## **The Death Of Meaning:**

**The Death of God and the Meaning of Life** Julian Young, 2014-05-16 What is the meaning of life In today's secular post religious scientific world this question has become a serious preoccupation But it also has a long history many major philosophers have thought deeply about it as Julian Young so vividly illustrates in this thought provoking second edition of *The Death of God and the Meaning of Life* Three new chapters explore Søren Kierkegaard's attempts to preserve a Christian answer to the question of the meaning of life Karl Marx's attempt to translate this answer into naturalistic and atheistic terms and Sigmund Freud's deep pessimism about the possibility of any version of such an answer Part 1 presents an historical overview of philosophers from Plato to Marx who have believed in a meaning of life either in some supposed other world or in the future of this world Part 2 assesses what happened when the traditional structures that give life meaning began to erode With nothing to take their place these structures gave way to the threat of nihilism to the appearance that life is meaningless Young looks at the responses to this threat in chapters on Nietzsche Heidegger Sartre Camus Foucault and Derrida Fully revised and updated throughout this highly engaging exploration of fundamental issues will captivate anyone who's ever asked themselves where life's meaning if there is one really lies It also makes a perfect historical introduction to philosophy particularly to the continental tradition

**The Death of Meaning** George V. Zito, 1993-09-21 Zito argues that although meanings change with time at the end of the 20th century we are witnessing not a change in meanings but the demise of meaning itself He presents evidence of the ever decreasing use of word language upon which meaning is predicated and the increase in iconographic impacts Macintosh and television for example the routinization of ritual the efforts to control information as during the Gulf War and the ideological competition among groups to dominate definitions of social situations by the use of oversimplified rhetorics Zito pays particular attention to language employing empirical data with classical and contemporary theoretical perspectives to argue that as the meanings of language change the relations among persons change and vice versa Recommended for scholars of sociology and language
