White, 2023-01-13 The Study of Lives reveals for the first time the extent of Henry A Murray's considerable influence on the study of personality Throughout his long and distinguished career he has either trained or strongly influenced some of the world's leading psychologists eighteen of whom have written fascinating essays for this book The range of topics presented here is as diverse and highly original as Murray's own ideas about personality Everyone concerned with the study of personality will find this book an excellent sampling of the best work being done in the field The study of lives is a phrase Henry A Murray has often used to describe his own work and it suggests his central conviction that living beings must be studied as living wholes Personality he has repeatedly pointed out is a dynamic process a constantly changing configuration of thoughts feelings and actions occurring in a social environment and continuing throughout life If small parts and short segments of human affairs have to be isolated for detailed scrutiny they must still be understood as parts of a patterned organic system and as segments of a lifelong process This has never meant for him that all research should take the form of collecting life histories although his contributions along this line have been outstanding It implies simply that isolating fragmenting and learning just a tiny bit about a lot of people tend to carry us away from what is most worth studying The essays in this book are grouped under headings that represent some of Murray's strongest interests His conception of personality as a dynamic process is reflected in Part I which deals with continuities and changes in the course of life His interest in devising procedures suitable for disclosing live feelings fantasies and adaptations and his insistence on the necessity for an adequate taxonomy of carefully discriminated carefully defined variables are represented in the papers of Part II His view that creativity is a central property of human nature has contributed to the

reflections and researches that make up Part III Finally his concern with values the great blind spot of traditional science but so obviously a momentous problem for contemporary lives and societies has been taken up in several different ways by the authors of Part IV *The Routledge Research Companion to Popular Romance Fiction* Jayashree Kamblé, Eric Murphy Selinger, Hsu-Ming Teo, 2020-08-11 Popular romance fiction constitutes the largest segment of the global book market Bringing together an international group of scholars *The Routledge Research Companion to Popular Romance Fiction* offers a ground breaking exploration of this global genre and its remarkable readership In recognition of the diversity of the form the Companion provides a history of the genre an overview of disciplinary approaches to studying romance fiction and critical analyses of important subgenres themes and topics It also highlights new and understudied avenues of inquiry for future research in this vibrant and still emerging field The first systematic comprehensive resource on romance fiction this Companion will be invaluable to students and scholars and accessible to romance readers *The Musical World* ,1841
