The Future as if People  
Really Mattered

JOHN PAPWORTH

# Small Is Powerful The Future As If People Really Mattered

**Guillaume Favre**

### **Small Is Powerful The Future As If People Really Mattered:**

*The Capitalism Papers* Jerry Mander, 2013-05-01 In the vein of his bestseller *Four Arguments for the Elimination of Television* nationally recognized social critic Jerry Mander researches discusses and exposes the momentous and unsolvable environmental and social problem of capitalism Mander argues that capitalism is no longer a viable system What may have worked in 1900 is calamitous in 2010 Capitalism utterly dependent on never ending economic growth is an impossible absurdity on a finite planet with limited resources Climate change together with global food water and resource shortages are only the start Mander draws attention to capitalism's obsessive need to dominate and undermine democracy as well as to diminish social and economic equity Designed to operate free of morality the system promotes permanent war as a key economic strategy Worst of all the problems of capitalism are intrinsic to the form Many organizations are already anticipating the breakdown of the system and are working to define new hierarchies of democratic values that respect the carrying capacities of the planet

**Small is Powerful** John Papworth, 1995-10-24 The author has found the true villain of the 20th century and it is a concept bigness The answer to such disparate questions as why do we experience global wars mass dictatorships economic tornadoes a population explosion and a mounting resource environment crisis lie according to Papworth far back in history They are the direct result he attempts to show of the forces unleashed by the collapse in the 16th century of the laws against usury Having diagnosed this problem as stemming from this destruction of the power of people to control their work Papworth goes on to propound a new politics which is the politics of Small is Powerful a new and hopeful approach to the problems of modern politics which merits the careful consideration of every person with any claim to political literacy The author asserts that the way forward is not bigger units of government or indeed in any other units but rather that all units which represent power in whatever form should be reduced to a size which makes them susceptible to genuine democratic citizen control Mass society must be dismantled local communities must be rebuilt in their stead but above all people must take the power back that they have lost to the Giant State Giant States have failed their inhabitants Papworth contends with records on human rights economic well being and on general stability inferior to the records of the smaller nations of Europe The way forward according to Small is Powerful is to restore localized community life the extended family the nuclear family and thereby civilization itself through deliberately empowering people through neighborhood communities

*Grassroots Post-Modernism* Gustavo Esteva, Madhu Suri Prakash, 1998 Gustavo Esteva is one of Latin America's best known alternative thinkers about development For this book he teams up with Madhu Suri Prakash to offer a vibrant and provocative critique of the Western development paradigm

*Legends in Gandhian Social Activism: Mira Behn and Sarala Behn* Bidisha Mallik, 2022-06-15 This book is about Madeleine Slade 1892-1982 and Catherine Mary Heilemann 1901-1982 two English associates of Mohandas K Mahatma Gandhi 1869-1948 known in India as Mira Behn and Sarala Behn The odysseys of these women present a counternarrative to the forces of imperialism colonialism capitalism and globalized

development The book examines their extraordinary journey to India to work with Gandhi and their roles in India's independence movement their spiritual strivings their independent work in the Himalayas and most importantly their contribution to the evolution of Gandhian philosophy of socio economic reconstruction and environmental conservation in the present Indian state of Uttarakhand The author shows that these women developed ideas and practices that drew from an extensive intellectual terrain that cannot be limited to Gandhi's work She delineates directions in which Gandhian thought and experiments in rural development work and visions of a new society evolved through the lives activism and written contributions of these two women Their thought and practice generated a new cultural consciousness on sustainability that had a key influence in environmental debates in India and beyond and were responsible for two of the most important environmental movements of India and the world the Chipko Movement or the movement against commercial green felling of trees by hugging them and the protest against the Tehri high dam on the Bhagirathi River To this day their teachings and philosophies constitute a useful and significant contribution to the search for and implementation of global ideas of ecological conservation and human development

*Grassroots Postmodernism* Gustavo Esteva, Madhu Suri Prakash, 2014-08-14 With the publication of this remarkable book in 1998 Gustavo Esteva and Madhu Suri Prakash instigated a complete epistemological rupture Grassroots Post modernism attacks the three sacred cows of modernity global thinking the universality of human rights and the self sufficient individual Rejecting the constructs of development in all its forms Esteva and Prakash argue that even alternative development prescriptions deprive the people of control over their own lives shifting this control to bureaucrats technocrats and educators Rather than presuming that human progress fits a predetermined mould leading towards an increasing homogenization of cultures and lifestyles the authors argue for a radical pluralism that honours and nurtures distinctive cultural variety and enables many paths to the realization of self defined aspirations This classic text is essential reading for those looking beyond neoliberalism the global project and the individual self

**Fixing the System** Adrian Kuzminski, 2008-06-01 In the current climate of dissatisfaction with democratic Western political and economic systems this is a timely book that demonstrates a true political Third Way Populism is distinguished from other political movements by its insistence on two things conspicuously missing from modern systems of political economy genuine democracy based on local citizen assemblies and the widespread distribution among the population of privately owned economic capital Fixing the System offers a comprehensive historical account of populism revealing the consistent and distinct history of populism since ancient times Adrian Kuzminski demonstrates that populism is a tradition of practice as well as thought ranging from ancient city states to the frontier communities of colonial America all places where widely distributed private property and democratic decision making combined to foster material prosperity and cultural innovation In calling for a wide distribution of both property and democracy populism opposes the political and economic system found today in the United States and other Western countries where property remains highly concentrated in private hands and

where representatives chosen in impersonal mass elections frustrate democracy by serving private monied interests rather than the public good As Kuzminski demonstrates as one of very few systematic alternatives to today s political and economic system populism offers a pragmatic program for fundamental social change that deserves wide and serious consideration Populism is a genuine third way in politics a middle path between the extremes of corporate anarchy and collective authoritarianism As America takes stock of her current situation and looks toward the future in the 2008 election year Fixing the System offers a trenchant and timely study of this deep rooted movement *Plight of the Cultural Mutant* Jack Suss,2017-03-11 The past quarter century proved to be a particularly rough and rocky road for the cultural mutant From getting on the wrong end of political correctness at St John s College Santa Fe followed by a confused odyssey as an ESL teacher a doctoral student a would be scholar and poet pundit and constitutionalist attorney psychedelic inner space explorer and blues piano player and then returning to his boyhood neighborhood only to find it irretrievably morphed and mangled The confusion experienced during the cultural mutant s long odyssey in the wilderness of not knowing precisely the causes of his malaise is exhaustively portrayed herein *The Futurist* ,1996 *The Open Conspiracy* Herbert George Wells,2002 H G Wells was acclaimed during his lifetime as one of the most original and creative thinkers of the 20th century and retains to this day a position of considerable importance in the history of ideas In 1928 when he wrote this cry for a new age of worldwide knowledge networking there was no Internet Yet Wells was already convinced that if only thinking people across the planet could somehow pull together and pool their expertise energy and insights into sort of cerebrum for humanity then the world would be a saner safer better fairer place Anyone aware of how the Internet already reflects both the vices and the virtues of society and wonders how a world renowned visionary like H G Wells envisaged knowledge networking as working in practice will enjoy this book It is a hymn to the practical possibilities of world group action *As If Peoples Mattered* Zelim Skurbaty,2021-11-22 Ours is an era of decline for the nation state and one of world wide concern for the problems surrounding sub state groups minorities peoples and indigenous populations The often violent resurgence of conflicts between these groups and States in even the stable democracies poses a challenge to international law as well as to liberal political principles In this volume an expert in international minority rights provides not only significant clarification of the legal issues involved but also trenchant insights taken from a wide range of humanitarian disciplines from philosophy and systems theory to neuro linguistic programming NLP and transactional analysis TA The result is a meticulously researched book exploring from a variety of perspectives the terms peoples and minorities in international law as well as relationships between minorities peoples and indigenous rights individuation and self determination Of special interest is the attempt of the author to explain the existence of double standards in international minority rights dubbing them games with the help of transactional analysis and to redefine and reframe the basic terms such as international law sovereignty self determination etc The straightforward claim of the author is that the proposed theories can help both members of minorities and those in

executive positions to gain insights on the cognitive level and make more congruent community oriented decisions on the practical level The book will hold particular appeal for all those interested in the international law of human rights politics and philosophy as well as students seeking a multi disciplinary perspective on these much debated areas     Chaotics Georges Anderla,Anthony Dunning,Simon Forge,1997-06-25 The new discipline of chaotics will alter our thinking about the real forces of change in our society As presented here chaotics emphasizes that the real world cannot be understood in terms of conventional deterministic philosophies or standard chaos theory but that complexity in itself has a powerful but subtle role to play How does this apply to business and society To what degree are our lives governed by misguided notions or do our businesses succeed by chance because real societal and business forces and their effects are not really understood Beginning with the foundations of the discipline this book applies chaotics to business and wealth creation and to society On the social side it examines a sea change in the philosophy of everyday living be it the concept of employment or our relationship to the environment The book examines personal identity and its loss in modern society as well as the search for new contacts and gratification through technology The authors look at the stunted growth of philosophy against science but emphasize what philosophy has to tell us in a chaotic world A major new text which will be of interest to professionals and scholars in business government and society     **The Future Is Ours** Graham H. May,1996-05-28 Why do we continue to think about imagine and forecast the future despite believing we will probably be wrong Why do we need to do so What does the future mean and how do we relate to it Is it possible that Western societies condition their members into inability to cope with the future These and other fundamental questions are explored in The Future Is Ours which is written as an intermediate text for use in future oriented modules within BA courses in International Business Management Urban Planning and Environmental Politics     Rescuing All Our Futures Ziauddin Sardar,1999-03-30 This book argues that futures studies has abandoned its goal of exploring diverse and alternative futures Its over emphasis on forecasting and prediction its over preoccupation with technology and its neglect of non western cultures and concerns have all transformed it into an instrument for the colonisation of the future     **Forthcoming Books** Rose Arny,1995     **The Evolutionary Outrider** David Loye,1998-06-25 The overriding challenge for our species during the 21st century many believe will be that of evolving or becoming extinct Can the theory of evolution be expanded into a source of guidance that could help our species save itself This collection brings together the thinking of scholars in a wide range of fields in social as well as natural science directed to this end Moving beyond a critique of neo Darwinism and sociobiology to explore the action implications of new theory including Loye s reconstruction of the long ignored full vision of Charles Darwin and Laszlo s new QVI fifth field theory essays explore the potential for the impact of self organizing and self regulating organism of the biology of love and the moral directional thrust of the human as revealed in new discoveries in the fields of biology psychology brain research sociology economics history cultural evolution and Darwinian re evaluation As such the collection will be of interest to the educational

community the futurist community and the more general global foresight community of concerned people     Journal of Economic Literature ,1996     *LONG RANGE PLANNING* ,1996     **The Utne Reader** ,1995     *Visionaries* Jay Walljasper,Jon Spayde,2001 Jay Walljasper Jon Spayde andThe Editors of Utne ReaderTable of Contents Acknowledgments Foreword by Eric Utne Introduction The Spirit Moving Us Introduction Thomas Berry Satish Kumar Stephen Ondrea Levine Thich Nhat Hahn Zalman Schachter Shalomi Starhawk The Sense of Community Introduction Ernesto Cortes Jr Roberta Brandes Gratz Jane Jacobs Frances Moore Lapp Michael Lind David Morris Helena Norberg Hodge John Papworth Andres Duany Elizabeth Plater Zyberk Virginia Valentine Social Action Introduction Noam Chomsky Gary Delgado Riane Eisler Colin Greer Ted Halstead Jim Hightower bell hooks Andrew Kimbrel IWinona LaDuke Geoff Mulgan Muhammed Yunus Seeing Green Introduction Kenny Ausubel Nina Simons Fritjof Capra Theo Colborn Edward Goldsmith Paul Hawken Hazel Henderson Jerry Mander William McDonough Bill McKibben Donella Meadows Theodore Roszak Charlene Spretnak Creativity Culture Introduction Gloria Anzaldua Octavia Butler Eduardo Galeano George Gerbner Barbara Marx Hubbard Kalle Lasn Bobby McFerrin Bill Moyers Neil Postman Rachel Rosenthal John Ralston Saul William Strickland Body Psyche Senses Introduction Larry Dossey Chellis Glendenning Susan Griffin James Hillman Tom Hodgkinson Henry Karen Kimsey House Jane Maxwell Vicki Robin Gabrielle Roth Alice Waters     Promoting Community Change Mark S.
