taming of nature in favor of human comfort and in the role of the environment matters in the forging of cultural identities which cannot be detached from technical intervention in the world In short the book firstly studies the past approaching it as a data set of how the environment has shaped culture secondly seeks to understand the present and thirdly assesses future perspectives what to keep what to change and what to dream anew considering that conventional solutions have not sufficed to protect life on our planet *Journal* Manchester Geographical Society,1888 **Consolidated Translation Survey**,1967 **The Journal of the Manchester Geographical Society** Manchester Geographical Society,1887 *Russia's Last Romantic, Apollon Grigor'ev, 1822-1864* Robert Tyron Whittaker,1999 This biography brings together all available material on Grigor ev s life and times to provide a unified historical description and analysis of his criticism poetry and prose It is based on previously unkown material on his major works presented in the context of his entire opus and on a number of unpublished writings principally his letters Appended is a complete listing of his writings including letters and of works about him Grigor ev was the foremost conservative literary critic of his age and is considered by many to be the greatest Russian critic of the 19th century His poetry and literary theory anticipated traits of the Russian symbolists who held him in high regard **Nouvelle biographie générale** ,1865
