Social And Biological Aspects Of Ethnicity:

Social and Biological Aspects of Ethnicity Malcolm Chapman, 2023 This volume focuses on the biological and social aspects of ethnicity which comprises three chapters from anthropologists Biology and society are both considered and the bidirectional nature of influence between the two factors is emphasized throughout the text Health and Ethnicity Helen Macbeth, Prakash Shetty, 2000-11-23 It is becoming increasingly apparent that certain diseases occur at higher frequencies in different ethnic groups e.g. Afro Caribbeans and sickle cell anaemia The causes for such differences are only just being investigated and the factors involved are clearly both genetic and non genetic The biological complexity lies in the interaction of genetic variation and lifestyle differences Cultural differences range from diet to traditional remedies from religious beliefs to marriage patterns and much more This multidisciplinary volume discusses these factors with contributions from geneticists, medics, anthropologists, epidemiologists and social scientists Anyone considering variation in health experience due to ethnic factors would be enriched by reading the different perspectives presented in this volume

The Concept of Race in Natural and Social Science E. Nathaniel Gates, 2014-05-01 Explores the concept of race The term race which originally denoted genealogical or class identity has in the comparatively brief span of 300 years taken on an entirely new meaning In the wake of the Enlightenment it came to be applied to social groups This ideological transformation coupled with a dogmatic insistence that the groups so designated were natural and not socially created gave birth to the modern notion of races as genetically distinct entities The results of this view were the encoding of race and racial hierarchies in law, literature and culture How racial categories facilitate social control The articles in the series demonstrate that the classification of humans according to selected physical characteristics was an arbitrary decision that was not based on valid scientific method They also examine the impact of colonialism on the propagation of the concept and note that racial categorization is a powerful social force that is often used to promote the interests of dominant social groups Finally the collection surveys how laws based on race have been enacted around the world to deny power to minority groups A multidisciplinary resource This collection of outstanding articles brings multiple perspectives to bear on race theory and draws on a wider range of periodicals than even the largest library usually holds Even if all the articles were available on campus chances are that a student would have to track them down in several libraries and microfilm collections Providing of course that no journals were reserved for graduate students out for binding or simply missing This convenient set saves students substantial time and effort by making available all the key articles in one reliable source Authoritative commentary The series editor has put together a balanced selection of the most significant works accompanied by expert commentary A general introduction gives important background information and outlines fundamental issues current scholarship and scholarly controversies Introductions to individual volumes put the articles in context and draw attention to germinal ideas and major shifts in the field After reading the material even a beginning student will have an excellent grasp of the basics of

the subject **Ethnicity: Anthropological Constructions** Marcus Banks,2003-09-02 Ethnicity has been a key concept in anthropology and sociology for many years yet many people still seem uncertain as to its meaning its relevance and its relationship to other concepts such as race and nationalism In *Ethnicity Anthropological Constructions* the major anthropological and sociological approaches to ethnicity covering much of the significant literature and leading authors are outlined clearly and concisely **The Meaning of Race** Kenan Malik,1996-07-12 In *The Meaning of Race* Kenan Malik throws new light on the nature and origins of ideas of racial difference Arguing that the concept of race is a means through which Western society has come to understand the relationship between humanity society and nature the book re examines the relationship between Enlightenment thought and racial discourse clarifies the nature of scientific racism and presents a critique of postmodern theories of cultural difference **Migration, Ethnicity, Race, and Health in Multicultural Societies** Raj S. Bhopal,2014 This book discusses the concepts of migration race and ethnicity and demonstrates how these can be applied in scientific research policy making health service planning and health promotion Extensive examples are used to demonstrate the application of the theory *Public Health Reports* ,1994 [Socio-Spatial Inequalities in Contemporary Cities](#) Alfredo Mela,Alessia Toldo,2019-05-11 The book explores social inclusion exclusion from a socio spatial perspective highlighting the active role that space assumes in shaping social phenomena Unlike similar books it does not discuss exclusion and inclusion in particular geographical contexts but instead explains these phenomena starting from the dense and complex set of relationships that links society and space It particularly focuses on social differences and how the processes of exclusion and inclusion can produce a highly spatialized understanding of them for example when particular groups of people are perceived as being out of place At the same time within the context of the different approaches that policies adopt to contrast the phenomena of social exclusion it examines the role of participation as an instrument to promote bottom up inclusion and cohesion processes **Genetic Ancestry** Jada Benn Torres,Gabriel A. Torres Colón,2020-10-20 *Genetic Ancestry* focuses on the scientific nature and limitations of genetic ancestry testing Co authored by a genetic anthropologist and a cultural anthropologist it examines the social historical and cultural dimensions of how people interpret genetic ancestry data Utilizing examples from popular culture around the world and case studies from the Caribbean the chapters highlight how genetic technology can sometimes bolster racial thinking and serve as tool of resistance and social justice **Race and Racism in Theory and Practice** Berel Lang,2000 This collection of original essays by scholars from a diverse range of fields examines issues of race in a variety of historical and geographical settings ranging from classical Greece to the contemporary Americas Europe and Asia The authors provide an important perspective on race both in its theoretical origins and in its actual appearances while paying close attention to the ways in which the study of race itself has been carried on or ignored by various disciplines **On Race and Philosophy** Lucius Outlaw,2016-01-08 *On Race and Philosophy* is a collection of essays written and published across the last twenty years which focus on matters of race

philosophy and social and political life in the West in particular in the US These important writings trace the author's continuing efforts not only to confront racism especially within philosophy but more importantly to work out viable conceptions of raciality and ethnicity that are empirically sound while avoiding chauvinism and invidious ethnocentrism The hope is that such conceptions will assist efforts to fashion a nation state in which racial and ethnic cultures and identities are recognized and nurtured contributions to a more just and stable democracy

Blood Politics Circe Sturm, 2002-03-20 *Blood Politics* offers an anthropological analysis of contemporary identity politics within the second largest Indian tribe in the United States one that pays particular attention to the symbol of blood The work treats an extremely sensitive topic with originality and insight It is also notable for bringing contemporary theories of race nationalism and social identity to bear upon the case of the Oklahoma Cherokee Pauline Turner Strong author of *Captive Selves Captivating Others The Politics and Poetics of Colonial American Captivity Narratives*

Racial Theories in Social Science Sean Elias, Joe R. Feagin, 2016-04-14 *Racial Theories in Social Science A Systemic Racism Critique* provides a critique of the white racial framing and lack of systemic racism analysis prevalent in past and present mainstream race theory As this book demonstrates mainstream racial analysis and social analysis more generally remain stunted and uncritical because of this unhealthy white framing of knowledge and evasion or downplaying of institutional structural and systemic racism In response to ineffective social science analyses of racial matters this book presents a counter approach systemic racism theory The foundation of this theoretical perspective lies in the critical insights and perspectives of African Americans and other people of color who have long challenged biased white framed perspectives

and practices and the racially oppressive and exclusionary institutions and social systems created by whites over several centuries Conceptual Engineering and Conceptual Ethics Alexis Burgess, Herman Cappelen, David Plunkett, 2020

Conceptual engineering is a newly flourishing branch of philosophy which investigates problems with our concepts and considers how they might be ameliorated truth for instance is susceptible to paradox and it is not clear what race stands for This is the first collective exploration of possibilities and problems of conceptual engineering **Culture and Modernity**

Ethnicity, Class, and Nationalism Anton L. Allahaar, 2005-06-28 Celebrants of an ever emerging globalization fly the banner of free trade the mass marketization of once faltering economies and rising economic and social standards for all Many opponents to globalization rightfully point out that borders still exist largely for the purposes of keeping one commodity in its place the labor commodity or the more familiar immigrant Arguments of this type are often steeped in economic and social discourse Race and ethnicity are seen as either being subsumed by this discourse or are entirely ignored as incidental to this type of political thought In Ethnicity Class and Nationalism Caribbean and Extra Caribbean Dimensions specialists writing on the Caribbean form of the nation state place race and ethnicity along with class in its proper context at the very foundations of the modern nation Editor Anton L Allahaar has handpicked scholarship that is both contemporary and expert in its consideration of Caribbean geo politics Furthermore essays in this volume include comparative cases from around the globe In the interest of locating race and ethnicity as sociological and political categories

that are inimical to contemporary conceptions of the nation state Allahar explores spaces other than the Caribbean The result is a comparative study that is unique in scope and also in its level of scholarly reflection This book is the first of its kind It is essential reading for anyone interested in advancing their analysis of political economic social and cultural thought in the Caribbean The New Public Health and STD/HIV Prevention Sevgi O. Aral, Kevin A. Fenton, Judith A. Lipshutz, 2012-12-09

Despite effective approaches to prevention STD and HIV infection rates remain fairly constant Targeting implementation and monitoring of interventions have posed widespread problems and the recent spate of cuts to prevention budgets has made these roadblocks even more challenging It is clear that working in sexual health requires both a deeper understanding of STI HIV epidemiology and an ongoing quest for up to date realistic prevention strategies The New Public Health and STD HIV Prevention offers readers leading edge access to both Focusing on social determinants of sexual health at risk populations critical factors in approaches to prevention and reviews of new research this authoritative volume explores areas as varied as HPV prevention technology based interventions migration as a factor in disease transmission and competencies key to effective leadership in the field Dispatches from the frontlines of theory research and practice in the U S and abroad include Personal risk public impact balancing individual rights and STD HIV prevention Distribution of prevention resources and its impact on sexual health Prevention measures in diverse populations of women Toward a better approach to preventive interventions with men who have sex with men Adolescent sexual health and STIs Reducing disparities in sexual health lessons from the campaign to eliminate infectious syphilis Public health professionals of all backgrounds interested in or working in improving sexual health will find The New Public Health and STD HIV Prevention an indispensable guide to conceptualizing the problems and clarifying possible solutions **Rehabilitation of Sports Injuries** Walter R.

Frontera, 2008-04-15 Rehabilitation is by definition the restoration of optimal form and function for an athlete In this edition in the Encyclopedia series the editor and contributors advocate that rehabilitation should begin as soon as possible after the injury occurs alongside therapeutic measures such as anti inflammatory and other pain killing agents This might also begin before or immediately after surgery The rehabilitative process is therefore managed by a multi disciplinary team including physicians physiotherapists psychologists nutritionists and athletic trainers amongst others This book considers the three phases of rehabilitation pain relief protection of the affected area and limitation of tissue damage limitation of impairment and recovery of flexibility strength endurance balance and coordination and finally the start of conditioning to return to training and competition
