## **Sorcerers Apprentices Canadas Super Bureaucrats And The Energy Mess:**

**The Politics of Energy** G. Bruce Doern, Glen Toner, 2019-06-26 Originally published in 1985 This in depth analysis of federal energy policy and politics in the oil and gas sector critically evaluates the National Energy Program one of the most controversial and wide ranging policy initiatives in Canadian history an import case study Bridging Canadian politics and public policy the book gives an historical overview of the development of energy policy since 1945 examining the shifts in the balance of power between public and private energy interests It presents the NEP s positive and negative impacts on energy policy and the nature of political power *The Sorcerer's Apprentices* Peter Foster, 1982 *Pirouette* J. L.

Granatstein, Robert Bothwell, 1991-01-01 Canadian History: Confederation to the present Martin Brook Taylor, Doug Oram, 1994-01-01 In these two volumes which replace the Reader s Guide to Canadian History experts provide a select and critical guide to historical writing about pre and post Confederation Canada with an emphasis on the most recent scholarship Cover *From Miracle to Menace* David Yager, 2019-03-26 A miracle Coal oil and natural gas the carbon based fossil fuels

that powered the Industrial Revolution and civilization s rapid advancement A menace Climate change has how convinced many that carbon emissions are the world s greatest challenge The necessity and benefits of decarbonizing the global industrial and energy complex are well articulated What is not explained is this will require the largest financial disruption in history affecting everyone and everything For over a century Alberta s massive carbon resources have supported Alberta and Canada financially helping make Canada the world s fifth largest oil and gas producer Carbon has been a major driver of prosperity employment and opportunity shaping the country we know today However climate change is creating enormous challenges for Alberta and Canada with no possible outcomes that will satisfy all stakeholders Alberta has become ground zero for the changes many demand but few are willing to pay for As the province demonstrates what carbon s future looks and feels like unless the rest of the world participates Alberta has become a needless sacrifice *From Miracle to Menace* explains how Alberta came to be the enormity of the planned financial dislocation and how Alberta and Canada can meet the climate challenge without committing economic suicide **The Cooperative Edge** Debora L. Spar, 1994 From these four cases she builds a picture of cooperation that departs significantly from the conventional portrayal and that has wide

ramifications for our understanding of cooperation among states as well as among firms **Canadian Multinationals and**

**International Finance** Gregory P. Marchildon, Duncan McDowall, 2013-12-02 Seven studies explore the modest but significant role of Canadian multinational enterprises in world finance trade and direct investment Presents a historical overview analyses of individual companies and considerations of whole industries Shale Barrel Politics Eric M.

Uslaner, 1989 A Stanford University Press classic Facing Reality James M. Gillies, Institute for Research on Public Policy, 1986 In this book addressed primarily to business leaders politicians and public servants the author speculates about the economic problems that changing international conditions appear to be creating argues that existing policies no longer

work and must be replaced with new ones based on a new national consensus about economic goals reviews the ways business and government have worked together in the past to formulate economic strategies and suggests ways the government can create a new consensus and the prospects for its success in doing so *Routledge Library Editions: Energy* Various, 2021-07-09 Reissuing works originally published between 1964 and 1994 this set of ten volumes is an excellent collection of works on energy production and consumption economics and policy conservation and the crisis International in scope the volumes look at household energy conditions energy in the developing world political history and various other issues within the world of fuel and power This set is a resource for environment studies economics policy and politics sociology geography and other studies considering the use of energy in our world **Just Watch Me** John

English, 2010-09-07 This magnificent second volume written with exclusive access to Trudeau's private papers and letters completes what the Globe and Mail called the most illuminating Trudeau portrait yet written sweeping us from sixties Trudeaumania to his final days when he debated his faith His life is one of Canada's most engrossing stories John English reveals how for Trudeau style was as important as substance and how the controversial public figure intertwined with the charismatic private man and committed father He traces Trudeau's deep friendships with women especially many of them talented artists like Barbra Streisand and bitter enmities his marriage and family tragedy He illuminates his strengths and weaknesses from Trudeaumania to political disenchantment from his electrifying response to the kidnappings during the October Crisis to his all important patriation of the Canadian Constitution and his evolution to influential elder statesman

Privatization and State-Owned Enterprises Paul W. Macavoy, W.T. Stanbury, George Yarrow, Richard Zeckhauser, 2012-12-06 The book is divided into three major sections The first presents a theoretical discussion that underlies the other essays The second section deals with privatization issues from the perspective of the United States The third describes research addressed to the U K and Canada In the first chapter Richard Zeckhauser and Murray Horn develop a wide ranging theoretical framework for assessing the capabilities and role of state owned enterprises it provides a foundation for the analyses that follow In The Control and Performance of State Owned Enterprises they describe state owned enterprises as an extreme case of the separation of ownership and control The focus is on management the incentives it faces and the conflicts to which it is subjected The distinguishing characteristics of public enterprise the authors suggest give it a comparative advantage over both public bureaucracy and private enterprise in certain situations They argue that legislators are more likely to prefer SOEs over private enterprise when the efficiency of private enterprise is undermined by regulation or the threat of opportunistic state action when the informational demands of subsidizing private production to meet distributional objectives are high when it is difficult to assign property rights or when state ownership is ideologically appealing These considerations suggest why SOEs are usually assigned special rights and responsibilities and they help explain observed regularities in the distribution of SOEs across countries and sectors Zeckhauser and Horn apply principal

agent theory to identify the key factors underlying the performance of state owned enterprises Oil, the State, and Federalism John Erik Fossum,1997-01-01 John Erik Fossum explores the reasons for the federal government's intervention in the energy industry between 1973 and 1984 and shows how its initial objectives failed culminating in the privatization of Petro Canada in 1990 **Designing Bureaucracies** James A. Desveaux,1995 Drawing upon evidence from recent experiments in energy policy making in Canada this book explores the strategic consequences of bureaucratic change focussing on the technical and political roles of bureaucrats in determining large scale policy outcomes **Searching for Leadership** Patrice Dutil,2008-08-02 Although the subject of leadership is a hot topic it has never attracted much attention in the public sector Searching for Leadership is the first book to examine the evolving role and leadership of the highest ranking public servant in Ottawa or in any of Canada's Provinces and Territories the Secretary to Cabinet or the Clerk Arguing that the leadership role of the Secretary to Cabinet must be appreciated and understood in light of modern management practices and the centralization of administrative practices the contributors to this volume present a mixture of approaches to the position literature reviews structural approaches and biographical case studies of influential Secretaries to the Cabinet Analyzing the role of Secretaries to the Cabinet in Ottawa as well as in Alberta Saskatchewan Quebec and Ontario the contributors detail the roles key functions and impact of these highly influential public servants highlighting the ways in which the leadership skills of Secretaries to the Cabinet have changed and responded to change An important contribution to understanding Canadian governance and public management Searching for Leadership is essential reading for scholars and students in political science history public administration and management as well as public servants

*Canadians*,1984 **The Sorcerer's Apprentices** Peter Foster,1983 This tragic story set in southern Turkey takes place in an area where feudal conditions still exist **Trudeau's Tango** Darryl Raymaker,2017-03-24 Trudeau appeared to enjoy the encounter He stood his ground while escaping projectiles including a tomato In this insightful and lively history Liberal insider Darryl Raymaker recalls the attempt to broker a marriage from hell between the federal Liberal Party and Alberta's Social Credit government in the late 1960s Raymaker uses his deep connections and backroom knowledge to trace the tangled political relationships that developed when charismatic statesman Pierre Trudeau confronted the forces of oil and agriculture in Canada's west Part memoir part chronicle Trudeau's Tango provides a window into Canadian history politics economics and the zeitgeist of the late 1960s Foreword by Lloyd Axworthy Trudeau appeared to enjoy the encounter He stood his ground while escaping projectiles including a tomato After the briefest of honeymoons in 1968 Pierre Trudeau's government clashed with Alberta's conservative interests generating antagonism that persists to this day Trudeau's Tango an insightful personal history traces the tangled political relationships that developed when the charismatic statesman confronted the forces of oil and agriculture in Canada's West Liberal insider Darryl Raymaker recounts an attempt to broker a marriage from hell between the federal Liberal Party and Alberta's Social Credit government The failure of this union is

one of the reasons why the Liberals continue to struggle for favour in Alberta Part memoir part chronicle Trudeau s Tango is a timely book on a provocative matter perfect for anyone interested in Canadian history politics economics or the Canadian zeitgeist of the late 1960s      *Developing Alberta's Oil Sands* Paul Anthony Chastko,2004 Alberta s oil sands represent a vast and untapped oil reserve that could reasonably supply all of Canada s energy needs for the next 475 years With an estimated 300 billion barrels of recoverable oil at stake the quest to develop this natural resource has been undertaken by many powerful actors both nationally and internationally Using research that integrates the economic political scientific and business factors that have been influential in discovering and developing the sands this book provides a comprehensive history of the oil sands project and a window on the nature of the complex relationships between industry government and transnational players This book is the first comprehensive volume that examines the origins and development of the oil sands industry over the last century      *Carbon Province, Hydro Province* Douglas Macdonald,2020-04-02 Why has Canada been unable to achieve any of its climate change targets Part of the reason is that emissions in two provinces Alberta and Saskatchewan already about half the Canadian total when taken together have been steadily increasing as a result of expanding oil and gas production Declining emissions in other provinces such as Ontario Quebec Nova Scotia and New Brunswick have been cancelled out by those western increases The ultimate explanation for Canadian failure lies in the differing energy interests of the western and eastern provinces overlaid on the confederation fault line of western alienation Climate energy and national unity form a toxic mix How can Ottawa possibly get all the provinces moving in the same direction of decreasing emissions To answer this question Douglas Macdonald explores the five attempts to date to put in place coordinated national policy in the fields of energy and climate change from Pierre Trudeau s ill fated National Energy Program to Justin Trudeau s bitterly contested Pan Canadian program analysing and comparing them for the first time Important new insights emerge from this analysis which in turn provide the basis for a new approach Carbon Province Hydro Province is a major contribution to the vital question of how our federal and provincial governments can effectively work together and thereby for the first time achieve a Canadian climate change target

## Embracing the Beat of Phrase: An Mental Symphony within **Sorcerers Apprentices Canadas Super Bureaucrats And The Energy Mess**

In some sort of eaten by monitors and the ceaseless chatter of fast interaction, the melodic elegance and mental symphony developed by the written term often disappear into the backdrop, eclipsed by the persistent noise and distractions that permeate our lives. But, located within the pages of **Sorcerers Apprentices Canadas Super Bureaucrats And The Energy Mess** a stunning literary prize filled with natural feelings, lies an immersive symphony waiting to be embraced. Constructed by an outstanding composer of language, that charming masterpiece conducts viewers on an emotional journey, well unraveling the hidden songs and profound impact resonating within each cautiously constructed phrase.
