The Dhahr Mirzbaneh Tombs

Thomas L. Thompson

The Dhahr Mirzbaneh Tombs:

Death and Burial within the Ancient Levant (4500-550 BCE) Jennie Bradbury, 2025-03-28 This book offers a comprehensive survey of burial practices in the ancient Levant and challenges some of the assumptions behind previous attempts to find a normative burial practice Exploring the dazzling variety of ways in which the living deal with the dead this book utilises big data projects and legacy data to highlight the sheer diversity of burial practices in the ancient Levant Theorizing that some types of burial are significantly underrepresented this volume argues for the necessity of analysing both the existing and non existing data at multiple scales of analysis Thus rather than attempting to identify a normative or typical burial the volume highlights the multitude of ways in which the living approached and interacted with the dead across the ancient Levant from the Late Chalcolithic to the Iron Age fifth to first millennia BCE In doing so it acknowledges and foregrounds variability not only in terms of so called atypicality but also in terms of burials and practices that have been mistakenly lumped together in the drive to produce narratives of similarity and normative behaviour This volume also explores some of the broader patterns and temporal spatial shifts that shed light on wider changes in the ways in which humans perceived of the dead and themselves the living over time While predominantly focused on the modern regions of Israel Jordan Lebanon Palestine and Syria this book also engages with these broader themes across Western Asia and the Mediterranean adopting an interdisciplinary and cross cultural approach to understanding temporal and spatial variability This book is of relevance for students and researchers of Ancient Western Asia as well as those of the archaeology of death and burial

The Amorite Dynasty of Ugarit Mary E. Buck, 2019-09-16 In *The Amorite Dynasty of Ugarit* Mary Buck takes a new approach to the field of Amorite studies by considering whether the site of Ugarit shares close parallels with other sites and cultures known from the Bronze Age Levant When viewed in conjunction the archaeological and linguistic material uncovered in this study serves to enhance our understanding of the historical complexity and diversity of the Middle Bronze Age period of international relations at the site of Ugarit With a deft hand Dr Buck pursues a nuanced view of populations in the Bronze Age Levant with the objective of understanding the ancient polity of Ugarit as a kin based culture that shares close ties with the Amorite populations of the Levant The author covers a contentious area of scholarship with confidence and competence and has produced a convincing case for the Amorite origins of Bronze Age Ugarit Nick Wyatt *Journal for the Study of the Old Testament* 44 5 2020 The *Studies in the Archaeology and History of the Levant* series publishes volumes from the Harvard Museum of the Ancient Near East Other series offered by Brill that publish volumes from the Museum include Harvard Semitic Studies and Harvard Semitic Monographs <https://hmane.harvard.edu/publications>
