## **The Degrees Of Knowledge The Collected Works Of Jacques Maritain:**

**Distinguish to Unite, Or, The Degrees of Knowledge** Jacques Maritain, 1995 Maritain argues that there are different kinds and orders of knowledge and within them different degrees determined by the nature of the thing to be known and the degree of abstraction involved The book is divided into two parts Part one discusses the degrees of knowledge for science and philosophy or rational knowledge and part two discusses the degrees of knowledge for religious faith and mysticism or super rational knowledge Degrees of Knowledge Jacques Maritain, 1998 The First American edition of a British best seller In The Principle of Duty Degrees of Knowledge Jacques Maritain, 2020-10-31 Jacques Maritain s masterpiece proposes a hierarchy of forms of knowledge that culminate in mystical experience and wisdom which is a gift of the Holy Ghost Maritain argues that the intellectual life is meant to be complemented by the spiritual life and should culminate in sanctity *Jacques Maritain and the Many Ways of Knowing* Douglas A. Ollivant, 2002 Drawing on the writings of Jacques Maritain and by extension those of Thomas Aquinas the essays in this volume examine the effects of theories of knowledge on individuals culture and entire schools of philosophical thought The contributors challenge contemporary epistemologies which are largely based on writings of Descartes Locke and Kant They critique these theories internally and demonstrate their incompatibility with other goods such as liberty human dignity and access to the transcendent In stark contrast to modernity s dubious and fragmented opinions and belief systems Maritain in works like *The Degrees of Knowledge* and *Creative Intuition in Art and Poetry* proposed a theory of knowledge that permits real if limited knowledge of substances wholes Some contributors use these works as a springboard from which to examine aspects or applications of knowledge that Maritain left unexplored Others challenge or question aspects of Maritain s analysis seeking to improve upon his work Still others compare Maritain with other neo Thomistic philosophers most notably Etienne Gilson Alasdair MacIntyre and Pope John Paul II Maritain s works on human knowledge and the implicit critique of modernity contained within provide an alternative for those seeking to engage the various deficiencies of the culture of death These essays demonstrate the continuing relevance and timeliness of Maritain s thought Douglas A Ollivant is assistant professor of politics at the United States Military Academy Contributors George Anastaplo James Arraj Joseph M de Torre Robert Delfino Raymond Dennehy John M Dunaway Robert Fallon Desmond FitzGerald William J Fossati W Matthews Grant Catherine Green James G Hanink Gregory J Kerr John F X Knasas John F Morris Ralph Nelson Douglas A Ollivant Matthew S Pugh Steven J Schloeder Christopher H Toner John G Trapani Jr Henk E S Woldring and Thomas F Woods This is a valuable collection of articles on an important individual who is still influencing contemporary political thought Lucien J Richard OMI Catholic Library World Jacques Maritain John Howard Griffin, Yves René Marie Simon, Yves R. Simon, 1974 *Self-Portrait In Letters, 1916-1942 (The Collected Works of Edith Stein, vol. 5)* Edith Stein, 2016-08-09 Edith Stein comes alive through these warm totally attentive letters She joins a deeply sensitive heart with her keen intelligence revealing herself to be a wise mentor and a caring friend available to

anyone who approached her Here we learn what was truly important to her the total well being of those who treasured her letters enough to preserve them even while suffering the havoc of war and oppression This volume offers the first English translation of the majority of her surviving letters with 4 photos and a fully linked index of recipients The Christian Philosophy of Jacques Maritain Jason L. A. West, 2025-02-28 A study of the Christian philosophy of Jacques Maritain 1882 1973 an influential creative and prolific writer He was widely recognized as one of the most prominent Catholic intellectuals during his own lifetime and was widely seen as a spokesman for the Thomistic revival This study aims to present Maritain's thought as a dynamic and coherent philosophy in its own right This is the only book in English to present Maritain's philosophy on the full range of topics upon which he wrote It focusses on Maritain as a twentieth century philosopher rather than an interpreter of Aquinas Accordingly this book presents Maritain's philosophy in its own context Finally this work is also attentive to the religious context of Maritain's philosophy and highlights his overlooked contributions to theology and other areas of philosophy that are informed by his theological commitments e g mysticism ecclesiology education and philosophy of history Accordingly The Christian Philosophy of Jacques Maritain aims at providing the reader with a comprehensive presentation of Maritain's thought and a clear vision of his philosophy as a whole

**On the Origin of Consciousness** Scott D. G. Ventureyra, 2018-11-29 Have you ever thought about how self consciousness self awareness originated in the universe Understanding consciousness is one of the toughest nuts to crack In recent years scientists and philosophers have attempted to provide an answer to this mystery The reason for this is simply because it cannot be confined to solely a materialistic interpretation of the world Some scientific materialists have suggested that consciousness is merely an illusion in order to insulate their worldviews Yet consciousness is the most fundamental thing we know even more so than the external world since we require it to perceive or think about anything Without it reasoning would be impossible Dr Scott Ventureyra in this ground breaking book explores the idea of the Christian God and Creation in order to tackle this most difficult question He demonstrates that theology has something significant to offer in reflection of how consciousness originated in the universe He also makes a modest claim that the Christian conception of God and Creation provide a plausible account for the origin of self consciousness He integrates philosophy theology and science in an innovative way to embark on this exploration

oneself She writes from the understanding that the human person is radically free to become the choices she or he makes and freedom is the capacity for definitive self realization In the book she shows that in the exercising of freedom humans precisely as historical beings are also transcendent beings Jennifer grapples with the perception that since human self realization involves the power to make decisions which in reality actualizes a persons own reality how then does this self realization come about and where does the Divine fit into the process If self realization is related to the human self and to the Divine Self she then questions what constitutes the self and self realization This struggle practically employs the woman in general and in particular the woman consecrated to a vowed life The pervasive question throughout is What constitutes the self realization of a human woman being

**Aquinas on Virtue** Nicholas Austin, 2017-09-18 *Aquinas on Virtue* A Causal Reading is an original interpretation of one of the most compelling accounts of virtue in the Western tradition that of the great theologian and philosopher Thomas Aquinas 1224-1274 Taking as its starting point Aquinas's neglected definition of virtue in terms of its causes this book offers a systematic analysis of Aquinas on the nature genesis and role of virtue in human life Drawing on connections and contrasts between Aquinas and contemporary treatments of virtue Austin argues that Aquinas's causal virtue theory retains its normative power today As well as providing a synoptic account of Aquinas on virtue the book includes an extended treatment of the cardinal virtue of temperance an argument for the superiority of Aquinas's concept of

habit over modern psychological accounts and a rethinking of the relation between grace and virtue With an approach that is distinctively theological yet strongly conversant with philosophy this study will offer specialists a bold new interpretation of Aquinas's virtue theory while giving students a systematic introduction with suggested readings from his *Summa Theologiae* and *On the Virtues* **Faith and Reason** Nigel Zimmermann, Sandra Lynch, 2021-10-12 What is the fruit of a searching dialogue between faith and reason This book collects theological and philosophical perspectives on the richness of the faith reason dialogue including examples from literature continental and analytic philosophy worship and liturgy and radical approaches to issues of racism and prejudice The authors strongly resist the temptations to either disregard the faith reason dialogue or take it for granted Through their explorations and reflections they open up new vistas and horizons on a topic more necessary than ever **Integral Education** Sean Esbjörn-Hargens, Jonathan Reams, Olen Gunnlaugson, 2010-08-01 The educational challenges being faced today are driving us toward a new step in the evolution of educational theory and practice Educators are called to go beyond simply presenting alternatives to integrating the best of mainstream and alternative approaches and taking them to the next level Integral Education accomplishes this by bringing together leading researchers and practitioners from higher education who are actively exploring the frontiers of education from an integral perspective It presents an overview of the emerging landscape of integral education from a variety of theoretical and applied perspectives Key characteristics of integral education include exploring multiple perspectives employing different pedagogical techniques e g reflective dialogical empirical combining conceptual rigor with embodied experience drawing on developmental psychology and cultivating a reflective and transformative space for students and teachers alike Integral Education provides the most comprehensive synopsis of this exciting new approach and serves as a valuable resource for any integral effort within education **Personalist Anthropology: A philosophical guide to life** Juan Manuel Burgos, 2022-04-05 Philosophical personalism has generated a very powerful field of study in the twentieth and twenty first centuries but has not produced a systematic exposition This book fills this big gap by offering for the first time a full systematic personalistic vision of the human person This ambitious volume offers a pedagogical and integrated exposition of philosophical personalism answering vital questions about human identity and existence in a way that the reader or student can achieve an integrated view of the person The book points to the real life of each person so that by partially unraveling the mystery of the personal being it becomes a philosophical guide for life For these reasons the book can be used both for academic purposes as a manual of philosophy of man or for personal enlightenment Divided in five parts the first part of the book works as an introduction offering an overview of the human person and of the notion of person The second part describes the internal structure of the human being addressing topics as corporeity as a personal fact sensibility and the senses affectivity intelligence freedom understood as choice and self determination and finally the personal self The third part analyses the person in action and some special types of action such as work and language The fourth part deals with interpersonal

relationships beginning with I You relationship friendship love and following with the family and the social structure Finally part five deals with the so called ultimate questions that is those that decide the final meaning of each person s life namely time death immortality and religion
