Small Room:

Notes From A Small Room Ruskin Bond, 2017-08-29 It's the simple things in life that keep us from going crazy Ruskin Bond writes in this enchanting collection of essays a celebration of the uncomplicated pleasures of a life well lived In A Good Philosophy we learn of Bond's life philosophy or the lack of it and In Search of the Perfect Window we join him in meditating on the qualities of a good window and its importance to a room Whether contemplating the sound of a tropical downpour on the fragrance of lime trees in the Himalayas or on a year spent with his cat Suzie Ruskin Bond transports us to a quieter more elegant world where time moves at a gentle pace He invites us to revel in the intricacies of life and to poke fun at its absurdities with insight wisdom and wit **Handbook of Housekeeping for Small Incomes** Florence Stacpoole, 1898

Wordsworth, Coleridge, and 'the language of the heavens' Thomas Owens, 2019-05-30 Thomas Owens explores some of the exultant visions inspired by Wordsworth's and Coleridge's close scrutiny of the night sky the natural world and the domains of science He examines a set of scientific patterns drawn from natural geometric celestial and astronomical sources which Wordsworth and Coleridge used to express their ideas about poetry religion literary criticism and philosophy and establishes the central importance of analogy in their creative thinking Analogies prompted the poets imaginings in geometry and cartography in nature representations of the moon and natural history studies of spider webs streams and dew in calculus and conical refraction and in the discovery of infra red and ultraviolet light Although this is primarily a study of the patterns which inspired their writing the findings overturn the prevalent critical consensus that Wordsworth and Coleridge did not have the access interest or capacity to understand the latest developments in nineteenth century astronomy and mathematics which they did in fact possess Wordsworth Coleridge and the language of the heavens reinstates many relationships which the poets had with scientists and their sources Most significantly the book illustrates that these sources are not simply another context or historical lens through which to engage with Wordsworth's and Coleridge's work but are instead a controlling device of the symbolic imagination Exploring the structures behind Wordsworth's and Coleridge's poems and metaphysics stakes out a return to the evidence of the Romantic imagination not for its own sake but in order to reveal that their analogical configuration of the world provided them with a scaffold for thinking an intellectual orrery which ordered artistic consciousness and which they never abandoned *The Delineator* R. Lydia Paula Gooder, 2022-10-06 Winner CRT Christian Book of the Year 2023 The New Testament tells us very little about Lydia a seller of purple cloth who was living in Philippi when she met the apostle Paul on his second missionary journey And yet she is considered the first recorded convert to Christianity in Europe In her second work of fiction Biblical scholar and popular author and speaker Paula Gooder tells Lydia's story who she was the life she lived and her first century faith and in doing so opens up Paul's letter to the Philippians giving a sense of the cultural and historical pressures that shaped Paul's thinking and the faith of the early church Written in the gripping style of Gerd Theissen's *The Shadow of the Galilean* and similarly rigorously researched this is a book for everyone and anyone who wants to engage more deeply and imaginatively with Paul's theology from one of the UK's foremost New Testament scholars
