Congress,1996 **Failure of the State** Lene Guercke,2025-03-29 This Open Access book explores an issue that has received little attention in human rights research organised criminal groups OCGs as perpetrators of human rights violations especially disappearances It takes an interdisciplinary approach combining doctrinal legal research with a qualitative study on present day disappearances in Mexico Disappearances are a complex human rights violation that impacts not only the disappeared person but also their relatives who are left in a limbo of uncertainty about their loved one s fate Originally part of state led repression today disappearances occur in varied contexts often involving OCGs and other non state actors However disappearances committed by non state actors are not human rights violations under International Human Rights Law IHRL thereby potentially leaving a gap in the legal protection of victims The book first analyses state obligations and case law involving state responsibility for human rights violations committed by non state actors and applies the analysis to OCGs This internal legal perspective is complemented by an external study based on interviews with human rights practitioners working on disappearances in Mexico which often involve OCGs The qualitative study offers a unique perspective on human rights protection in reality The book adds to scholarship on non state actors and disappearances and to incipient international legal scholarship on the issue of organised crime and international law Moreover the study on Mexico provides a richer understanding of challenges faced by practitioners on the ground where OCGs commit human rights violations alongside or in collusion with state forces and against the backdrop of an overall failure of the state The book may be of interest to a diverse audience including legal scholars and practitioners human rights scholars in fields such as political science international relations or socio legal studies as well as funders supporting the work of NGOs in Mexico and similar contexts and NGOs themselves **The Treatment of War Wounds in Graeco-Roman Antiquity** Christine Salazar,2018-07-17 In this investigation of the treatment of battle trauma in antiquity treatment is used in a double sense both as actual medical treatment and literary treatment in non medical sources Part I deals with the practical medical aspects of the topic the types of wounds likely to result from a battle their surgical and pharmacological treatment the question of medical services in ancient armies medical terminology and the availability of medical knowledge Part II discusses the use of scenes of wounding and wound treatment in literature and Part III is a survey of the archaeological evidence This is the first monograph to examine the topic in all its different aspects it should be of interest to classicists medical historians and military historians Terrorism and Public Safety Policing James F.
