utilised by many Caribbean authors to represent the linguistic multiplicity of Caribbean cultures Switching between different languages is a natural part of communication in Caribbean communities Consequently issues of language and cultural representation have become an integral part of the Caribbean literary tradition This study is located at an intersection between the notion of intercultural translation employed in Postcolonial Studies and the notion of interlingual translation that is at the centre of Translation Studies examining both the original novels and their Finnish translations as forms of translation The book maps the strategies used by the Finnish translators of these heterolingual texts comparing them to the strategies used by the authors in the representation of Caribbean language and culture in the original literary works Through textual analysis of works spanning five decades of translated Anglophone Caribbean fiction in Finnish as well as translator interviews the book sheds light on some of the central issues related to cultural representation in the translation of heterolingual literary works

Hinduism Axel Michaels, 2021-08-10 Hinduism is currently followed by one fifth of humankind Far from a monolithic theistic tradition the religion comprises thousands of gods a complex caste system and hundreds of languages and dialects Such internal plurality inspires vastly ranging rites and practices amongst Hinduism s hundreds of millions of adherents It is therefore not surprising that scholars have been hesitant to define universal Hindu beliefs and practices In this book Axel Michaels breaks this trend He examines the traditions beliefs and rituals Hindus hold in common through the lens of what he deems its identificatory habitus a cohesive force that binds Hindu religions together and fortifies them against foreign influences Thus in his analysis Michaels not only locates Hinduism s profoundly differentiating qualities but also provides the framework for an analysis of its social and religious coherence Michaels blends his insightful arguments and probing questions with introductions to major historical epochs ample textual sources as well as detailed analyses of major life cycle rituals the caste system forms of spiritualism devotionism ritualism and heroism Along the way he points out that Hinduism has endured and repeatedly resisted the missionary zeal and universalist claims of Christians Muslims and Buddhists He also contrasts traditional Hinduism with the religions of the West where the self is preferred to the not self and where freedom in the world is more important than liberation from the world Engaging and accessible this book will appeal to laypersons and scholars alike as the most comprehensive introduction to Hinduism yet published Not only is Hinduism refreshingly new in its methodological approach but it also presents a broad range of meticulous scholarship in a clear readable style integrating Indology religious studies philosophy anthropological theory and fieldwork and sweeping analyses of Hindu texts
