Downie, 2016-07-21 Although the emergence of the English novel is generally regarded as an eighteenth century phenomenon this is the first book to be published professing to cover the eighteenth century English novel in its entirety This Handbook surveys the development of the English novel during the long eighteenth century in other words from the later seventeenth century right through to the first three decades of the nineteenth century when with the publication of the novels of Jane Austen and Walter Scott the novel finally gained critical acceptance and assumed the position of cultural hegemony it enjoyed for over a century By situating the novels of the period which are still read today against the background of the hundreds published between 1660 and 1830 this Handbook not only covers those masters and mistresses of early prose fiction such as Defoe Richardson Fielding Sterne Burney Scott and Austen who are still acknowledged to be seminal figures in the emergence and development of the English novel but also the significant number of recently rediscovered novelists who were popular in their own day At the same time its comprehensive coverage of cultural contexts not considered by any existing study but which are central to the emergence of the novel such as the book trade and the mechanics of book production copyright and censorship the growth of the reading public the economics of culture both in London and in the provinces and the re printing of popular fiction after 1774 offers unique insight into the making of the English novel

Person, 2014-06-26 *The Oxford History of the Novel in English* is a 12 volume series presenting a comprehensive global and up to date history of English language prose fiction and written by a large international team of scholars The series is concerned with novels as a whole not just the literary novel and each volume includes chapters on the processes of

**Victims of the Book** François Proulx, 2019-11-08 Victims of the Book uncovers a long neglected but once widespread subgenre the fin de siècle novel of formation in France Novels about and geared toward adolescent male readers were imbued with a deep worry over young Frenchmen s masculinity as evidenced by titles like Crise de jeunesse Youth in Crisis 1897 La Crise virile Crisis of Virility 1898 La Vie stérile A Sterile Life 1892 and La Mortelle Impuissance Deadly Impotence 1903 In this book François Proulx examines a wide panorama of these novels many of which have rarely been studied as well as polemical essays pedagogical articles and medical treatises on the perceived threats posed by young Frenchmen s reading habits Against this cultural backdrop he illuminates all that was at stake in representations of the male reader by prominent novelists of the period including Jules Vall s Paul Bourget Maurice Barr s André Gide and Marcel Proust In the final decades of the nineteenth century social commentators insistently characterized excessive reading as an emasculating illness that afflicted French youth Fin de siècle writers responded to this pathologization of reading with a profusion of novels addressed to young male readers paradoxically proposing their own novels as potential cures In the early twentieth century this corpus was critically revisited by a new generation of writers Victims of the Book shows how Gide and

Proust in particular reworked the fin de siècle paradox to subvert cultural norms about literature and masculinity proposing instead a queer pact between writer and reader **The Publishers Weekly** ,1886 **Antiques** ,1926 **C.P.
