the years and attained a very good level in what concerns individuals Second I brought my colleagues beside me so that we were able to collect sufficient excellent papers without destroying the pioneering spirit of those who first inaugurated the Congress Getting together to find out what is in progress in the vast region in which Latin languages Portuguese and Spanish are spoken attracting others to exchange ideas with us and by doing this advancing AI in general is a risky undertaking This book is the result and it sets a new standard to be discussed by all of us IBERAMIA was established in 1988 Barcelona by three Ibero American AI Associations AEPIA from Spain SMIA from Mexico and APPIA from Portugal after a first meeting in Morelia Mexico in 1986 of SMIA and AEPIA
