Geoff Pilling s work shows that Marxist theory is relevant to those struggling to understand the problems of capitalist society today and that the work not only of Marx and Engels but that of later Marxist theorists including Lenin is worth studying It also shows that to understand the problems of today s society needs more than narrow specialist economic analysis but a deep awareness of current developments in society **Routledge Library Editions: The Labour Movement**

Capitalism's Conscience Des Freedman, 2021-04-20 A lively and well researched history and critique Jonathan Steele former Chief Foreign Correspondent for the Guardian Since its inception in Manchester in 1821 as a response to the 1819 Peterloo Massacre the Guardian has been a key institution in the definition and development of liberalism The stereotype of the Guardianista an environmentally conscious Labour voting progressively minded public sector worker endures in the popular mythology of British press history Yet the title has a complex lineage and occupies an equivocal position between capital and its opponents It has both fiercely defended the need for fearless independent journalism and handed over documents to the authorities it has carved out a niche for itself in the UK media as a progressive voice but has also consistently diminished more radical projects on the left Published to coincide with its 200th anniversary *Capitalism's Conscience* brings together historians journalists and activists in an appraisal of the Guardian's contribution to British politics society and culture and its distinctive brand of centrism Contextualising some of the main controversies in which the title has been implicated the book offers timely insights into the publication's history loyalties and political values

Fictions of State Patrick Brantlinger, 2019-06-30 In this ambitious book Patrick Brantlinger offers a cultural history of Great Britain focused on the concept of public credit from the 1694 founding of the Bank of England to the present He draws on literary texts ranging from Augustan satire such as *Gulliver's Travels* to postmodern satire such as Martin Amis's *Money* A Suicide Note All critique the misrecognition of public credit as wealth The economic foundations of modern nation states involved national debt public credit and paper money Brantlinger traces the emergence of modern imperial Great Britain from those foundations He analyzes the process whereby nationalism both the cause and the result of wars and

imperial expansion multiplied national debt and produced crises of public credit resolved only through more nationalism and war During the first half of the eighteenth century conservatives attacked public credit as fetishistic and characterized national debt as alchemical From the 1850s the stabilizing theories of public credit authored by David Hume Adam Smith Henry Thornton and others helped initiate the first social science economics In the nineteenth century literary criticism both paralleled and questioned early capitalist discourse on public credit and nationalism while the Victorian novel refigured debt as the individual private credit and debt During the era of high modernism and Keynesian economics the notion of high culture as genuine value recast the debate over money and national indebtedness Brantlinger relates this cultural historical trajectory to Marxist poststructuralist and postcolonial theories about the decline of the European empires after World War II the global debt crisis and the weakening of western nation states in the postmodern era
