**Sir Edward Grey** Keith Robbins,1971      **Grey of Fallodon** George Macaulay Trevelyan,1937      Grey of Fallodon, Being the Life of Sir Edward Grey George Macaulay Trevelyan,1937      **Statesman of Europe** T. G. Otte,2020-11-26 The lamps are going out all over Europe We shall not see them lit again in our life time The words of Sir Edward Grey looking out from the windows of the Foreign Office at the end of August 1914 are amongst the most famous in European history and encapsulate the impending end of the nineteenth century world The man who spoke them was Britain s longest ever serving Foreign Secretary in a single span of office and one of the great figures of late Victorian and Edwardian Britain Statesman of Europe describes the three decades before the First World War through the prism of his biography which is based almost entirely on archival sources and presents a detailed account of the main domestic and international events and of the main personalities of the era In particular it presents a fresh understanding of the approach to war in the years and months before its outbreak and Grey s role in the unfolding of events Yet Grey s life was not all public affairs momentous as those were He disliked being in London much preferring country life at Fallodon his family estate in Northumberland and displayed none of the ambition of his contemporaries or successors He attended assiduously to his duties as director of the Great North Eastern Railway one of the transformative enterprises in industry and communications of the period and wanted to spend as much time as he could fishing Apart from his memoirs the only book he wrote was called The Charm of Birds This hinterland gave quality to his judgements and made his character attractive to his contemporaries This important book is the definitive biography of one of the pivotal figures in European diplomacy and a magnificent portrait of an age      A Bibliography of British History, 1914-1989 Keith Robbins,American Historical Association,Royal Historical Society (Great Britain),1996 Containing over 25 000 entries this unique volume will be absolutely indispensable for all those with an interest in Britain in the twentieth century Accessibly arranged by theme with helpful introductions to each chapter a huge range of topics is covered There is a comprehensive index      **Britain and the Iranian Constitutional Revolution of 1906-1911** Mansour Bonakdarian,2006-06-30 In this thoroughly researched account Mansour Bonakdarian provides an in depth exploration of the substantial British support for the Iranian constitutional and national struggle of 1906 1911 illuminating the opposition in Britain to Anglo Russian imperialist intervention in Iran In painstaking and compelling detail Bonakdarian analyzes in particular the role of the Persia Committee a lobbying group founded in 1908 for the sole purpose of changing Britain s policy toward Iran This book s strength lies in its coverage of how Sir Edward Grey s policy toward Iran was shaped and the extent to which this policy was affected by sustained criticism from a number of disparate groups including dissenters radicals socialists liberal imperialists and conservatives The volume and breadth of primary archival materials used is extensive Not only have all the standard collections been examined such as the Foreign Office files and the Cabinet and Grey papers but also numerous private archives in international libraries have been consulted Bonakdarian s deep understanding

of the Iranian issues yields a rich and balanced approach to the literature in the field With clear and systematic arguments he offers an account of diplomatic history that is accessible and persuasive His scholarship is certain to reinvigorate dialogue on the subject of Anglo Iranian relations *Encyclopedia of the Age of Imperialism, 1800-1914* Carl C. Hodge,2007-11-30 In 1800 Europeans governed about one third of the world s land surface by the start of World War I in 1914 Europeans had imposed some form of political or economic ascendancy on over 80 percent of the globe The basic structure of global and European politics in the twentieth century was fashioned in the previous century out of the clash of competing imperial interests and the effects both beneficial and harmful of the imperial powers on the societies they dominated This encyclopedia offers current detailed information on the major world powers and their global empires as well as on the people events ideas and movements both European and non European that shaped the Age of Imperialism **Grey of Fallodon** George Macaulay 1876-1962 Trevelyan,2021-09-09 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public To ensure a quality reading experience this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy to read typeface We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant *The Anglo-Japanese Alliance, 1902-1922* Phillips O'Brien,2003-12-25 This book brings together many leading experts who examine the different aspects of the Alliance in its different stages before during and after the First World War who explore the reasons for its success and for its end *Anglo-French Relations in the Twentieth Century* Alan Sharp,Glyn Stone,Professor Glyn A Stone,2002-03-11 Anglo French Relations in the Twentieth Century is a collection of studies on the key episodes of the difficult and often discordant Anglo French exchange over the past century The authors critically re evaluate the role of Spain in Anglo French relations up to 1918 the missed opportunity of the 1920s with the failure of France and Britain to find sufficient common ground and co operation the short lived Anglo French alliance and the Second World War the degree of Anglo French Imperial co operation the Suez Crisis British and French policies on European Integration *Colonel House and Sir Edward Grey* Joyce G. Williams,1984-11-20 Describes the personal and political partnership between Woodrow Wilson and his closest friend Colonel Edward M House Demonstrates that House exerted an enormous influence on the President and his foreign policy from 1913 1916 The author illustrates this influence by examining the intriguing House Grey Memorandum with British Foreign Secretary Sir Edward Grey which promised U S entry into World War I on the side of the Allies a year before America was forced into the conflict by German military and diplomatic moves **Conquer We Must** Robin Prior,2022-01-01 A major new account of Britain s military

strategy between 1914 1945 including the two world wars and everything between The First and Second World Wars were separated by a mere two decades making the period 1914 1945 an unprecedentedly intense and violent era of history But how did Britain develop its complex military strategy during these wars and how were decisions made by those at the top Robin Prior examines the influence politicians had on military operations in the first history to assess both world wars together Drawing uniquely on both military and political archives and previously unexamined sources Prior explores the fraught relationships between civilian and military leaders from Lloyd George s remarkably interventionist stance on military tactics during the First World War to Churchill s near constant arguments with American leaders during the Second Conquer We Must tells the complex story of this military decision making revealing how politicians attempted to control strategy but had little influence on how the army navy and air force actually fought

### **The Political Economy of Grand Strategy**

Kevin Narizny,2007 A nation s grand strategy rarely serves the best interests of all its citizens Instead every strategic choice benefits some domestic groups at the expense of others When groups with different interests separate into opposing coalitions societal debates over foreign policy become polarized along party lines Parties then select leaders who share the priorities of their principal electoral and financial backers As a result the overarching goals and guiding principles of grand strategy as formulated at the highest levels of government derive from domestic coalitional interests In The Political Economy of Grand Strategy Kevin Narizny develops these insights into a comprehensive theoretical framework for understanding the dynamics of security policy The focus of this analysis is the puzzle of partisanship The conventional view of grand strategy in which state leaders act as neutral arbiters of the national interest cannot explain why political turnover in the executive office often leads to dramatic shifts in state behavior Narizny in contrast shows how domestic politics structured foreign policymaking in the United States and Great Britain from 1865 to 1941 In so doing he sheds light on long standing debates over the revival of British imperialism the rise of American expansionism the creation of the League of Nations American isolationism in the interwar period British appeasement in the 1930s and both countries decisions to enter World War I and World War II

**Religion, Identity and Conflict in Britain: From the Restoration to the Twentieth Century** Frances Knight,2016-04-08 The British state between the mid seventeenth century to the early twentieth century was essentially a Christian state Christianity permeated society defining the rites of passage baptism first communion marriage and burial that shaped individual lives providing a sense of continuity between past present and future generations and informing social institutions and voluntary associations Yet this religious conception of state and society was also the source of conflict The Restoration of the monarchy in 1660 brought limited toleration for Protestant Dissenters who felt unable to worship in the established Church and there were challenges to faith raised by biblical and historical scholarship science moral questioning and social dislocations and unrest This book brings together a distinguished team of authors who explore the interactions of religion politics and culture that shaped and defined modern Britain They consider expressions of

civic consciousness in the expanding towns and cities the growth of Welsh national identity movements for popular education and temperance reform and the influence of organised sport popular journalism and historical writing in defining national life Most importantly the contributors highlight the vital role of religious faith and religious institutions in the understanding of the modern British state *Mosley and British Politics 1918-32* D. Howell, 2014-10-21 Oswald Mosley has been reviled as a fascist and lamented as the lost leader of both Conservative and Labour Parties Concerned to articulate the demands of the war generation and to pursue an agenda for economic and political modernization his ultimate rejection of existing institutions and practices led him to fascism *Culture, Thought and Belief in British Political Life Since 1800* Paul Readman, Geraint Thomas, 2024-10-15 Brings together agenda setting essays that illuminate the complex relationship between ideas and political activity in modern British history Ideas matter in modern British political life culture thought and belief are integral to the fabric of politics high and low foreign and domestic They are woven into the day to day business of debate policy and decision making This book shows how and why they have mattered so much Inspired by the work of Jonathan Parry it explores the cultural and intellectual influences on politics both formal and informal since the turn of the nineteenth century Featuring original interventions by some of the world's leading historians the essays in the volume are organised around themes of central relevance to the understanding of modern British political history They explore a wide range of subjects across political life and its intellectual and cultural hinterlands including constitutionalism and international political thought anticolonial activism race and imperial commemoration female political thinkers parliament monarchy and the law the politics of religion and patriotism and national identity This is an agenda setting text that will be essential reading for anyone wishing to understand the complex relationship between ideas and political activity in modern British history Paul Readman is Professor of Modern British History at King's College London Dr Geraint Thomas is Fellow and Director of Studies in History at Peterhouse University of Cambridge Contributors Michael Bentley John Bew Paul Bew David Cannadine Matthew Cragoe Tom Crewe Ben Griffin Boyd Hilton Michael Ledger Lomas Joanna Lewis Helen McCarthy Alex Middleton Susan D Pennybacker Kathryn Rix James Thompson Philip Williamson

**The Liberal Unionist Party** Ian Cawood, 2012-08-14 The Liberal Unionist party was one of the shortest lived political parties in British history It was formed in 1886 by a faction of the Liberal party led by Lord Hartington which opposed Irish home rule In 1895 it entered into a coalition government with the Conservative party and in 1912 now under the leadership of Joseph Chamberlain it amalgamated with the Conservatives Ian Cawood here uses previously unpublished archival material to provide the first complete study of the Liberal Unionist party He argues that the party was a genuinely successful political movement with widespread activist and popular support which resulted in the development of an authentic Liberal Unionist culture across Britain in the mid 1890s The issues which this book explores are central to an understanding of the development of the twentieth century Conservative party the emergence of a national political culture and the problems both organisational and

ideological of a sustained period of coalition in the British parliamentary system      *Britain and the Origins of the First World War* Zara S. Steiner, Keith Neilson, 2017-04-25 How and why did Britain become involved in the First World War Taking into account the scholarship of the last twenty five years this second edition of Zara S Steiner s classic study thoroughly revised with Keith Neilson explores a subject which is as highly contentious as ever While retaining the basic argument that Britain went to war in 1914 not as a result of internal pressures but as a response to external events Steiner and Neilson reject recent arguments that Britain became involved because of fears of an invented German menace or to defend her Empire Instead placing greater emphasis than before on the role of Russia the authors convincingly argue that Britain entered the war in order to preserve the European balance of power and the nation s favourable position within it Lucid and comprehensive *Britain and the Origins of the First World War* brings together the bureaucratic diplomatic economic strategical and ideological factors that led to Britain s entry into the Great War and remains the most complete survey of the pre war situation      *The Origins of World War I* Richard F. Hamilton, Holger H. Herwig, 2003-02-24 This work poses a straightforward yet at the same time perplexing question about World War I Why did it happen Several of the oft cited causes are reviewed and discussed The argument of the alliance systems is inadequate lacking relevance or compelling force The arguments of mass demands those focusing on nationalism militarism and social Darwinism it is argued are insufficient lacking indications of frequency intensity and process how they influenced the various decisions The work focuses on decision making on the choices made by small coterie in Austria Hungary Germany Russia France Britain and elsewhere The decisions made later by leaders in Japan the Ottoman Empire Italy the Balkans and the United States are also explored The final chapters review the basic causes once again An alternative position is advanced one focused on elites and coterie their backgrounds and training and on their unique agendas      ***The Unknown Lloyd George*** Travis L. Crosby, 2014-01-24 David Lloyd George is widely regarded as one of the most effective British prime ministers of the twentieth century A dynamic speaker and committed social reformer he led Britain successfully through the devastation of World War I and had a powerful impact on international politics In the post war peace treaties he sought a just rather than a vengeful settlement for the defeated powers in an attempt to preserve a peaceful international order Whilst Lloyd George s achievements were undoubtedly substantial his political record was not entirely without blemish and in his personal life he was a fascinating and complex character Renowned as a womaniser after 1913 he retained two separate households one with his wife and one with his mistress his former private secretary Based on extensive research Travis L Crosby provides a fresh appraisal of the life of one of Britain s most conflicted politicians
