Curran, 2006-05-01 Loyal Dissent is the candid and inspiring story of a Catholic priest and theologian who despite being stripped of his right to teach as a Catholic theologian by the Vatican remains committed to the Catholic Church Over a nearly fifty year career Charles E Curran has distinguished himself as the most well known and the most controversial Catholic moral theologian in the United States On occasion he has disagreed with official church teachings on subjects such as contraception homosexuality divorce abortion moral norms and the role played by the hierarchical teaching office in moral matters Throughout however Curran has remained a committed Catholic a priest working for the reform of a pilgrim church His positions he insists are always in accord with the best understanding of Catholic theology and always dedicated to the good of the church In 1986 years of clashes with church authorities finally culminated in a decision by the Congregation for the Doctrine of the Faith headed by then Cardinal Josef Ratzinger that Curran was neither suitable nor eligible to be a

professor of Catholic theology As a result of that Vatican condemnation he was fired from his teaching position at Catholic University of America and since then no Catholic university has been willing to hire him Yet Curran continues to defend the possibility of legitimate dissent from those teachings of the Catholic faith not core or central to it that are outside the realm of infallibility In word and deed he has worked in support of more academic freedom in Catholic higher education and for a structural change in the church that would increase the role of the Catholic community from local churches and parishes to all the baptized people of God In this poignant and passionate memoir Curran recounts his remarkable story from his early years as a compliant pre Vatican II Catholic through decades of teaching and writing and a transformation that has brought him today to be recognized as a leader of progressive Catholicism throughout the world
