Militarism, Hunting, Imperialism J.A. Mangan, Callum McKenzie, 2013-10-18 The late Victorian and Edwardian officer class viewed hunting and big game hunting in particular as a

sound preparation for imperial warfare For the imperial officer in the making the bloody hunting ritual was a visible hallmark of stirring martial masculinity Sir Henry Newbolt the period poet of subaltern self sacrifice typically considered hunting as essential for the creation of a masculine sporting spirit necessary for the consolidation and extension of the empire Hunting was seen as a manifestation of Darwinian masculinity that maintained a pre ordained hierarchical order of superordinate and subordinate breeds Militarism Hunting Imperialism examines these ideas under the following five sections martial imperialism the self sacrificial subaltern bloodying the middle class martial male the imperial officer hunting and war martial masculinity proclaimed and consolidated martial masculinity adapted and adjusted This book was published as a special issue of the International Journal of the History of Sport *The Balkan Games and Balkan Politics in the Interwar Years 1929 - 1939* Penelope Kissoudi, 2013-10-18 The Balkan Games resulted on the one hand from the growth of modern European sport and the unsatisfactory performances of the Balkan athletes at national and international level and on the other hand from a desire to bring the Balkan peoples together in peace and concord The Games were initiated in Athens in 1929 and increasingly became an integral part of the political cultural and social life of the area The common global reality is that when an athletic event is staged attempted friendship seldom receives priority In the 1930s however the Balkan Games provided a rare example of an international athletic event bringing antagonistic states together in friendship This consideration of the significance of the Balkan Games as an instrument of political optimism provides clear evidence of the occasional positive influence of sport in politics The work is a case study of interest to political and social scientists and to historians of Europe and sport This book was previously published as a special issue of the International Journal of the History of Sport *Sport and Social Identities* John Harris, Andrew Parker, 2017-09-16 Playing and watching sport can teach us a great deal about wider social issues This book looks at how identities are constructed and reinforced in sport exploring notions of race class sexuality and nationalism With contributions from international experts this book is key reading for students of sociology and sports studies **The SAGE Dictionary of Sports Studies** Dominic Malcolm, 2008-03-27 a welcome addition to the literature in the rapidly expanding field of sports studies It is up to date comprehensive and well and clearly written Though primarily sociological in its orientation it will help students postgraduate and undergraduate alike and their teachers as well to establish connections between the various sub disciplines and guide them to sources which will enable them to probe issues more deeply It is a beautifully crafted book and is sure to be a hit with students and their teachers It would not surprise me in the least however if it appealed to sports lovers more generally It is a tour de force and I recommend it unreservedly Eric Dunning Professor in Sociology The Centre for the Sociology of Sport University of Leicester Sports studies is one of the fastest growing fields in higher education today The SAGE Dictionary of Sports Studies brings a timely much needed and comprehensive tool for all students in this multi disciplinary field Each entry provides a basic definition a guide to research themes and a clear account of the relevance of the concept in understanding sport Not only

The Making of Sporting Cultures John Hughson, 2013-09-13 The Making of Sporting Cultures presents an analysis of western sport by examining how the collective passions and feelings of people have contributed to the making of sport as a way of life The popularity of sport is so pronounced in some cases that we speak of certain sports as national pastimes Baseball in the United States soccer in Britain and cricket in the Caribbean are among the relevant examples discussed Rather than regarding the historical development of sport as the outcome of passive spectator reception this work is interested in how sporting cultures have been made and developed over time through the active engagement of its enthusiasts This is to study the history of sport not only from below but also from within as a means to understanding the deep relationship between sport and people within class contexts the middle class as well as the working class Contestation over the making of sport along axes of race gender and class are discussed where relevant A range of cultural writers and theorists are examined in regard to both how their writing can help us understand the making of sport and as to how sport might be located within an overall cultural context in different places and times The book will appeal to students and academics within humanities disciplines such as cultural studies history and sociology and to those in sport studies programmes interested in the historical cultural and social aspects of sport This book was published as a special issue of Sport in Society
