Stuart* Johann JAHN,1840 **Womb Politics: A Short History of the Future of Human Reproduction** Frida Simonstein,2022-10-15 This book offers a vision of politics that govern the womb from antiquity be fertile and replenish the earth through the ages hysterectomy to extirpate women s hysteria up to the present time abortion wars assisted reproduction and into the future reprognetics the artificial womb It explores how the womb has served humanity either tacitly or explicitly through the ages and examines how women have accepted and still perceive the rules created by men as natural including the new anti abortion laws in the USA because that is the way things are The book also explores how the emerging of assisted reproduction technologies and novel genetic tools reprognetics will pose additional challenges to womb bearers as all women will be made to reproduce with IVF What is more the advent of the artificial womb is in sight the gender and social implications of this development would be enormous Certainly not just another organ the womb has been and remains a powerful tool that cannot be left to the decisions of half of the population This book engages a wide audience including women and men professionals and laypersons who are interested in gender politics legislation women s health and ethics The Dial Francis Fisher Browne,Waldo Ralph Browne,Scofield Thayer,Marianne Moore,1911 *Marginalized Reproduction* Lorraine Culley,Nicky Hudson,Floor van

Rooij,2012-05-16 Worldwide over 75 million people are involuntarily childless a devastating experience for many with significant consequences for the social and psychological well being of women in particular Despite greater levels of infertility and strong cultural meanings attached to having children little attention has been paid politically or academically to the needs of minority ethnic women and men This groundbreaking volume is the first to highlight the ways in which diverse ethnic cultural and religious identities impact upon understandings of technological solutions for infertility and associated treatment experiences within Western societies It offers a corrective to the dominance of the narratives of hegemonic groups in infertility research The collection begins with a discussion of fertility prevalence and access to treatment for minorities in the West and considers some of the key methodological challenges for social research on ethnicity and infertility Drawing on primary research from the US the UK Eire Germany the Netherlands and Australia the book then turns the spotlight onto the ways in which minority status and cultural and religious mores might impact on the experience of infertility and assisted reproductive technologies It argues that more equitable access to culturally competent assisted conception services should be an essential component of a transformatory politics of infertility Myth and History: Close Encounters Menelaos Christopoulos,Athina Papachrysostomou,Andreas P. Antonopoulos,2022-06-06 The fluidity of myth and history in antiquity and the ensuing rapidity with which these notions infiltrated and cross fertilized one another has repeatedly attracted the scholarly interest The understanding of myth as a phenomenon imbued with social and historical nuances allows for more than one methodological approaches Within the wider context of interdisciplinary exchange of ideas the present volume returns to origins as it traces and registers the association and interaction between myth and history in various literary genres in Greek and Roman antiquity i e an era when the scientific definitions of and distinctions between myth and history had not yet been perceived as such let alone fully shaped and implemented providing original ideas new interpretations and re evaluations of key texts and less well known passages close readings and catholic overviews The twenty four chapters of this volume expand from Greek epos to lyric poetry historiography dramatic poetry and even beyond to genres of Roman era and late antiquity It is the editors hope that this volume will appeal to students and academic researchers in the areas of classics social and political history archaeology and even social anthropology History of Plant Breeding Rolf H. J. Schlegel,2017-12-15 While there has been great progress in the development of plant breeding over the last decade the selection of suitable plants for human consumption began over 13 000 years ago Since the Neolithic era the cultivation of plants has progressed in Asia Minor Asia Europe and ancient America each specific to the locally wild plants as well as the ecological and social conditions A handy reference for knowing our past understanding the present and creating the future this book provides a comprehensive treatment of the development of crop improvement methods over the centuries It features an extensive historical treatment of development including influential individuals in the field plant cultivation in various regions techniques used in the Old World and cropping in ancient America The advances of scientific

plant breeding in the twentieth century is extensively explored including efficient selection methods hybrid breeding induced polyploidy mutation research biotechnology and genetic manipulation Finally this book presents information on approaches to the sustainability of breeding and to cope with climatic changes as well as the growing world population **The History of Mankind** Friedrich Ratzel, 1896
