## **Social And Applied Aspects Of Perceiving Faces:**

*Social and Applied Aspects of Perceiving Faces* Thomas R. Alley, 2013-05-13 This interdisciplinary overview integrates a variety of perspectives on the process and interpretation of faces as a major source of verbal and nonverbal communication Written by authors from social experimental and cognitive psychology as well as from the dental sciences *Social and Applied Aspects of Perceiving Faces* covers topics including normal variation in facial appearance and facial anomalies Life Like Dolls A. F. Robertson, 2004-03-01 Since the 1980s there has been a growing billion dollar business producing porcelain collectible dolls Advertised in Sunday newspapers and mailbox fliers even Marie Osmond an avid collector herself is now promoting her own line of dolls on the Home Shopping Network and sales are soaring With average price tags of 100 and 500 or more for a handcrafted or limited edition doll these dolls strike a chord in the hearts of middle aged and older women their core buyers some of whom create nurseries devoted to collections that number in the hundreds Each doll has its own name identity and adoption certificate like Shawna who has just learned to stack blocks all by herself and Bobby whose brown handset eyes shine with mischief and little boy plans Exploring the nexus of emotions consumption and commodification they represent A F Robertson tracks the rise of the porcelain collectible market interviews the women themselves and visits their clubs fairs and homes to understand what makes the dolls so irresistible Lifelike but freakish novelties that profess to be antiques pricey kitsch These dolls are the product of powerful emotions and big business *Life Like Dolls* pursues why middle class educated women obsessively collect these dolls and what this phenomenon says about our culture *Is an Objective Measuring System for Facial Attractiveness Possible?* Mounir Bashour, 2007-06 here exists a need for the creation of an objective system for measuring facial attractiveness and along with it a detailed mathematical analysis and understanding of facial sexual dimorphism Both the areas of ophthalmic and facial plastic and reconstructive surgery and the areas of facial attractiveness and recognition research in psychology would greatly benefit from achieving these goals The objective of this work has been to develop and test a system for measuring facial attractiveness in an objective manner and analyze orbital and facial sexual dimorphism A facial overlay system or mask variously called the phi archetypal golden or golden ratio mask has been claimed to be capable of being adapted to create an objective system for measuring facial attractiveness The central hypothesis of the thesis is that the phi mask can be used to create an objective measurement system for facial attractiveness Over a period of seven years we have created a standardized high resolution photographic facial database of 18 30 year old male and female adults as well as database of linked facial anthropometric and photogrammetric measurement data We have also designed a system using the phi mask that attempts to measure facial attractiveness objectively and tested it against our facial database Finally we have made a detailed analysis of the measurement data and previous literature with respect to precisely defining sexual dimorphism around the eyes and face Results support our central hypothesis in that the phi mask in its current form does yield a measure for objective

attractiveness that correlates to the current gold standard measure of attractiveness truth of consensus However while the mask is capable of explaining a major portion of the variance in facial attractiveness it is not the final complete answer Strengths weaknesses and limitations of the approach and the model used are discussed and ideas and directions for further research to develop a more accurate system are suggested The analysis of the orbits and the face for sexual dimorphism yielded a great deal of new data and have lead to an understanding of sexual differences that have practical implications for both surgery and further facial research Applications of the research include Preoperative aids for planning plastic and reconstructive surgery cosmetic surgery and sex altering surgery standards for analyzing the eyes for academic study standards for quantifying the features of the eyes for use in an identification system aid in application of cosmetics aid in understanding the psychological impact of eyes on the judgment of attractiveness creation of a standardized database of digital high resolution facial photographs and linked anthropometric and demographic database to be made available to the world community of facial researchers use of the databases by researchers for face recognition research facial attractiveness research etc

**Physical Appearance and Gender** Linda A. Jackson,1992-01-01 This book examines two kinds of research research in social psychology and in clinical psychology into the effects of physical appearance on person perception Both are explored with the objective of identifying gender similarities and differences on the effects of physical appearance The theoretical framework for integrating the two approaches is presented with implications of this framework for future research social change and psychotherapy The book demonstrates that gender must be considered in research on physical appearance effects

*The Vampire in Contemporary Popular Literature* Lorna Piatti-Farnell,2013-11-07 Prominent examples from contemporary vampire literature expose a desire to re evaluate and re work the long standing folkloristic interpretation of the vampire as the immortal undead This book explores the new vampire as a literary trope offering a comprehensive critical analysis of vampires in contemporary popular literature and demonstrating how they engage with essential cultural preoccupations anxieties and desires Drawing from cultural materialism anthropology psychoanalysis literary criticism gender studies and postmodern thought Piatti Farnell re frames the concept of the vampire in relation to a distinctly twenty first century brand of Gothic imagination highlighting important aesthetic conceptual and cultural changes that have affected the literary genre in the post 2000 era She places the contemporary literary vampire within the wider popular culture scope also building critical connections with issues of fandom and readership In reworking the formulaic elements of the vampiric tradition and experimenting with genre bending techniques this book shows how authors such as J R Ward Stephanie Meyers Charlaine Harris and Anne Rice have allowed vampires to be moulded into enigmatic figures who sustain a vivid conceptual debt to contemporary consumer and popular culture This book highlights the changes conceptual political and aesthetic that vampires have undergone in the past decade simultaneously addressing how these changes in vampire identity impact on the definition of the Gothic as a whole

**Superportraits** Gillian Rhodes,1997-02-28 Despite

their exaggerated features caricatures can remain instantly recognizable The author assembles clues from a variety of sources to discover why concluding that caricatures are effective for humans animals and computer recognition systems

*Intelligence, Heredity and Environment* Robert J. Sternberg, Elena L. Grigorenko, 1997-01-28 The debate over nature versus nurture in relation to intelligence is not as clearly drawn as it was ten years ago when geneticists claimed that intelligence is innate while environmentalists claimed that culture is the major determining factor Although the debate has not been resolved it has been significantly refined Robert Sternberg and Elena Grigorenko address the roles and interaction of nature and nurture in *Intelligence Heredity and Environment* This book provides a comprehensive balanced current survey of theory and research on the origins and transmission of human intelligence The book is unique in the diversity of viewpoints it presents and its inclusion of the very most recent theories and findings It highlights the search for genes associated with specific cognitive abilities interactionist theories cultural relativism educational strategies developmental perspectives and fallacies of previous intelligence research

*Frontiers In Autism Research: New Horizons For Diagnosis And Treatment* Valerie W Hu, 2014-05-09 This book focuses on the emerging and expanding areas of research on ASD and their potential to lead to better diagnosis and more effective therapies These areas include innovative and integrative approaches to genetic genomic analyses and investigations of epigenetic contributions including the role of noncoding RNAs DNA methylation alternative splicing RNA editing and faulty translation in gene regulation and expression metabolic and immune dysfunction co morbidities as well as hormonal and gene environment interactions that may increase risk for ASD Within each chapter experts review cutting edge research as well as provide their perspective on the future of research in their respective areas including the challenges involved and the types of studies or advances that are necessary to move the field forward to achieve predicted translational goals Contributors Argel Aguilar Valles Evdokia Anagnostou Emma Ashwin Bonnie Auyeung Kelly M Bakulski Simon Baron Cohen Margaret L Bauman Donna Betts Chad A Bousman Daniel B Campbell Manuel F Casanova Bhismadev Chakrabarti Gursharan Chana Abha Chauhan Ved Chauhan Jessica DeWitt Keith W Dunaway Alal Eran Ian P Everall M Daniele Fallin Richard E Frye Piers Gillett Matthew Ginsberg Christos G Gkogkas Rhonda J Greenhaw Simon G Gregory Elena L Grigorenko Feng Gu Rebecca Harmer Martha Herbert Valerie W Hu Karen L Jones Petra Kern Arkady Khoutorsky Rebecca Knickmeyer Isaac S Kohane Louis M Kunkel Janine M LaSalle Michael V Lombardo Deepali Mankad Marvin Natowicz Laura Nicholls Christos Pantelis Natalia Rakhlin Radhika Ramadas Daniel A Rossignol Tewarit Sarachana Stephen W Scherer Gabriela Schmulevich Ayten Shah Frank R Sharp Alison B Singer Efstratios Skafidas Estate M Sokhadze Nahum Sonenberg Boryana Stamova Zohreh Talebizadeh Renee Testa Judy Van de Water Irina Voineagu Daniel Williams Ryan K C Yuen Daniela Zantomio

Interpersonal Expectations Peter David

Blanck,1993-09-24 This 1993 volume explores a sub area of social psychology called interpersonal expectation that studies how the expectation of one person affects the behavior of another      **The SAGE Handbook of Electoral Behaviour** Kai Arzheimer,Jocelyn Evans,Michael S. Lewis-Beck,2017-02-27 The study of voting behaviour remains a vibrant sub discipline of political science The Handbook of Electoral Behaviour is an authoritative and wide ranging survey of this dynamic field drawing together a team of the world s leading scholars to provide a state of the art review that sets the agenda for future study Taking an interdisciplinary approach and focusing on a range of countries the handbook is composed of eight parts The first five cover the principal theoretical paradigms establishing the state of the art in their conceptualisation and application and followed by chapters on their specific challenges and innovative applications in contemporary voting studies The remaining three parts explore elements of the voting process to understand their different effects on vote outcomes The SAGE Handbook of Electoral Behaviour is an essential benchmark publication for advanced students researchers and practitioners in the fields of politics sociology psychology and research methods      Physical Attractiveness and the Theory of Sexual Selection Doug Jones,1996-01-01 In this fascinating study of five populations author Doug Jones explores the possibility that hardwired into the human psyche are standards of beauty that are really preferences and signals for good health      *Stereotypes and Stereotyping* C. Neil Macrae,Charles Stangor,Miles Hewstone,1996-03-01 Following a broad overview that defines stereotypes the book addresses how they are formed and developed in chapters that cover the social psychology of stereotypes the impact of physical appearance on their formation and methods of assessing their accuracy Internationally renowned authors consider the function and use of stereotypes exploring their complex interrelationship with linguistic biases prejudice and discrimination and intergroup and interpersonal perception Chapters then discuss how stereotypes can be undermined detailing social psychological interventions to improve intergroup relations and examining ways that individual targets of stereotyping might motivate others to change A concluding chapter takes a historical view of stereotype research tracing the evolution of the field and evaluating current theories and methodologies      **In Your Face** David Perrett,2017-09-16 In our daily lives in our memories and fantasies our mental worlds overflow with faces But what do we really know about this most remarkable feature of the human body Why do we have faces at all and brains that are good at reading them What do our looks say and not say about our personalities And perhaps the most compelling question of all Why are we attracted to some faces more than others In Your Face is an engaging and authoritative tour of the science of facial beauty and face perception David Perrett the pre eminent scholar in the field reveals and interprets the most remarkable findings and in the process demolishes many popular myths setting the record straight on what neuroscience and evolutionary psychology are teaching us about beauty The record is more surprising and often more unsettling than you might think      Nonverbal Behavior in Clinical Settings Pierre Philippot,Robert S. Feldman,Erik J. Coats,2003-10-02 The volume is organized into three main sections preceded by a one chapter orientation to the area that provides a general

overview of the current debates in the area The first section Nonverbal Behavior in Regulatory and Clinical Processes presents the nonverbal processes involved in emotion regulation and in social skills in everyday life and in therapeutic intervention with a special focus on therapeutic bounds The next sections Nonverbal Behavior in Negative Life Events shows the relationships between nonverbal behavior and challenging negative life conditions such as bereavement anxiety or brain damage The last section Nonverbal Behavior in Specific Clinical Conditions examines nonverbal behavior in specific psychopathological disorders such as alcoholism depression schizophrenia or alcoholism

**Monitoring Laws** Jake Goldenfein, 2019-10-24 Explores the historical origins and emerging technologies of government profiling and examines law's role in contemporary technological environments

**Perceiving Events and Objects** Gunnar Jansson, Sten Sture Bergström, William Epstein, Sten Sture Bergström, 2013-06-17 Beginning with his doctoral dissertation in 1950 which introduced the study of event perception and the application of vector analysis to perception Gunnar Johansson has been a seminal figure in the field of perception His work on biomechanical motion in the 1970s challenged conventional notions and stimulated great interest among experimental psychologists and students of machine vision In 1989 Johansson published his latest theoretical synthesis the optic sphere theory an innovative conceptualization that goes beyond his earlier proposals This volume presents for the first time an extensive precis of the out of print classic 1950 monograph prepared by Johansson It also includes a representative set of Johansson's important publications produced over the ensuing four decades These papers served as the springboard for a set of original essays by a distinguished group of North American and European scientists Part critical commentary part elaboration and part seeking new directions the entire collection makes for a singularly rich treatment of the perception of objects and events
