## **Social Aspects Of The Human Body A Reader Of Key Texts:**

**The Truth Within** Gavin Flood,2013-10-25 The idea that there is a truth within the person linked to the discovery of a deeper more fundamental more authentic self has been a common theme in many religions throughout history and an idea that is still with us today This inwardness or interiority unique to me as an essential feature of who I am has been an aspect of culture and even a defining characteristic of human being an authentic private sphere to which we can retreat that is beyond the conflicts of the outer world This inner world becomes more real than the outer which is seen as but a pale reflection Remarkably the image of the truth within is found across cultures and this book presents an account of this idea in the pre modern history of Christianity Hinduism and Buddhism Furthermore in theistic religions Christianity and some forms of Hinduism the truth within is conflated with the idea of God within and in all cases this inner truth is thought to be not only the heart of the person but also the heart of the universe itself Gavin Flood examines the metaphor of inwardness and the idea of truth within along with the methods developed in religions to attain it such as prayer and meditation These views of inwardness that link the self to cosmology can be contrasted with a modern understanding of the person In examining the truth within in Christianity Hinduism and Buddhism Flood offers a hermeneutical phenomenology of inwardness and a defence of comparative religion

**Our Common Denominator** Christoph Antweiler,2016-04-01 Since the politicization of anthropology in the 1970s most anthropologists have been reluctant to approach the topic of universals that is phenomena that occur regularly in all known human societies In this volume Christoph Antweiler reasserts the importance of these cross cultural commonalities for anthropological research and for life and co existence beyond the academy The question presented here is how anthropology can help us approach humanity in its entirety understanding the world less as a globe with an emphasis on differences but as a planet from a vantage point open to commonalities

**Dance in the Field** T. Buckland,1999-07-19 This international collection on dance ethnography the first of its kind comprises original contributions on fieldwork in dance and

human movement Based on extensive fieldwork experience it explores the major theoretical approaches methods and concerns of dance and movement research from anthropological and ethnochoreological perspectives The result underlines the existing and continuing growth in dance ethnography which will also be of interest to those in dance studies anthropology cultural studies folklore ethnomusicology and sociology *Fashion and Anti-fashion* Ted Polhemus, 2011 Exploring adornment and dress from an anthropological perspective a classic text from 1978 revised with a new introduction and postscript for the 21 century *Biomedicine Examined* M. Lock, D. Gordon, 2012-12-06 The culture of contemporary medicine is the object of investigation in this book the meanings and values implicit in biomedical knowledge and practice and the social processes through which they are produced are examined through the use of specific case studies The essays provide examples of how various facets of 20th century medicine including education research the creation of medical knowledge the development and application of technology and day to day medical practice are pervaded by a value system characteristic of an industrial capitalistic view of the world in which the idea that science represents an objective and value free body of knowledge is dominant The authors of the essays are sociologists and anthropologists in almost equal numbers also included are papers by a social historian and by three physicians all of whom have steeped themselves in the social sciences and humanities This cooperative endeavor which has necessitated the breaking down of disciplinary barriers to some extent is perhaps indicative of a larger movement in the social sciences one in which there is a searching for a middle ground between grand theory and attempts at universal explanations on the one hand and the context specific empiricism and relativistic accounts characteristic of many historical and anthropological analyses on the other *Job's Body and the Dramatised Comedy of Moralising* Katherine E. Southwood, 2020-09-02 This book focuses on the expressions used to describe Job's body in pain and on the reactions of his friends to explore the moral and social world reflected in the language and the values that their speeches betray A key contribution of this monograph is to highlight how the perspective of illness as retribution is powerfully refuted in Job's speeches and in particular to show how this is achieved through comedy Comedy in Job is a powerful weapon used to expose and ridicule the idea of retribution Rejecting the approach of retrospective diagnosis this monograph carefully analyses the expression of pain in Job focusing specifically on somatic language used in the deity attack metaphors in the deity surveillance metaphors and in the language connected to the body and social status These metaphors are analysed in a comparative way using research from medical anthropology and sociology which focuses on illness narratives and expressions of pain Job's Body and the Dramatised Comedy of Moralising will be of interest to anyone working on the Book of Job as well as those with an interest in suffering and pain in the Hebrew Bible more broadly
