empire tells when harsh winds blow Thus the Magistrate confesses in Coetzee's 1980 novel *Waiting for the Barbarians* The present study looks closely into the unsettling effects Coetzee's novels have on the reader and explores the interconnectedness between stylistic choices and moral insights Its overall aim is to disclose the effectiveness of Coetzee's narrative strategies to prompt the reader to engage in self-questioning and radical revisions of personal and social moral assumptions This is an original and ground-breaking study of Coetzee's work Dr Tegli's insightful close readings highlight the ways in which Coetzee fictionalizes a variety of moral dilemmas In particular she shows how he turns narrative into an instrument for moral discernment Her narratological approach advances our understanding of his achievements and I can state without reservation that this book will be referred to as a landmark in Coetzee criticism Richard Bradford Research Professor and Senior Distinguished Research Fellow University of Ulster

Monro Mora Abell, 2009 Doctor Thomas Monro 1759 1833 Physician Patron and Painter Introduction Thomas Monro art collector and doctor to the insane was a unique figure in London society of the eighteenth and early nineteenth centuries In his professional capacity as head of Bethlem Hospital Bedlam the Hospital for the Insane he was summoned to treat George the Third during his bouts of madness His private passion was painting in watercolor and amongst the artists he befriended and encouraged were J M W Turner and Thomas Girtin Monro appears to be the missing link in the change of style in watercolors that took place around the beginning of the nineteenth century Many young men who became leading artists of their day were students at the informal meeting of artists held in his house on Adelphi Terrace weekly on a Friday evening from 1774 His house became a studio turning out endless sketches and coloured drawings by young artists known as Monro School Copies They copied from drawings by Monro J R Cozens William Alexander Henry Edridge and Thomas Hearn also Monro's neighbour John Henderson had a known contemporary collection of drawings as had Monro himself which the students copied from In addition to Turner and Girtin John Linnell John Sell Cotman Peter de Wint William Henry Hunt Joshua Cristall and John Varley among others found their way to Monro's evening gatherings Monro and his friends taught them accuracy in drawing accompanying them on outdoor sketching trips teaching them to see from Nature as well as giving them the enjoyment of the company of other young artists with an opportunity to share ideas The as yet acknowledged Monro played a key role in the development of the styles of these artists The rise and establishment of watercolor painting with the standards and ideals which Monro insisted upon had much to do with the unrivaled position which the English School in Water Colours had attained by the time of his death whilst John Ruskin went so far as to say that Thomas Monro was Turner's true master So many papers are still held by family members which is why so little correct information had appeared on Thomas Monro to date With five children surviving him much has been distributed to their descendants so it is difficult to get a clear picture Included in the story is a brief description of Bedlam or the Bethlem Hospital Monro never kept a diary but his son Edward Thomas Tom did and these diaries and those of his artistic son Henry and Sally his daughter have been made available to me These form the basis for the book and are held by a member of the family Letters and descriptions many of still in private hands gave further insight

The Politics of Wounds Ana Carden-Coyne, 2014 The Politics of Wounds explores military patients experiences of frontline medical evacuation war surgery and the social world of military hospitals during the First World War The proximity of the front and the colossal numbers of wounded created greater public awareness of the impact of the war than had been seen in previous conflicts with serious political consequences Frequently referred to as our wounded the central place of the soldier in society as a symbol of the war s shifting meaning drew contradictory responses of compassion heroism and censure Wounds also stirred romantic and sexual responses This volume reveals the paradoxical situation of the increasing political demand levied on citizen soldiers concurrent with the rise in medical humanitarianism and war related charitable voluntarism The physical gestures and poignant sounds of the suffering men reached across the classes giving rise to convictions about patient rights which at times conflicted with the military s pragmatism Why then did patients represent military medicine doctors and nurses in a negative light The Politics of Wounds listens to the voices of wounded soldiers placing their personal experience of pain within the social cultural and political contexts of military medical institutions The author reveals how the wounded and disabled found culturally creative ways to express their pain negotiate power relations manage systemic tensions and enact forms of soft resistance against the societal and military expectations of masculinity when confronted by men in pain The volume concludes by considering the way the state ascribed social and economic values on the body parts of disabled soldiers through the pension system
