*The Uncommon Vision of Sergei Konenkov, 1874-1971* Marie Turbow Lampard, John E. Bowl, Wendy R. Salmond, 2001 Sergei

Konenkov was one of this century's most distinguished Russian artists. A celebrated sculptor, he was a leading figure of the young Soviet art establishment in the early 1920s. After spending over twenty years in the United States, he returned to the Soviet Union in 1945 to become a respected member of the Soviet art world. The mentor to an entire generation of Soviet sculptors, he was renowned for his personal charisma and artistic versatility. This collection of essays, interviews, and personal reminiscences is the first appraisal of his work and life published outside of Russia. The contributors view Konenkov's work within a variety of cultural, artistic, and philosophical contexts. With particular attention to his awareness of both indigenous Russian traditions and European innovations, they trace the many stages of his artistic development as he explored and experimented with techniques borrowed from Realism, Symbolism, salon portraiture, African wood carving, Socialist Realism, and Surrealism. The many different historical sources that inspired Konenkov's artistic expression, from Orthodox Christianity and the folklore of the Russian peasantry to the Egyptian pyramids and pre-classical antiquity, are also discussed. The contributors also explore the relationship of Konenkov's life and ideology to art and the effects of expatriation on creativity. Illustrated with dozens of photographs of Konenkov's art, this study of one of the most enigmatic and fascinating artists of the modern period will accompany an exhibition at The Jane Voorhees Zimmerli Art Museum. **Psychoanalytic**

**Understanding of Violence and Suicide** Rosine Jozef Perelberg, 2005-10-18. Perelberg is well known and respected psychotherapist and is associate editor of the NLP. Very little has been written on violence as opposed to aggression, and very little clinical material has been published on violent patients. Very distinguished list of contributors. **Crime and Delinquency**, 1977. **Homicide** Bal K. Jerath, Rajinder Jerath, 2020-08-26. Homicide represents the result of an exhaustive search of the world literature regarding homicide. More than 7,000 entries have been compiled from references selected from major indexes in libraries from outstanding universities, government agencies, and military posts, science libraries, law libraries, and the Library of Congress. Each entry features a one or two word annotation that indicates whether it is an article or a book, and all entries conform to the American Psychological Association stylebook guidelines. Key word and author indexes provide quick access to works pertaining to particular subjects or by a certain author. **Homicide, a Bibliography of Over 4,500 Items** Bal K. Jerath, Paul E. Larson, Jesse F. Lewis, 1982. **Myth of Evil** Phillip Cole, 2006-06-12. A philosophical history of the concept of evil in western culture. Evil is something to be feared, and historically we shall see it is the enemy within who has been seen as representing the most intense evil of all. The enemy who looks just like us, talks like us, and is just like us. The Myth of Evil explores a contradiction: the belief that human beings cannot commit acts of pure evil, that they cannot inflict harm for its own sake, and the evidence that pure evil truly is a human capacity. Acts of horror are committed not by inhuman monsters but by ordinary human beings. This contradiction is clearest in the apparently extreme acts of war, criminals, terrorists, serial murderers, sex offenders, and children who kill. Phillip Cole delves deep into our two cosily established approaches to evil. There is the traditional approach where evil is a force which creates monsters in human shape.

And there is the enlightened perspective where evil is the consequence of the actions of misguided or mentally deranged agents Cole rejects both approaches Satan may have played a role in its evolution but evil is really a myth we have created about ourselves And to understand it fully we must acknowledge this Drawing on the philosophical ideas of Nietzsche Arendt Kant Mary Midgley and others as well as theology psychoanalysis fictional representations and contemporary political events such as the global war on terror Cole presents an account of evil that is thorough and thought provoking and which more fundamentally compels us to reassess our understanding of human nature
