Herr,2016-12-15 During the eleventh and twelfth centuries A D the Mogollon Rim region of east central Arizona was a frontier situated beyond and between larger regional organizations such as Chaco Hohokam and Mimbres On this southwestern edge of the Puebloan world past settlement poses a contradiction to those who study it Population density was low and land abundant yet the region was overbuilt with great kivas a form of community level architecture Using a frontier model to evaluate household community and regional data Sarah Herr demonstrates that the archaeological patterns of the Mogollon Rim region were created by the flexible and creative behaviors of small scale agriculturalists These people lived in a land rich and labor poor environment in which expediency mobility and fluid social organization were the rule and rigid structures and normative behaviors the exception Herr s research shows that the eleventh and twelfth century inhabitants of the Mogollon Rim region were recent migrants probably from the southern portion of the Chacoan region These early settlers built houses and ceremonial structures and made ceramic vessels that resembled those of their homeland but their social and

political organization was not the same as that of their ancestors Mogollon Rim communities were shaped by the cultural backgrounds of migrants by their liminal position on the political landscape and by the unique processes associated with frontiers As migrants moved from homeland to frontier a reversal in the proportion of land to labor dramatically changed the social relations of production Herr argues that when the context of production changes in this way wealth in people becomes more valuable than material wealth and social relationships and cultural symbols such as the great kiva must be reinterpreted accordingly Beyond Chaco expands our knowledge of the prehistory of this region and contributes to our understanding of how ancestral communities were constituted in lower population areas of the agrarian Southwest **Index**

to the Reports and Collections of the Michigan Pioneer and Historical Society ,1907 *Michigan Historical Collections* ,1911 **Blind Reason** Patricia Griffon,2016-11-18 Blind Reason is the intricate tale of the most ambitious and insidious global conspiracy since the Third Reich a tangled web of insatiable greed hidden agendas rogue spies deception betrayal lost dreams and personal tragedies It begins with the Allied nations bombing of Berlin in February 1945 which destroyed the Reichsbank and the subsequent discovery of an abandoned salt mine in southern Germany where an incalculable stash of gold bullion currency and precious art and antiques has been stored for the express purpose of financing the continuation of the Nazis thousand year reign Maya Warwick is an enigmatic and reclusive author living in a mountain community outside Denver When she discovers that her best friend Thea Rousseau has committed suicide her only clue is an empty bottle of Euphorin the latest Prozac like mood brightener touted as a panacea for anxiety and depression Maya is no stranger to bad drugs slipping through the FDA approval process Ten years earlier she wrote a best selling book on another pharmaceutical that was implicated in dozens of grisly tragedies including the murder suicide of her parents Fearing that Thea s actions were a side effect of the medication Maya uses the Internet to research Euphorin and its manufacturer She discovers that FetcherBurkeWinslow is a subsidiary of VB Pharmaceuticals referred to as the poison machine of the Third Reich and that VB was the maker of the psychotropic drugs used in mind control experiments at Auschwitz She now suspects that Euphorin has a more sinister intent From there her investigation leads to various neo Nazi websites where she learns that Baron Alexander von Brandt president of VB Pharmaceuticals is the reputed leader of a burgeoning Nazi party and the son of a former Third Reich minister In her outrage Maya innocently posts her conspiracy theories on various Internet bulletin boards alleging that the Nazis are trying to wrangle the bleating herds into a planetary corral attracting the attention of a couple of CIA lurkers who have been monitoring certain websites since the 9 11 terrorist attacks She is lured into an online relationship with one of the lurkers and eventually meets the man in charge of the infamous CIA experiments known as Project MK Ultra Riggs Haywood ardently recruits Maya into Operation SHADOWHAWK a black project set up to entrap Baron von Brandt into disclosing his plans for advancing the new Nazi party More importantly Riggs wants to know how von Brandt intends to access the vast sum of money and gold that was stashed in

Credit Suisse by his father before the collapse of the Third Reich The Schweizerische Bundespolizei want to know the same thing Once recruited Maya is assigned a new name and identity and is sent to Munich to be squired to Baron von Brandt s lavish Christmas extravaganza by a nefarious CIA sleeper named Horst Freundlich It then becomes her mission to ferret out von Brandt s intentions After several meetings he discloses his vision of a future world comprised of genetically engineered people whose lives are enhanced by pharmaceuticals that induce neurochemical bliss Several attempts are made on her life before Harry Langdon one of the lurkers who helped ensnare her in this diabolical plot rescues her Both he and Maya seek asylum in Switzerland under the auspices of Swiss intelligence Most of the action takes place in Munich but also includes scenes in New York Provence Switzerland and Colorado In the end each of the characters finds the will to overcome the events that have shaped their lives and reclaim their right to find real love and personal happiness in a world that seems fraught with illusion
